GAME FISH TAKEN FROM ATLANTIC TO THE PACIFIC

Two experiments of the greatest importance to the fishing industry in Canada have been brought to a stage where success can be claimed, it was announced by officials of the department today.

Atlantic salmon, famous the world over as a game fish although of no utility for canning purposes, have been transferred successfully to Cowichan River, on Vancouver Island. At the same time the Pacific salmon of the Sockeye family, so valuable to canners, has been brought to Lake Ontario and launched successfully into fresh water.

In both cases the subsequent years have shown that the new fish have grown and flourished in their new environments. Two year old Atlantic salmon have been caught in the Pacific coming down the Cowichan River and fully matured Sockeye have been caught in Lake Ontario.

The value of the innovations are obvious when the importance of a world famous game fish to the Vancouver tourist trade and the desirability of a salmon canning industry to Ontario are considered.

The work has been going on for six years and an average of 200,000 young Sockeye have been released each year in Lake Ontario and 500,000 young salmon in Cowichan River.

The Federal Department has also taken unusual precautions to keep the game fishing in the Banff district up to the market. This year 1,500,000 game fish were released in the Banff area. They included, Cutthroat Trout; Rainbow Trout; Loch Leven Trout and Salmon Trout.

Alcohol and Politics

(From the British Weekly)

Some useful information for temperance workers and social reformers has been given lately in the Observer on the subject of clubs and liquor. In this week's issue Mr Isaac Foot, M.P. calls attention to the political threat which emanates from the clubs. Their general political policy is a violent opposition to the Local Option. The clubs proclaim their belief in liberty. Mr. Foot's caustic comment is that "the liberty of the local community apparently ceases as soon as self-interest is touched."

Some recent utterances of Mr. E. Richardson, M.P. the President of the Club and Institute Union are quoted. After mourning the absence of a conservative majority and castigating the Liberals for threat

Remember the name

ROYAL YEAST CAKES

ening the clubs, Mr. Richardson, turned to the Labour party and congratulated them on cleaning their slate of all reference to the "drink" matter. The clubs had suggested through their secretary that Labour should hesitate to don the fatal shirt of the Liberal party.

"Who demands Local Veto" Not the great body of workmen, who have always been and will be opposed to it. No one but the chapels. It appears from these other observations that the Labour party is becoming the captive chained to the chariot of the chapels."

At a slightly earlier stage the Club and Institute Journal rejoiced in the emancipation of the Labour party from the "domination of the Little Bethel state of mind in to which one or two of its leaders endeavored to thrust it." In a recent address a Kuakin College Oxford, a Mr. Harris Claughton said he confessed unblushingly that the foundation of the success of the clubs was "beer, glorious beer." There are leaders of the Labour party who take seriously their responsibility for the welfare of the community that they refuse to be intimidated by this sort of thing. Mr. Snowdown was not afraid to state in the debate on the Welsh Bill that he had always written in his largest handwriting the word "No" against the questions which the clubs had submitted to him. It is evident that the drink evil has a double line of defence and that it may be even more strongly entrenched in the club than in the public house. The Christian sentiment of the community must show itself alert to watch the evil and to support those in any party from Lord and Lady Astor to Philip Snowdown who are really awake and alive in the battle.

Fine Results In Radio Obtained

Marvelous results achieved in the realm of radio are indicated in the report made to the Radio Branch of the Department of Marine and Fisheries by Operators Chout of Toronto and E. Finnie of Ottawa, who returned from the far north on the Canadian Government steamer "Arctic." The picture of officers of the Canadian vessel far away in the northern ocean listening to reports of the Wills-Birch broadcast from Pittsburgh is drawn in the report. Messages were received over a distance of 2,100 miles and could probably have been received over a further distance states the report today.

FARMERS HARD HIT BY LOW SPUD PRICES

Perth, Oct 8—The farmers of Victoria county are being hard hit by the present meagre price for potatoes. Although the crop is the best in years some farms averaging from 150 to 180 barrels to the acre, and of the finest quality the farmers contend that the prevailing price of 55 to 60 cents a barrel will ruin them.

In the spring the farmers were forced to borrow at high interest charges, sufficient money to pay for their fertilizer which was being sold only for cash. The yield at present prices it is said will hardly pay these bills let alone give the workers a fair day's wage for their summer's work.

Potato pickers are demanding eight cents a bag for their work and with teams, diggers and other expenses have run the cost at this end of the game into a very considerable figure.

The spirit of pessimism is noticeable in the stores of the county but still there are some optimists who are hoping for better prices.

They recall conditions a few years ago when in the fall potatoes sold for 40 cents a barrel and rose a few months later to from \$10 to \$15.

In spite of the small prices the farmers have no fight with the prominent buyers because they realize the dearth of available markets.

The cause of the present depression is assigned by some to the fact that the farmers planted very heavily in the hope that the returns would enable them to meet old bills contracted when companies carried them over a bad season.

Many companies are suing these accounts but are finding nothing to levy upon. The only thing that will save the situation is better prices for potatoes.

Governors-General Of Canada

Q.—Please give the names of the Governor-Generals of Canada since Confederation with the dates when they assumed office.—Thank you.

A.—Viscount Monck, July 1, 1867; Lord Lisgar February 2, 1869; the Earl of Dufferin June 25, 1872; the Marquis of Lorne November 25, 1878; Marquis of Lansdowne Oct. 23, 1883; Lord Stanley of Preston June 11, 1888; the Earl of Aberdeen Sept. 18, 1893; the Earl of Minto Nov. 12, 1898; Earl Grey December 10, 1904; The Duke of Connaught October 13, 1911; the Duke of Devonshire November 11, 1916; and Lord Byng of Vimy August 11, 1921.—Star.

Keep Your CHILD'S SCALP Healthy

Mothers! Save your children from painful, disfiguring scalp trouble by applying herbal Zam-Buk to the first itchy spot or soreness.

Zam-Buk is a carefully soothing, it makes the head and hair healthy and sweet, prevents itching, soothes eczema, ringworm and other scalp diseases.

Zam-Buk is as most effective simply because it attacks the cause at the root, killing poisonous germs and purifying the scalp tissue.

Zam-Buk is compounded from certain rare extracts of essential oils and medicinal plants. It contains no poisonous drugs or animal fats like ordinary ointments, but is a form of the utmost purity with a far-reaching effect.

Zam-Buk MOTHER'S BEST FRIEND.

When the scalp is cut, burnt, sore, inflamed, or "broken-out" in any way, Zam-Buk is always the safest and most reliable healer to use. Keep a box always handy! 50c. at Druggists.

FAULTY NUTRITION

Many of the ailments of grown people may be traced to faulty nutrition. Well-fed children or adults withstand weakness better than those who are indifferently nourished.

Supplies the weakened child or adult with food-factors that other foods often fail to furnish in needful volume.

Not a great deal of Scott's Emulsion is needed—but a little regularly often means restored vigor and strength to those who are rundown in vitality or who are weak.

Here and There

Tourist business throughout Canada has been remarkably productive this year and it is estimated that its total value for the Dominion will exceed \$100,000,000. This places the tourist traffic high among Canada's industries.

The "Princess Kathleen", one of the two fine steamers under construction for the Canadian Pacific Railway's British Columbia coastal service, was launched at Glasgow, Scotland, on September 27th. Lady Mount Stephen, widow of Lord Mount Stephen, former president of the company, performed the launching ceremony.

As an indication of how plentiful wild game has become of recent years in the Province of Quebec comes a report from Montreal, which records the recent appearance of a full-grown bull moose in Rosemount, a suburb of the city. It is thought to have strayed into the neighborhood from the forest to the north. The animal was quite tame and was easily captured.

The Duke of Alba, who, with other Spanish grandees, recently completed an extensive tour of Canada, purchased a number of very valuable furs for gifts to be presented to his friends, including the King and Queen of Spain. The furs were acquired while the Duke was sojourning at Banff, the popular mountain resort on the Canadian Pacific main line.

So greatly has the turkey industry grown in Saskatchewan that marketing pools have now been arranged by the Saskatchewan Department of Agriculture and the Saskatchewan Grain Growers' Association for the marketing of both dressed and live turkeys this fall. Inspectors will be furnished for grading and giving killing and dressing demonstrations.

So heavy was the movement of grain from the lakes to the port of Montreal recently that serious congestion was feared. The storage capacity of the port is 10,000,000 bushels and the grain in sight was greatly in excess of this figure. But skillful handling quickly reduced the amount in hand to 7,500,000 bushels, relieving the situation completely. No further possibility of congestion is anticipated.

It is expected that before the season closes the work of re-ballasting the main lines of the Canadian Pacific Railway in the Quebec District between Montreal and Ottawa, Montreal and Toronto and Montreal and Quebec will be completed. The latter section requires only a few miles to be finished, while the other portions of line referred to have already been finished. As a result, the Canadian Pacific will have in these lines a road-bed which is not excelled by any other on this continent.

Bonny Blue ENAMELLED WARE

We are always first to introduce the newest and best lines of enameled ware. Call and see these Bonny Blue lines. A heavy three coated ware in Blue and White.
