> Was Reserved- Shares In volved Amount to \$250,000, Against Which Are Loans Totalling \$102,000

Toronto, Dec. 31 .- Arguments on class 11 claims against the York Loan assets was heard yesterday afternoon by Official Referee Mr. Kappele. Judgment was reserved. Mr. W. R. Smythe appeared for the class and Mr. W. M. Douglas, K. C., for the general body of shareholders. Class 11 includes those shareholders who borrowed on their stock. The shures involved amount to \$250,000, against which loans totalling \$102,000 have been made. Mr. Smythé held that the amounts paid in by a shareholder after borrowing on his share should be credited against the loan, so that whern the liquidator comes to distribute the assets of the company the shareholder will receive his dividend on the amount paid in up to the time he borrowed, and that money paid in after the date of borrowing be credited against the loan itself. The bookkeepeling of the York Loan indicated that payments made after money was borrowed were invariably credited as additional stock payment and not set down as offset to the loan, unless special application were made by the shareholder. It is against the apparent effect of this system of bookkeeping that Mr. Smythe was arguing. who borrowed on their stock. The shares
