### More Details of the Burns-Squire's Fight.

Burns-Squires's Fight. Tommy Burns truly had a hard fight in his second meeting with Bill Squires, in Paris on Saturday night. The first three rounds were Squires', who got a straight left home to the face atmost as he pleased. Burns, however, seemed to care little for the jab, but continually was on the watch tor squires' famous right. Not once was the Australian able to get home is sleep producer. As a result of Squires' hard, aggressive work during the early stagges of the battle he was pretty well tried out when Burns be-gan to hit up his true page. The first part of the fourth round was, the tamest of the sounded and save-ery men were taking matters easy until the very end, when Squires hooked all but out. Both men were taking matters easy until the very end, when Squires hooked a terrific right to the jaw, sending Tommy reeling across the ring and all but out, Before Squires could land another blow the bell sounded and sav-ed Burns the title. It was a narrow es-cape from sure defeat. The fifth round seemed to put Burns chances in danger and the crowd was in a frenzy of excitement. But when time was called Tommy bounded out of his correr with a leap and jabbed Squires three times before he could cover up. #### International League Will Run With Hamilton Lacrosse Team Getting Four Clubs. Ready For St. Kitts.

London, June 16 .- It is just possible that the International League may not become a six-club league this summer. but the four cities now in the league wil continue and play out the original sched.

but the four cities now in the league will continue and play out the original sched. ule, leaving expansion until next year, when the league will be a circuit with London and Hamilton the baby cities, that is if present plans do not miscarry. The main difficulty this year seemed to be in getting the sixth club. Lockport and Erie were considered as the two added towns to the league, but although Lockport was eager and will-ing, and for that matter is yet, Erie was snapped up by the O. & P., despite the fact that international people bid high for the grounds and franchise left open by the dissolution of the Interna-tional League, and which was broken up by Fried Paige, promoter of the Interna-tional League, and which was broken up by Erie pulling out for the express pur-pose of getting into the O. & P., which is controlled not by private club owners, but by a syndicate. Bufalo was then thought of, and par-ties applied to take the matter up, with the result that arrangements were all practically completed, until Saturday a hitch came in that put all negotiations to the bad, the Buffalo people attempt-ing to force in a little hold-up in the business end of the proceedings that didn't go down. Smaller Than Atoms.

Smaller Than Atoms. It has usually been assumed that the atoms of which all matter consists are indivisible, but Professor Thmopson, of the Royal Society of Great Britain, has found what he takes to be the strongest possible widence of the divisibility of atoms. Experiments with cathode rays indicate, he says, that the stream of "Hello, Tom!" called the latter. "Why,

The Amdiscipline is the secret of this cham-pion's work. It is not mere brute force that's the game to play, and be tri-umphant. Never mind what people say about the brutality of boxing. Let them go on. We know that to be success-ful the professional boxer of to-day has to live a simple, stremuous life. The money he makes is not always thrown away, but put into briek, and mortar with the object of providing for those dependent on him. You must give re-spect where respect is due, and I say that Tommy Burns is not merely a great physical lesson, but also a great moral lesson. He has put into our pockets to-night money which he might have put into his own, in order that we might know that in success We are not to forget our poorer brethren in the street." mering on the Olympic artries from America, says: "They are of a quality which males English athletes tremiole. The Am-ericans, who made their final selection earlier in the week, have certainly the finest team of athletes ever collected. We sometimes in this country sneer at American times and speeds, but it is be-yond denial that in America are found. or, rather, made, men who can run fast-er, jump higher, or throw weights fur-ther than any other people in the world.
