

## At the City Hall.

The municipal council held its regular weekly session last evening. The Mayor presided and Councillors Mulhally and Vinnicombe attended.

After reading of minutes, etc., the following matters were disposed of.

The secretary public works department asked if council's engineer would give report and estimate of cost of extending city water main to the Topwell Road sanitarium. This was ordered.

Deputy Minister of Finance acknowledged receipt of council's cheques in payment of interest and contribution toward the fire department.

The inspector general wrote he had instructed the policemen on the beat near the small park Freshwater and LeMarchant Roads to call there and try and prevent continuance of damage lately done.

Job Bros. & Co., sent a lengthy communication in connection with the water extension to their premises, south side. After considerable discussion it was decided to visit the locality to-day at noon.

A letter of greeting to the council was read from Deputy Mayor Morris from Toronto.

H. Dawe requested attention to drain of Pennywell Road. This will be attended to.

A. W. O'Reilly wrote about the condition of the breastwork rear of his residence Water St. West. Deferred for further enquiry.

E. G. Cousens asked if he would be allowed to build houses on his land south side road. He will be told no objection will be raised provided proper system of sewerage is installed. A. Goobie, Hamilton Avenue, asked attention to the drains and gulley. Ordered.

Many Permits Granted.  
The Imperial Mfg. Co., wrote there would be no danger of any explosion from the carrying on of their business off Prescott Street. The health officer reported in this connection there would be no objection from a sanitary point of view in allowing repairs being made to the company's building. Permission to repair was therefore given.

J. Barter called attention to the fact of their being no lights on Golf Avenue. Matter is under consideration.

The following permits were ordered to be given:—M. Power, repairs, LeMarchant Road; Mr. Allan, repairs, Water Street; Goodridge & Sons, repairs, Water Street; C. M. Hall, fence, Bate's Hill; John Walsh, garage, Scott Street; Knight & Taylor, addition, corner New Gower and Springdale Streets; James Murdoch, Bonaventure Avenue, house; D. White, George Sinclair, W. R. Antle, James Butler, Jos. Soper, Prince of Wales Street, houses passed; C. E. Bradbury, Pleasant Street, Coachhouse; C. W. Udale, addition, Bond Street; Mrs. A. Connors, repairs, New Gower Street; James Field, shop, Fleming Street.

Plan of garage for I. Goldstone, Leslie Street, passed. The question of a stable will have to be a matter of a separate application.

W. F. Kenny, Henry Street, asked permit build garage rear of his house. Held over for enquiry.

Plan of E. Kavanagh, south side, was held over. It was ordered some attention be given a number of city crossings. The health officer's weekly report was read. After passing pay rolls and bills and disposing of some other routine business the meeting adjourned.

## At the Majestic.

Another big show lies in wait for Majestic patrons to-night, when a Clara Kimball Young feature, a Barnum cartoon, and two comedies will be screened. Four pictures is a big show and to-night will no doubt witness a full attendance, or as much as the hall can hold of such, of all the patrons of this, the city's most popular moving picture house. The feature, written by Cynthia Stockley deals with South African life, and those who saw "The White Man's Law," will instantly see the possibilities of such a subject. The screen actress holds her reputation in the feature, and will disappoint none in her latest presentation. The Barnum cartoon is the best yet, which, seeing that they have gotten better as they advanced, is saying something. The two comedies are mirth-provoking, hilariously funny ones that will set the spectator in one continuous round of laughter and keep him so until his sides are sore and the tears roll down his face. What better cure for the blues than that.

Readymade Special

Side by Ru

year. As the country school some distance from her home the daughter had to be gone at her mother put up a lunch and ed it in a very dainty little basket which had been given by Christmas.

She Preferred a Lard Pail

After the little girl had been to school a few days, she came one noon and said she didn't to carry that wicker basket more. "Why not, Mary?" "Because the other girls have none of the other girls have. "What do they have?" "They bring their lunch in five-pound pails and I want one, mother don't want to carry that old basket." "Could one have more picture example of the herd instinct in man nature—the instinct—makes a perfectly good gal-ugly to its owner the second which helps create host sellers mobs and dance halls and skinks and goodness knows what I should not have thought could, but last night I came upon example that is quite as picture in its way—and, in contrast these, even more so.

An Even More Picturesque Example

Do you remember the chapter Samuel where the Israelites told Samuel for a king? Samuel told Lord about it, and the Lord Samuel not to refuse them, but "protest solemnly unto them" and tell them what a king would be. So Samuel does just that. In vivid verses he gives a very full description of the good old style king. "He will take your sons and appoint them to be his horsemen." "And he will take your daughters to be confectionaries and cooks." "He will take the tenth of your
