Tacoma, Wasb., Aug. 5.— Dodwell Carlisle and company of Hong Kong, together with a number of Tacoma capitalists, have organized a steamship company, and will compete for Alaskan trade, with company headquarters at Tacoma. The new corporation has chartered the steamer City of Seattle, which will leave here August 15 with accommodations for 500 passengers and with a freight capacity of 600 tons, The company will also put on two other steamers.

Challenges Mr. Tarte to give the names of those who support his plan. Indiportation in the eighteenth century they will probably see the twentieth. Mr. McNeil walks a mile every morning to Mass. In the spring he planted two bushels of potatoes and wheeled in a barrow all the manure needed in his potato field. Who says that we are a degenerate people.

chased at the camp from the Indians. Two months' provisions will be taken from Victoria, or perhaps from Juneau, arrangements having been made with the North American Transportation and Trading company to supply the camp for the rest of the stay. The working implements will be purchased at the frontier, where miners' kits are fully understood and can be purchased more cheaply. The men will take up the claims when they get there under the direction of Engineer A. T. Genest, who is confident of success. The agreement between the men and the company is that all expenses of the journey are restricted by the company which also needs, and it was approved by the Harmest needs needs and it was approved by the Harmest needs needs and it was approved by the Harmest needs ne ment between the men and the company is that all expenses of the journey are paid by the company, which also guarantees \$250 a day for provisions. In addition to this the men receive one-quarter of the earnings of the mine after the royalty is paid, If ten men go, each will get one fourth of the output of the mine after all government fees are paid. A great many men have applied for a place in the cainp, and have been well pleased with the gonditions, Auzias Turenne, a well known montrealer, is going to the Klondyke region in the spring, in company with some friends from the Black Hills, to meet friends who are already in the gold fields, Mr. Turenne, who is the author of an iuteresting book on the wild west, states that the object of his trip to the Klondyke is to write a book.

of great ability and long experience of the working of the harbor and of its meets and it was approved by the Harbor Commission, the Board of Trade, the covic authorities and the Chamber de Commerce." This plan Mr. Tarte has set aside, and has substituted therefor "a plan which has been sent from the United States the the working of the harbor de Commerce." This plan Mr. Tarte has set aside, and has substituted therefor "a plan which the art down and restricts the capacity of the harbor and will constitute a sacrifice of the interests, present and future, of the port." The Witness points out that Plan No, Six is supported by all the steamship companies, the shipping firms, the 'grain and provision merchants, the cattle dealers and the whole-wild west, states that the object of his sale trade of Montreal, which built up the whole business of the port, and it challenges Mr. Tarte to give the names

and of all the representatives of the Minister of Spain, was assassinated on business interests involved, is simple Saturday last at Santa Agueda by an anar-New York, Aug. 5.—A special to the Journal from Fort Wrangle, Alaska, by Joaquin Miller, under date of July 28th says: I learned to-day that two bands of cattle were driven into the Klondyke last summer, and that three bands have already been driven in this year. I find that a band of 1,000 sheep passed meant for suy other place. And now resulting from taking Hood's Sarsaparilla this is an assumed name.

In St. George's Church, Grand River East, on Sunday September 19th, his Lordship Bishop McDonald will raise to the priesthood, Rev. D. J. McKinnon, now in deacon's orders. Rev. Mr. Mc-Kinnon is a native of St. George's, being the son of Mr. F. X. McKinnon of Melrose. He finished his Theological studies in St. Mary's Seminary, Baltimore in 1896 and during the past year has followed a post graduate course in the Catholic University, Washington, He will be ordained for the archdiocese of San Francisco, After his ordination he will return to the University for another year.

In the Imperial House of Commons on the 4th inst., Mr. Chamberlain said that at himself a resolution was passed unanimously, the substance being that the premiers of the self-governing colonies heartily re-commended the earliest denunciation of the reaties as hampering the trade of Great Britain and her colonies. Thereupon Her Majesty's Covernment resolved to withdraw the treaties with Germany and Belgium. In conclusion, Mr. Chamberiain If you catch the idea read on, as we have some assured the House that the action of Canada in the matter was not a step towards separation, the intention being to show the gratitude and prove the loyalty of the Canadian Government.

PROFESSOR BUELL, who gave such city and some parts of the country about seven years ago is now visiting the Island accompanied by Mrs. Buell. Professor Buell, s entertainments are of the highest canvass, of the most charming scenery, persons and places, is not only most interesting, but educative. No man, perhaps, has done more than he to bring our country's greatness, resources, variety and magnificence of scenery before the world, in a way that is most impressive and that reaches larger, more intelligent and invisit here, the professor and Mrs, Buell have been continuously travelling, princi-pally in the United States, everywhere presenting to delighted audiences a anorama of travel in Canada from "Ocean to ocean," superbly illustrated by enlarged reproductions of majestic and historic scenes, Professor Buell is a fluent and loquent speaker, and most charmingly escribes the scenes depicted on the canass. All his views were first photographed by himself and afterwards specially pre-19c pared for enlarged reproductions by a process of his own discovery. The Professor is now securing additional views of Island scenery, and for this purpose visits differparts of the Province. We sincerely trust 10c that advantage will be taken of his presence here to give several of his charming and splendid entertainments. It is not often we are afforded such an opportunity and we should not let it pass.

(Montreal Gazette)

ans began to cause alarm by making omputations as to the probable duration of the British coal supply, the question arose how far down it would be possible for the miners to work. In order to attain some approximation of what, under the stimulus of exception ally high wages, might be dared and borne, a startling point was made from the known degree of heat that men endurs every day, without more compensation than the pay of an average craftsman or of the laborer subordinat to him. Mr. W. M. Williams was at considerable pains to collect informa tion as to the degrees of heat supported by the half dozen or so of occupation that call for the greatest, amount of resistance to exhaustion from excess of caloric. The statement which we need not pause to consider just now would have been incredible had it not been well attested by men of science On the other hand, we know from the evidence of many Arctic explorers that men in good condition, well clad, judiciquely fed and not overtasked, can support for weeks, months, and even years, degrees of cold which might seem unendurable without the test of exand animal life to great extremes of heat and cold and to an equally sur- mer sale begins. prising diversity of food is a well known fact in biology. As far north as Dr. Nansen went in his Polar quest he met

Arctic night had all the characteristic qualities of their specious, and stood the climate as well as their masters. All along the coast of the Arctic Ocean n both hemispheres, there are tribes of Esquimaux, or kindred races, who have no notion that the less hardy southern ooks upon them as objects of compas-Some individuals of these tribes, when removed to more temperate regions and fed on what we consider more appetizing diet than blubber, have pined, and, if not quickly restored to their bleak fatherland, have lost all desire to live, and died of homesickness. How those tribes came in ages far off to wander to so great a distance from the tropic or semi-tropic cradle of our race we cennot tell. Possibly they foes; possibly love of the chase may At 50 cents up to \$1.00 the choicest Dress Goods in our Charlottetown, June 2nd, 1897. have been the attraction.
