A BAKING SUCCESS WHICH YOU CAN DUPLICATE IN YOUR HOME BEAVER FLOUR "pastry" flours, is just plain talk. Anyone, who knows anything

about wheat, knows that Western wheat flour cannot and does not, make as good Pastry as "Beaver" Flour. Western wheat has what the bakers call strength. It makes a big loaf of bread-but the bread is

spongy and lacks flavor. Ontario wheat, blended with spring wheat, makes the ideal bread and pastry flour. The bakers of Toronto and London—the experts at the agricultural colleges—and thousands of homes in Ontario, Quebec and the Maritime Provinces—have proved that "Beaver" Flour is superior to any Western wheat flour, and is equally good for Bread and Pastry.
