-"Say, captain," said a fresh young man on a sound steamer, "what's that thing over there?" "A hawser," was the brief reply. "A horse? Dear me! What do you use it for, captain?" "Well, when fools like you get tired of sailing, we just put a saddle on it and let them ride ashore," growled the gruff old mariner.

A Royal Food Preservative. - Tribune. **REX MAGNUS** What it is, and What it Does.

Humiston Food Preservative, ND, as its name signifies, is a Mighty King, an invincible conqueror. It is safe, tasteless, pure and harmless. Its special field of usefulness is in the preservation of food, such as fish, meats, oysters, cream, etc., either in large or small quantities—and it does it.

Words are cheap, and so is Rex Magnus, in all its several Brands. Every word used by the proprietors of this prepara-tion, in stating its nature, characteristics and effects apon food, is strictly true. Corroborative testimony can and will be cheerfully tendered.
