

406th Day of the War TO-DAY'S Messages.

11.00 A.M.

FROM ATHLETICS TO MUNITIONS.

LONDON, To-day. The stadium erected at Shepherd's Bush for the Olympic Games of 1908, is being turned into a munitions factory.

TO AVENGE CRUCIFIXION.

LONDON, To-day. Rev. R. J. Campbell, Pastor of the City Temple, stated in a sermon last night he had met one grim young Canadian who had been wounded, who longs to return to the front to avenge the death of two sergeants whom he had seen Germans crucify.

CATCHING SUBMARINES.

LONDON, To-day. The Paris Figaro's naval critic, after visiting the British fleet, writes: German submarines are hunted not only with guns, explosive bombs, but also with nets. When they leave port their commanders know the chances for their destruction far exceed those of their return to port.

DEMAND REPRISALS.

LONDON, To-day. Since public opinion forced the Government to intern aliens and declare cotton contraband, public meetings are being organized to demand reprisals on German towns for Zeppelin raids. It is pointed out there were no such raids for two months after the French aviators bombarded Karlsruhe. Bonar Law advocates compensation for damage caused by Zeppelins from enemy alien funds now held by public trustee.

AEROPLANE CHASED OFF.

LONDON (Official), To-day. A hostile aeroplane passed over the Kentish coast this afternoon and dropped some bombs which resulted in a house being seriously damaged and four persons injured. The aeroplane was chased off by two naval aeroplanes.

WANT A BILLION DOLLARS.

NEW YORK, To-day. The present financial commission, Anglo-French financial commission, it was reported to-night, is to borrow one billion dollars in the United States with straight British and French Government bonds without any collateral whatever. If this vast sum of money is obtained, it was said, it is to be spent in the last penny in the United States in payment of wheat, cotton, meat and other commodity shipments, including munitions of war. It will therefore, in the opinion of financial authorities, be classified as a commercial loan. Whether the neutrality of the States will be questioned in the case of bankers financing a big loan, shall be kept secret straight British and French Government notes as their security, has been given serious consideration. It was said, financiers familiar with the plan, have every reason to believe the Washington Administration would not interfere. "We are not in a position to make a statement at the present time," Lord Ream said to-night. "Because we are studying the conditions in New York and elsewhere in relation to American exchange on London and Paris."

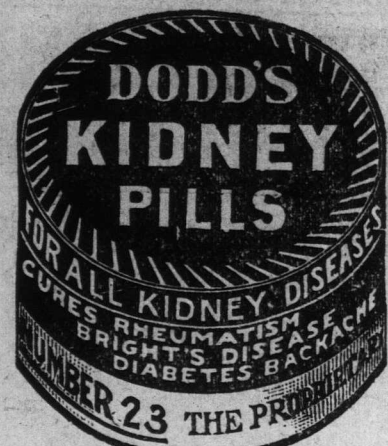

THE DISPUTE BETWEEN THE STATES AND GERMANY.

WASHINGTON, To-day. The conferences yesterday between President Wilson and Secretary of State Lansing and between Secretary Lansing and Count Von Bernstorff, German Ambassador, brought the situation growing out of the German submarine activities to the following status: (1) The German Ambassador has been furnished with evidence of officers and survivors of the Arabic, all agreeing that the liner was proceeding peacefully when torpedoed without warning and the Ambassador has been advised the United States desires a disavowal of the attack and reparation for American lives lost. (2) Evidence will be sent by Count Von Bernstorff to the Berlin Foreign Office, which has not been available before. Probably ten days will elapse before Berlin can be heard from. In some quarters it is believed possible that the Foreign Office upon examining the evidence may change its position and disavow the action of the submarine commander, who it was claimed in the last note sank the liner because he thought she was about to attack him. (3) The States has all information in the case as it now stands at hand and is ready to decide upon its course, but action may be delayed until Count Von Bernstorff has had time to exchange communications with his Government. (4) While the States will not consent to arbitration

YES FOR THE TABLE

WINDSOR
SALT

is the best because it has the quality

of principle nor on the question, involving the safety of American lives, she has accepted Germany's assurances against peaceful liners will not be torpedoed without warning. If Germany desires to arbitrate on the amount of indemnity and the question whether the Arabic actually attempted to attack the submarine, or whether her actions justified the submarine commander believing he was about to be attacked that probably would be agreed to. The President and Secretary Lansing were in conference for nearly an hour. Later Count Von Bernstorff spent half an hour with the Secretary. No announcements were made.

ROUMANIA GETS READY.

ATHENS, To-day. It is reported in diplomatic circles here that there has been heavy mobilization of Roumanian troops, including several regiments of cavalry, to face an unexpected concentration of Austrians, which is directed presumably against Roumania. Railroad traffic on Northwestern Roumania is declared to have been suspended in favor of troop movements. All horses have been requisitioned and the second series of reserves are now with the colors. It is asserted the Austro-German explanation is that the concentration is directed toward the suppression of espionage in Transylvania but this statement is not taken seriously.

GRAND DUKE ACTIVE.

PETROGRAD, To-day. (Official). In the coastal region on Saturday there was cannonading and rifle firing in the direction of Oldi. Near Arkhil, our patrol dislodged the Turks from the rocks. No change on the remainder of the front.

HEAVY WAR TAXES EXPECTED.

LONDON, To-day. When Parliament reassembles, its principal concern will be schemes of new taxation to help providing for the expenses of war. An increase and extension of the income tax is expected in most quarters. An attempt to restrict the volume of imports is urged by many public men and most likely to be made in this direction and large additions to the duties on tea, tobacco, wine, sugar, petrol and possibly new duties on luxuries of various character. Other taxes which have been suggested are upon tickets for theatres and motion pictures, autos and carriages, employers of domestic servants. An increase charge for letters, telegrams and telephones, all of which are under Government control is a further possibility, but the greater part of a half billion dollars or so, which the Government proposes to add to its annual income will come according to the well informed from income tax. Most authorities are agreed that the income tax must be broadened and the minimum exemption presumed will be made for assessing wages of as many workmen and small business men as earn more than a flat minimum demand necessary to support existence. It is estimated the total income of inhabitants of the British Isles is \$12,000,000,000 a year. Of this less than five billions of dollars are now assessed for taxation. New Legislation is expected to reach to least three and a half billion dollars more. With small workmen it is proposed that the collection of tax may be made weekly by installments by means of stamps affixed to weekly war tax cards. With the modification of the income tax law by Reginald McKenna, Chancellor of the Exchequer, is expected to introduce into the new budget will come the opportunity for a general revision of methods of collection. Many influential newspapers and members of Parliament advocate this course, providing that a tax payer may make his payments by easy instalments instead of as at present in one annual lump sum.

12.30 P.M.

SUNK GERMAN SUBMARINE.

PARIS, To-day. A German submarine has been torpedoed and sunk by a French torpedo boat patrol between Mytilene and Tenedos, says an Athens despatch to the Journal.

INSURRECTION IN PORTUGAL

PARIS, To-day. A new insurrectionary movement has broken out not only in Lisbon, but in the principal Provincial cities of Portugal, says a despatch to the Journal from Madrid.

TURKISH TOWN IN FLAMES.

LONDON, To-day. The town of Phocaea, Asia Minor, 25 miles northwest of Smyrna, is reported in flames, according to a despatch from Athens, which says it is inferred that the Turks are destroying the coast towns and retreating into the interior in the expectation of the fall of the Dardanelles.

ROUMANIA BEGINS MOBILIZATION.

LONDON, To-day. A partial mobilization of Roumanian troops has been ordered, in preparation for eventualities, following

MINARD'S LINIMENT CURES GARTER IN COWS.

the concentration of Austrian forces in Transylvania, according to a report from Bucharest.

ANARCHY IN PERSIA.

LONDON, To-day. Anarchy prevails in Persia, according to the Teheran correspondent of Reuter Telegram Company. The Government military forces have been defeated in a series of engagements with tribesmen and a number of Swedish officers who were in the service have been killed. British and Russian colonies at Ispahan, with French and British women missionaries have been forced to leave for Teheran. Ispahan is said to be controlled by mobs.

VIEWS FUTURE WITH CONFIDENCE.

LONDON, To-day. Since General Polivanoff, Minister of War, reviewed the position of the Russian armies a fortnight ago, telegrams the Petrograd correspondent of the Times, no single event has occurred which can be construed as an advantage to the invaders. Nowhere have they inflicted either a tactical or strategic blow, calculated to alter the military situation in their favor. General Polivanoff is satisfied that the increase in the supplies of rifles and ammunition is being well maintained, and that the Russian armies are in a position strong enough to view the future with confidence.

GERMAN SUBMARINE IN BLACK SEA.

LONDON, To-day. A despatch to the Morning Post from Petrograd, says that a Turkish-German submarine of a new German type, was sighted in the Black Sea by the Russian post on Kerch Peninsula in the Crimea. The submarine came up to reconnoitre and exchanged shots with the shore before retreating at full speed. In view of the size and type of the underwater boat, it is evident it made its way by sea to Turkish waters.

SCHOONER TORPEDOED.

CHRISTIANIA, To-day. A Norwegian motor schooner, with pit props for England, was torpedoed on Sunday by a German submarine.

12.45 A.M.

WILL PAY DAMAGES.

LONDON, To-day. The German Government has informed the Norwegian Government, according to a Christiania despatch, that it could not recognize any responsibility for the sinking of the Norwegian steamer Svein Jarl on July 9th as the steamer was not provided with any sign showing that she was neutral. However, twelve of her crew having perished, and in order to show its friendly disposition towards Norway, Germany agrees to make up for the damage done and asks Norway to nominate an expert, who, with a German expert will fix the amount of damages.

STEADY PROGRESS ON PENINSULA

PARIS, To-day. The Allied fleet has succeeded in locating the Turkish batteries along the Asiatic shore of the Dardanelles, according to a Journal despatch from Athens. Observers in a captive balloon spied out the Ottoman artillery, which was silenced by shells from British and French guns, with the result that the camps of the Allied troops are now more tenable. Advances from Mytilene received at Athens are to the effect that large bodies of Franco-British troops are disembarking on the Gallipoli Peninsula and steady progress by the Allies is reported to be causing consternation in Constantinople.

BELGIAN GOVERNMENT PROTESTS

HAVRE, To-day. The Belgian Government has protested the neutral States against the action of the German administration in tearing up and transporting to Poland the tracks of the Belgian railroads. The protest is based on an article of the Fourth Hague Convention, which stipulates that the occupation of invaded territory shall constitute only an occupation de facto.

BULGARIA AND TURKEY SIGN AGREEMENT.

ATHENS, To-day. The situation on the Russian frontier is not considered immediately menacing by persons in official circles here, especially in view of the fact of Roumania being not yet fully prepared for eventualities. The tenseness of the situation has promoted steps however for a closer understanding between Greece, Roumania and Serbia with a view to eventual action in the event of an Austro-German attack. Bulgaria has not been included in these negotiations, for it is now admitted that the Turko-Bulgarian agreement finally has been signed and that Bulgaria will not accept Serbian concessions.

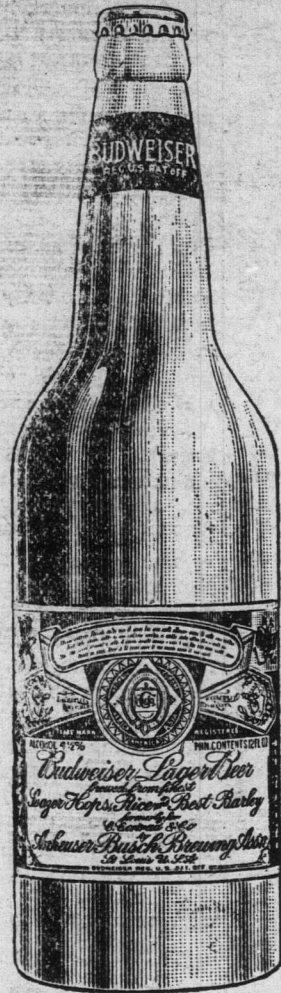

CAUSED BIGGEST SENSATION OF YEAR.

NEW YORK, To-day. The report that the Anglo-French Financial Commission contemplated borrowing a billion dollars here without collateral of any sort and solely on Government notes of Great Britain and France, caused the biggest sensation of the year in the New York financial district. The consensus of financial opinion is that the commission would find its task tremendously more difficult than would be the case were the proposed credit loan secured by a collateral of American bonds and stocks as at first suggested.

MUNITION WORKERS TO VISIT TRENCHES.

LONDON, To-day. The Press Bureau announces that it has been decided to send eight parties of munition workmen on a four days' visit to the trenches. Arthur Henderson, Labor member of the Cabinet, who has charge of the preliminary party, reports that he was impressed with the need of an overwhelming supply of munitions. A vast preponderance of projectiles, he says, is required for shortening the war.

Budweiser

THE DRINK OF
YOUR FOREFATHERS

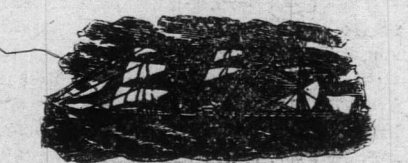

FOR 88 years the brewers of Budweiser have honestly brewed honest beers—the kind that have added to the temperance of nations. Budweiser's quality, purity, mildness and exquisite flavor has won its way to the top. Its sales exceed any other beer by millions of bottles. Undoubtedly Budweiser is in a class by itself.

Visitors to St. Louis are courteously invited to inspect our plant—covers 142 acres.

ANHEUSER-BUSCH
