

A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring, if your nerves are overstrained, if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions.

If you are in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

Scott's is strengthening thousands of mothers—and will help you. Try it.

RED CROSS SOCIETY APPEAL

British Association Makes Empire-wide Request

I have received the following cablegram from the Marquis of Lansdowne (who from 1883 to 1888 was Governor General of Canada) in his capacity as President of the British Red Cross Society.

I beg to inform you that the British Red Cross Society and the Order of St. John, in view of the great demands upon their resources, both in France and in the Near East, have decided to make an appeal throughout the Empire by street and other collections upon October 21st. The money received from this appeal will be devoted entirely to relieve the sufferings of our wounded soldiers and sailors from home and overseas at the various seats of war. From all parts of the King's Dominions we have already received generous assistance in our work, but in the increase of British and overseas forces at the front, there is a corresponding increase in our expenditure, and we shall be truly grateful to you if you will help us by organizing an appeal and sending us the proceeds for the objects I have named. I shall be greatly obliged if you will kindly communicate the foregoing to your government. Their Majesties the King and Queen and Her Majesty Queen Alexandra are giving us their gracious patronage, and I trust that you also will be able to see your way to help.

Signed, Lansdowne, President of the British Red Cross Society, 83 Pall Mall, London.

I have also a telegram from His Royal Highness the Governor General, signifying his approval and endorsement of the appeal.

I would request the members of the Legislative Assembly of the Province of New Brunswick, the Mayors of the cities and towns in the Province, the Wardens of counties, and also the officers of all philanthropic societies, to co-operate in this work. The services of the ladies should especially be secured, and also the Boy Scouts. I would especially request the clergy of all denominations to interest themselves in the success of this appeal and to give it publicity in their churches at the services on the 17th of October inst. It will be noticed by the above cablegram that the appeal of the British Red Cross Society is for "street and other collections," and the day fixed is the "21st of October." While it will be desirable to carry out these suggestions as far as possible, and secure uniformity throughout the Empire, it will be quite proper for

any one who wishes to aid the cause, to do so in any way that is most convenient. Cities, towns and smaller communities can each make arrangements regarding the collections as they consider will best secure the object aimed at in their locality.

It has been decided that the money collected in this province will be remitted by the Lieutenant Governor direct to the British Red Cross Society. Any information needed will be gladly given by Mayor Frink of St. John, who is President of the Provincial Red Cross Society, or the Treasurer, Lady Tilley, or can be obtained by communicating with my office at Fredericton.

JOSIAH WOOD.

War Articles Worth Knowing

The "Witness" articles on the War Situation are appreciated throughout Canada by the best informed people, for their clearness and sincerity, as well as for their fine spirit, breadth and foresight.

The Montreal "Weekly Witness" is a truly great national paper. It always has been and still is absolutely owned and edited by Dougalls. Mr. John Redpath Dougall being its editor.

While some papers are notoriously and consciously at the beck and call of predatory interests, there are others, like the Montreal "Weekly Witness" that have maintained their independence. It has never grovelled. It has never tuted. It has never pandered. The "Witness" is its unique self, loved by its friends, hated by its enemies.

During the past three generations it has conscientiously, devotedly and very efficiently, served its country in many ways, notably in its campaign for Temperance, Righteousness, Religious Liberty, Education, and every thing looking towards lower cost and higher plane of living. If Canada is not yet enjoying to the full the benefit of these things, it is far ahead of many other countries, in most of them, and this is due in no small measure to the stand, or, more correctly, the splendid campaign of the "Witness" whenever opportunity afforded. The welfare of the Canadian farmer in particular has always been considered of prime importance by the Editor of the "Witness," and the "Witness" has done yeoman service to agriculture.

Generations of our finest Canadian families have literally been "brought up on the 'Witness'," as many of the most eminent Canadians will testify, and they continue its devoted admirers.

Besides the moral and political aspects of this great newspaper, it has attractive features embracing all the interests of the family and a splendid Farm and Poultry Department. Its short and serial stories are strong and fresh, and they alone are worth several times the price—one dollar a year. To bona fide New Subscribers mentioning the name of this paper, one trial year may be had for only 65 cents, or three months on trial only fifteen cents.

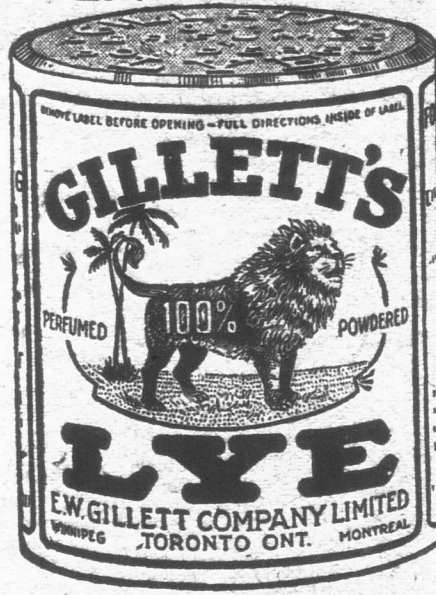

The publishers are, as always, JOHN DOUGALL & SON, "Witness" Office, Montreal.

The "Weekly Witness" has now no connection with any daily newspaper and is the healthier for it.

Melvin—Fowler

Married at Carlisle, Oct. 10, Joseph Melvin, and Annie J. Fowler, both of Carlisle, at the home of Mr. and Mrs. J. N. Pratt. The nuptial knot was tied by Rev. C. H. Orser, uncle

GILLETT'S LYE EATS DIRT

of the bride, at 12 o'clock noon. The happy couple left for the home of the groom at three o'clock—the farm home so beautifully situated on the heights overlooking the valley of the beautiful old north branch stream, where very pleasant memories of the past are called to mind by the good people of Carlisle. We all join in wishing them many years of happy married life.—Selected.

Yield In North Country Will Be Heavy

Favored as the whole of the Coronation district is with abundant yield this year it looks much as though the banner yield will come from the country north. "The greatest crops that we people have ever had and we've had some good ones" was the remark made by one farmer to the Review scribe who was out in that country at the end of last week, and his superlative was surely justified.

All through Brownfield, Puffer and Talbot can be seen fields of stocks almost as thick as they can stand and 40 bushel per acre looks like a conservative estimate for many of them. G. L. Richardson has a field that will probably beat forty while his neighbor just over the road, E. Fribance, has some stuff that looks almost equally good. Wm. Sturrock and sons are figuring on the biggest yield of their experience. Here were also to be seen some very fine vegetables and roots, particularly beets and turnips, a few samples of which will probably find their way into the Fall Fair.

B. McKinney of Puffer was getting his threshold outfit in readiness for a start as the Review scribe dropped in on him. One of the pioneers of this fertile section of rolling prairie with its pretty sheltering bluffs, Mr. McKinney has made for himself a very nice farm home and has evidently prospered in this land of opportunity. O. W. Perkins, one of the newer settlers, who came here from Spokane about two years ago, seems well satisfied with the move he made when he came to Sunny Alberta and evidently does not regret having chosen the Coronation district as his future home. Though Mr. Perkins' crop acreage is not extensive what he has is good. At R. Townsend's a threshing, outfit, was observed to be at work shelling out the golden grain. Mr. Townsend is not a heavy wheat producer however, having devoted more of his attention to stock during his ten years of residence in the district and in this line has undoubtedly been successful. An estimate of the grain then coming from the machine was put at 35 bushels. A nice driveway of Manitoba maples and ash trees can be seen at Mr. Townsend's. Grown from seed planted seven years ago some of the maples have reached a height of about 15 feet and are in a flourishing condition.

Coming home through Talbot the same prosperous conditions were observed to prevail and the people of this district will undoubtedly contribute their share to the total yield to be produced around Coronation. While fields of uncut grain were observed, they were few and far between and about 95 per cent. of the crop must have been in the stook and safe before Friday night's frost descended so unexpectedly.
