

NOVA SCOTIA EXHIBIT

At the Imperial Fruit Show, London, Oct. 28 to Nov. 3rd, 1921

(From "Canada")

In a show of such magnitude when each Province sends its choicest fruits packed and supervised by experts from beginning to end, we must look for local detail for points.

In this way without any attempt at belittling other Canadian Exhibits, we can safely say Nova Scotia created a very favourable opinion. The fifty-four boxes displayed by the Nova Scotia Government were arranged as to lend themselves pleasing and restful to the eye, only sufficient fruit being unwrapped in each case to make a design, whilst a centre piece was ingeniously arranged with green apples on a background of red to form the words Nova Scotia—thus breaking the severe lines and relieving endless rows of red which met the gaze everywhere, tier on tier.

Miss J. B. Martin, of the Nova Scotia Agent-General's staff, who had the arranging of the stand received many compliments on its appearance. She was also in attendance daily to answer questions and give information about the Province.

Another feature of this exhibit was the ample display of Photos (especially of those in colors) showing every phase of fruit development in that Province. The cozy alcove adjoining the Exhibit where these pictures were shown was practically filled throughout the day by admiring visitors. Here also, in bold relief was a map of the Province surrounded by "The Nova Scotia Government" in large gold letters on a red base, while underneath the map was the legend setting forth the development of the fruit industry in successive decades since 1880—a really remarkable development.

From the start it was evident Nova Scotia's propaganda was in good hands. Major Murphy, of the Dominion Department of Immigration, and a native of Nova Scotia, was loaned at the request of that Province. Their display was the first to bear placards leaving no doubt as to the origin of the prize fruit otherwise difficult of identification. In addition each box bore a card setting forth the same information contained on the chart at the main Exhibit. In strategic positions this Province seems to have had an eye to business. Entering the Overseas Section either by the main, Bus Route or by Railway, strange to say the first overseas fruit to catch the eye,

are sections of their Exhibit. This impression is most valuable and to Professor Blair is due the credit for such foresight. Buyers have freely stated that for utility they favour the Nova Scotia Exhibit and bidding has been keen as a result.

In no other way could the fruit belt of Nova Scotia receive such publicity as given through the "Daily Mail" initiative. The enquiries by well-to-do visitors are reported to have been most gratifying. Another tribute to persistence that should be commended was the lion share of the films displayed being Nova Scotian. Diplomacy, and faith in their Province, seemed to convince the "Cinema Committee" on the superiority of their pictures which were confirmed by the manner in which they were applauded by thousands daily in the main picture house.

On H. R. H. Prince Henry's round of inspection of the various Exhibits, he was received by Mr. J. Howard, the Agent-General, who asked the honour of the Prince's signature in the Guest Book. The request was graciously complied with, Nova Scotia being the only Province so honored, and in itself an enviable distinction.

The varieties of apples on display were Kings, Russets, Ben Davis, Greenings, McIntosh Red, Cox's Orange, Blenheim, Wagners, Baldwins, Spy, Salome, and Stark and were forwarded by Mr. W. B. MacCoy, Secretary of Industries and Immigration, Halifax, Nova Scotia.

In the main building devoted to Britain's home fruits, were the Exhibits of many of the large buyers. Mixed with home fruit were shipments received from individual Nova Scotia packers, the Booth of "Ridley and Halden" giving particular prominence to a shipment of barrel fruit packed by E. E. Armstrong, of Falmouth, Nova Scotia, every one of which was attracting passers-by throughout the week.

AVERAGE MAN WEDS AT 30

More than 1,600,000 men and women more than 45 years old are eking out a miserable existence in single blessedness, the census reports. More than 100,000 men about 76 years of age are listed as bachelors and nearly an equal number of women, 64 years or more, also are unmarried, besides a still larger number of men and women 50 years old who are without mates as a result of divorce or death. The average man now marries at 30 and the average woman at 25.

YOUR HOME TOWN PAPER WHAT IT CAN DO FOR YOU

First of all, it can bring to you the news of your home town. Week after week, it prints in detail the happenings of the community. Faithfully it sets forth the goings and comings of its people, giving careful attention to the homely little items that are ignored in the overcrowded dailies of the big cities.

It can furnish you with more interesting information about people you know, or used to know, than could a dozen correspondents. The one who writes to you may know only a few of your friends at home—but your Home Town Paper knows them all. It tells you about people you are interested in.

Finally, in a good, hard business sense, your Home Town Paper is of value to you. It keeps you posted as to the industrial and commercial growth of a community which familiarity may have caused you to neglect. It often reveals that keen people see, right in your home town, a mine of golden opportunity. The moral is obvious—SUBSCRIBE TODAY FOR YOUR HOME TOWN PAPER.

IT CURSD THEM

(Frank L. Brooks, in Judge)

Any public speaker knows how annoying it is to have someone hold a whispered conversation in any part of the auditorium while he is trying to keep his thoughts upon his subject.

At a revival meeting recently during the Sunday evening service, a young minister's attention was divided between his subject and a young couple holding a rapid-fire conversation behind the girl's fan.

The minister had looked hard in their direction a number of times, but as that had no appreciable effect upon them he finally turned his full attention to them with the intention of giving them a severe reprimand. As the congregation turned as one to see what had caused the disturbance, a resounding smack was heard all over the house as of two lips coming together in a kiss.

A practical joker sitting just back of the couple had caused the illusion by kissing the back of his hand at just the right moment to produce the desired effect. The minister was not interrupted again.

Minard's Liniment for Colds, etc.

DEMAND FOR CHRISTMAS GREETINGS

A banner year for the sale of Christmas greeting cards is expected by dealers in them. Their sales are becoming so great, it is claimed, that special stores in the down town section are being opened to take care of the demand. The increased sales are said to be due to the fact that the prices of Christmas goods are so high that people are falling back on greeting cards in place of buying gifts. The cards vary in price from 5 cents to \$1. The 15 cent engraved cards are in most demand. This year's greetings are having richer designs and greater variety of color than those of previous years.—The New York Herald.

Gifts that will last for years and be a constant reminder of the giver. Prices are down too. Our new CATALOGUE will show you. Write for a copy today. WE PAY FREIGHT on orders amounting to \$10."

What Is To Be Canada's Destiny?

Shall it be that through the destruction of the Tariff as proposed by both Crerar and King, the development of Canada is to come under the domination of the United States, to be followed by gradual financial domination and as a consequence, political domination?

OR

Is Canada's destiny to be that of a great free nation within the British Empire group of Nations, developing her boundless resources of mine, river, water power, forest, and cultivating her millions upon millions of acres of arable land? Is her development to surpass that of any other nation?

Shall her manufacturing industries develop her minerals and raw materials into implements and goods for the benefit and comfort of her people and for foreign trade?

Shall she become a self-contained nation within the Empire, her great railways interchanging, the products of factory and farm among her own people, and her ships sailing every sea?

Shall she maintain her integrity within the Empire and protect her farms and factories against unfair competition from foreign countries?

IF THIS IS TO BE CANADA'S DESTINY THEN CANADA NEEDS MEIGHEN.

On December 6th, Canada should once again protect her farms, her factories and her workmen against the unsound theory of Free Trade, and should hold fast to her reasonable Protective Tariff, her national entity and her British connection.

On December 6th Canada should declare with no uncertain voice that she will not tolerate the false trade theories of visionaries and group leaders which tend toward her economic destruction, toward the separation of her people and the weakening of the ties that bind Canada to the British Empire.

On December 6th Canada should demonstrate unmistakably to the outside world her fixed determination to keep Canada for the Canadians.

On December 6th Canada's destiny is at stake.

Canada Needs Meighen
