Phoenix Mutual Life Insurance Co. HARTFORD, CONN.

Accumulated Fund, \$2,000,000, Income, \$1,000,000

THIS Company, established in 1851, is one of the most reliable Companies doing business in the country, and has been steadily prospering. The Massachusetts Insurance Reports show that in nearly all important matters it is superior to the general average of Companies. It offers to intending assurers the following reasons, amongst others, for preferring it to other companies:

It is purely Mutual. It allows the Insured to travel and reside in any portion of the United States and Europe. It throws out almost all restriction on occupation from its Policies. It will, if desired, take a note for part of the Premium, thus combining all the advantages of a note and all cash company. Its Dividends are declared annually, and applied in reduction of Premium. Its Dividends are in every case on Premiums paid. The Dividends of the PHOENIX have averaged fifty per cent. yearly. In the settlement of Policies, a Dividend will be allowed for each year the policy has been in force. The number of Dividends will always equal the outstanding Notes. It pays its losses promptly—during its existence never having contested a claim. It issues Policies for the benefit of Married Women beyond the reach of their husband's creditors. Creditors may also insure the lives of Debtors. Its Policies are all Non-forfeiting, as it always allows the assured to surrender his Policy, should he desire, the Company giving a paid-up Policy therefor. This important feature will commend itself to all. The inducements now offered by the PHOENIX are better and more liberal than those of any other Company. Its rate of Mortality is exceedingly low, and under the average.

Parties contemplating Life Insurance will find it to their interest to call and examine our system. Policies issued payable either in Gold or American currency.

Extract of Hemlock Bark—Extract of Oak Bark.

Important to Tanners, Merchants, Machinists, Lumbermen and Capitalists seeking for a Remunerative and Profitable Investment in Canada.

THE IRVING BARK EXTRACT COMPANY OF BOSTON have succeeded in perfecting a Machine for obtaining by compression from unground Bark, all the astringent and Tanning properties of Hemlock and Oak Bark.

By the operation of this Machine, which can be taken into the forests of Canada, on the spot where the Bark is peeled, the actual Tanning principle of the Bark is extracted by compression, and is produced in so concentrated and so small a bulk, that it can be conveyed to market, ready for use, at a mere fractional part of the expense required to freight the crude Bark; 40 galls. of this Extract, weighing 400 lbs., can be obtained from one cord of first quality of Hemlock Bark; and this is worth for home use or for exportation \$20 per barrel.

We are now ready to grant licenses or to receive orders for these Machines.
