Largest Motor Ship in the World

LAUNCHED AT BELFAST FOR THE ROYAL MAIL STEAM PACKET CO.

BELFAST, July 8.—A 22,000 ton motor ship, the largest and most powerful of its type in the world, was launched at Queen Island, Belfast, yesterday and christened Asturias by the Duchess of Abercorn. The ship will trade with the Argentine and Brazil. It will accommodate 1,720 passengers.

The Asturias is 630 feet in length and 72 feet abeam. She is a two funnel ship with cruiser stern, and has separate main and auxiliary engine rooms. Electricity will be used almost exclusively for auxiliary purposes. The Asturias is a twin-screw ship, and each propelling engine is of larger size than any internal combustion motor that has yet been installed at sea. The total output of the machinery is 20,000 h.p., when the engines are running at 115 r.p.m., and it is anticipated that the vessel's speed will be in the neighborhood of 16 knots. It is estimated the daily consumption of oil fuel will not be more than 70 tons. It will be accommodated mainly in deep tanks, and there will be sufficient storage capacity for a complete round voyage.

Pansy Petal Puffs

It no longer seems sufficient to store cigars in ordinary boxes. At the recent Tobacco Exhibition, one contrivance was double-lined with cedar and made so that every cigar was at once visible to the purchaser. Other cabinets were capable of housing as many as 12,000 cigars.

In one cigarette-holder the cigarette is impaled on a hollow needle, which automatically extinguishes it when it has burnt to a certain point. Women's cigarettes were not only tipped with rose leaves, but with actual pansy petals.

The two extremes of East and West were represented in the cigarette-making craft. A machine was turning out 50,000 an hour, while Balkan cigarettes were being hand-made by Macedonians at a leisurely 200 an hour.

"What Shall I Do?"

WOODS MASTERPIECE FEATURED AT THE MAJESTIC TO-NIGHT.

"What Shall I Do?" Go to the Majestic Theatre to-night and see Frank E. Woods screen masterpiece, "What Shall I Do." This author won fame in his "Birth of a Nation" and its a fair admission that he excelled himself in this his latest success. The ever beautiful Dorothy Mackall who plays the feminine lead in this special production is seen at her best whilst she is ably assisted with such stars as Louise Dresser, John Harron and William V. Mong.

The action centers about a youthful couple and their baby. The father suffers a loss of memory. The girl is left penniless, denied by her husband and with her child to care for. In the picture the boy who loses his memory is married to a poor girl. But he is wealthy, and his home is graced with all the beauties money furnishes. The women are well-apparelled, and adorned with pearls and other jewels.

"What Shall I Do" is a great human drama with a universal theme. "A deeply appealing picture. The acting of Miss Mackall is convincing and her sorrow is shared by the spectator." See it. Don't miss it. The Majestic Theatre to-night.

THROWS HERSELF UNDER A MOTOR CAR.

BARRINGTON, N.S., July 11. Mrs. Prince Stoddard, aged 83, was killed Saturday afternoon, when she threw up her arms and fell in front of a passing automobile, while walking along the road toward her home at Rear Point, near here. The car was occupied by two commercial travellers, who were exonerated of all blame by a coroner's jury which held an inquest Saturday night.

FRENCH BUDGET PASSES CHAMBER.

PARIS, July 13. The Chamber voted the Budget at an early hour this morning, 421 to 150. The Socialists voted against it. As modified by the Chamber the Budget was returned to the Senate and the sitting was suspended until 2.30 a.m. M. Blum, the Socialist leader, announced the return of his party to the old practice of voting against a Bourgeois Budget, as reasons for abandoning this practice no longer existed.

ORANGE PARADE RIOTS IN GLASGOW.

GLASGOW, July 12. More than one hundred persons were injured and fifty arrests were made in four riots late last night, the disturbances growing out of the Battle of the Broomie. Fifty thousand Orangemen participated in a parade, which, near midnight, was attacked by opposing factions. Bottles and missiles of all kinds were thrown indiscriminately, the riots continuing until large forces of police separated and dispersed the combatants.

SITUATION IN SYDNEY.

SYDNEY, N.S., July 12. No fresh developments were reported over the week end in the Nova Scotia coal miners' strike, neither in the way of moves toward opening up new avenues to a settlement or in the disorderly aspect of the situation. A miner's barn was burned at Glace Bay Saturday night, but there was nothing to indicate that it was not accidental. Several arrests in connection with picketing at New Waterford prior to July 11th were effected by the Glace Bay police yesterday.

Church-Going in Paisley

INTERESTING FACTS AND FIGURES. The report on the recent religious census in Paisley has now been submitted and approved by a local joint churches committee.

According to the returns, households to the number of 14,257 afforded information, and of these 10,010 claimed Church connection, 1,789 no Church connection, and 2,268 were Roman Catholic. Over 70 per cent. of the households thus claimed connection with some place of Protestant worship, and in view of the attacks made on the Church from many sides the figures gave satisfaction.

It was, however, a disquieting fact that 1,789 families made no claim to Church connection. It was recommended by the committee that the cards of these households be allocated among the churches and that the services of the Boys' Brigade and the Girl Guides be called upon to secure the children although the parents remained obdurate.

A scrutiny of the cards showed that the absentees from Sunday schools and Bible classes belonged chiefly to the two extremes of the social scale. Bible classes appear in a large degree to fall in their purpose, as 2,074 young persons of suitable age from households connected with churches were not in attendance.

Fortune for Hanging a Picture

A farmer recently left his entire estate to "my red horse," and a Chicago man bequeathed two thousand dollars to his dog "in recognition of his sympathy and tender nursing when I was seriously ill."

The will of another man contained the clause, "I bequeath to my monkey Jacko, the sum of £100 per annum, and to my faithful dog, Shock, and my well-beloved cat, Tib, a pension of five pounds."

A Frenchman left his fortune to his tortoise, and an old lady left her pet parrot to Queen Victoria on condition that "Her Majesty publicly exhibits it before her Court twice a year, to prove that the person entrusted with its care has not wrung its neck."

The Scottish National Gallery came in for a windfall on one occasion. A man died and left a large fortune, and at least one picture he valued, called in his will, "Dear Old Log Cabin, with a Dead Rat." This he offered to the gallery on the condition that it be hung in a conspicuous place, and this condition being observed, the gallery received the residue of the testator's property.

British Miners Supported by Congress in Refusing to Accept Owners' Offer

Missionaries in Kwantung Attacked by Chinese.--McMillan's Ship Delayed by a Mishap.--Franco-Spanish Agreement Signed.

THE UNION CONGRESS BACKS MINERS.

LONDON, July 11. The General Council of the Trade Union Congress today issued a manifesto endorsing the refusal of the Federation to meet the owners' proposal calling for a 10 per cent. increase in wages and longer working hours. The Congress refused assistance to the miners in any way.

FRANCO-SPANISH ACCORD.

MADRID, July 12. An important agreement on the collaboration between Spain and France with regard to Morocco signed here late yesterday on the approval of the accord by the French Government. All the agreements noted at the Franco-Spanish conference have now been approved by both Governments. The other two, with land and naval blockades, are confronted with still other important questions dealing with the Tangier problem which concerns not only France and Spain but the signatories of the so-called 1904 statute covering the neutralization of that zone.

MISSIONARIES ATTACKED BY CHINESE SOLDIERS.

PEKING, July 12. Chinese soldiers on July 9th forced their way into the English Presbyterian mission at Wukingfu, fifty miles interior of Kwantung, where they beat one missionary and injured two with knives. They also beat two women missionaries, cutting them slightly with knives. The British Consul at Swatow has demanded official apology and punishment of guilty persons and reparation in form of compensation.

WOODS' PROPELLOR DAMAGED

HALIFAX, N.S., July 12. The McMillan exploration ship "Perry" is returning to Hopedale, and is to be beached while a spare propeller is attached, while the Perry, Commander MacMillan aboard, proceeded to Godhavn, Disko Island, Greenland, according to radio reports picked up by amateur wire operators here to-night. The "Perry" was reported to have suffered damage to her propeller after striking through six hundred miles from St. John's, and a sheltered sand beach would be sought at Hopedale where the spare one could be attached. The Perry will take on coal at the mainland station. The report said Commander MacMillan reported all well and happy.

MURDER FOR THE SAKE OF A THRILL.

MINEOLA, N.Y., July 11. Having committed murder to get a super thrill of his hectic career, the opinion of the authorities, Philip Knapp, aged 21, Beau Brummel, member from the United States Army Medical Corps, and wrecker of women's hearts, is being sought by the police. Like the murder of Bobby in Chicago, in which the floundering pair of glasses in a swamp led to
