

There's a good margin of profit in oil. It's a steady staple and you sell a lot of it. How much do you make? You can't tell unless you have a BOWSER SELF-MEASURING OIL TANK. The old style wastes oil by dripping, and that reduces your profits. The BOWSER has an automatic cut-off that prevents dripping and waste, and PROTECTS YOUR PROFIT. It pays for itself in a few months' savings. It not only saves oil, but it saves other goods from being damaged by it. With a BOWSER you hang the customer's can on the nozzle and pump. There's no oily measure and funnel to bother with. When the can is full the BOWSER Computer shows at a glance how much to charge, just like your computing scales—no guesswork! Find out about it. Write for our catalogue and full information. Let us show you how to MAKE MONEY on oil.
