AT JOHN A. WOODS.

FOR SALE—

TYRCATHLEN LOTS.

The Venerable Archdeacon Palmer has placed in my hands for sale the lots in his new survey, immediately to the west of his residence and lying on the north side of Grange street. The situation cannot be surpassed in the town—convenient to Market, Post Office, Church and Schools, commanding a magnificent view of the town and surrounding country. The lots are of different sizes, and well suited for private dwellings, with a first-class soil for gardening.

These lots on Tyrcathlen Terrace are well adapted for genteel residences, (and will only be sold to those who will bargain to put up good buildings.)

Plans of the Lots can be seen at my office and particulars learned.

Terms very liberal. Purchases made this Fall, interest on balance of purchase money will not commence until 1st April, next.

If desired, the lots will be pointed out on the ground.

Also, 17 other lots lying to the north of Palmer street, in Macdonald's survey, and on Queen and Arthur streets.

An early call is solicited.

CHARLES DAVIDSON,

Land and General Agent, Town Hall Building, Guelph.

Guelph, Sept. 2, 1874. w2

PRICE'S

BILLIARD HALL,

In the Queen's Hotel, Guelph, opposite the Market.

The room has just been refitted in

Wm. Hood, Guelph township, has a three years Durham bull.

D. Murray, Freeport, shows a bull under one year.

Wm. Croft, Eramosa, shows a three-year old bull.

Thos. McCulloch, Eramosa, shows a four year old bull.

J. & H. Talbot, Eramosa, show a two-year old bull.

Wm. Whitelaw, Guelph Township, shows a fine year old bull in this class, got by Miller's celebrated bull, sold lately for \$2,500, out of a cow also bred by Miller, of Pickering.

F. W. Stone, in this class, shows three aged cows, two bull calves, and one two-year old bull.

John Kirby, Guelph Township, shows a good yearling bull, bred by J. & R. Hunter, Pilkington.

G. & E. Tolton, Erin, have a two-year bull—a well grown and excellent animal.

HEREFORDS.

F. W. Stone is the largest exhibitor in this class. He has an aged bull, one two year old, one yearling, and two bull calves; also 4 aged cows, 2 three year old and two calves.

Geo. Hood, shows ten head in this class. They comprise an aged bull, two years bull, one yearling and two bull calves. Also four cows and a heifer. They are all in good condition and are acknowledged to be a very fine herd.

GALLOWAYS.

Wm. Hood is a large exhibitor in this class, having 25 of a herd on the ground. These comprise two bulls, one 4 years, the other two, three yearling bulls, and three bull calves. He has four cows and the rest heifer and heifer calves.

Thomas McCrae is an exhibitor in this class. He has a herd of 15,—one aged bull, two bull calves, 4 aged cows, one three year old heifer, one two year old heifer, one yearling and two heifer calves.

Wm. Dow, Nicol, shows an aged galloway cow, yearling heifer and bull calf, in this class.

DEVONS.

George Rudd, Puslinch, has, as usual, a fine herd of Devons, 15 in all, comprising an aged bull, two year old, and yearling bull calf, three aged cows, and the balance heifers and heifer calves.

Geo. H. Darby, Guelph township, shows a Devon cow, and a nice yearling bull calf.

AYRESHIRE.

Messrs. Jardine, of Hamilton, have a fine herd of Ayreshires, 7 of which were imported from Scotland last season. They consist of a four year old bull, and bull calf; also two 4 years cows, one three years cow, two year old heifer, one year heifer, and two calves. This herd took the first prize at the Provincial last year, and the first at the Guelph Central.

Thos. McCrae also shows a cow and heifer in this class.

Taking the thoroughbreds as a whole, the show of them was not up to last year, in point of numbers, but there were many animals on the ground which it would be hard to match.

GRADES, FAT and WORKING CATTLE.

Among the grades we find some very superior stock. J. & W. Vass have 7 cows and heifers; J. & R. Hunter, a two year old grade heifer; J. S. Armstrong, five prime heavy heifers; Geo. Hood, a cow, besides others the owners of which we did not know.

The fat stock are superb. In this class we would particularize the steers and cow shown by J. S. Armstrong, the steers by Henlock Young, the cows by John Reading and Wm. Whitelaw, the heifer by John Pipe, the steers and heifer by Walter West. No better animals were ever seen at any exhibition.

The working oxen are also above the average. W. S. Armstrong, Eramosa, has two very heavy yokes; Alex. Stewart, Eramosa, has a very fine yoke, and those shown by D. Murray, Freeport, are good.

SHEEP—COTSWOLDS.

There is a small but excellent show of Cotswolds, and if the entries are not so numerous, the quality and size are unexceptionable. The principal exhibitors are Messrs. T. Watters, T. McCrae, Thomas Arkell, F. Macdonald, C. Heath, P. A'kell, J. C. Brown, J. R. Craig, Edmonton, the latter of whom has two Cotswold rams and two ewes, all imported this season from England. All of these were prize sheep in the old country. The display in this class is not up to what it was last year.

SOUTH-DOWNS.

The show in this class is also small. J. R. Craig has five head, bred by Lord Walsingham, England. They all took first prizes there, and were imported this season. They were highly spoken of by the English papers. James Anderson, Puslinch, is another prominent exhibitor in this class, and those shown by him look well.

LINCOLNS.

In this class of sheep, James Anderson, County Middlesex, exhibits two fine shearing ewes, which took the second prize last year as lambs. He also shows a ram lamb—a pretty animal.

Mr. Butterfield, Essex County, shows twelve sheep—Lincolns and Leicesters.

LEICESTERS.

Wm. Whitelaw shows 28 Leicesters and four fat sheep. Among these stands the celebrated imported Rock ram, which has taken the first prize for three years in succession. He has also another imported ram. He has a fine herd of nine ewe lambs—five two shear ewes, and 4 good shearing ewes.

Lazarus Parkinson, Eramosa, shows 14 superior Leicesters—the lambs being all from an imported ram, out of high bred ewes.

Joseph Parkinson shows 15 fine Leicesters, in rams, aged ewes, shearing ram, ram lambs, and ewe lambs, the whole forming a very fine flock.

The other prominent exhibitors in this class are Sidney Smith, Acton, J. Darling, McGillivray and Mr. Oliver, Downie.

The fat sheep come out well, many of them being very large, and all in prime condition. John Kirby, Guelph Township, has a pair of excellent ewes in this class.

PIGS.

In Yorkshire sows, S. Gooding, and John Tuck, show 2 large animals.

Thos. Easton, Nassagaweya, has a fine large breed boar; John Hunt, of the same Township, has also two fine boars; C. Head has a very fine sow—Yorkshire; J. & R. Miller show a good sow, also a very large one with a litter of pigs, and a pair of large spring pigs of the Yorkshire breed.

Walter Laing, of Nassagaweya, has a fine sow and boar of the same breed, also a fine Suffolk sow. In the class of Suffolks Geo. Hood, Guelph, shows a fine sow and litter of pigs, and Chan Head, Eramosa, a very good, well bred sow, and a pair of large breed pigs; John Hunt, Nassagaweya, has some good Suffolks.

In Berkshires, John and Thomas H. Haver, Guelph, have an excellent lot—eleven in all—mostly young; John Bunyan, Guelph, has two excellent sows—one over a year old and the other under

the celebrated "John A"; J. & R. Miller, and R. Ford, Limehouse, have also some good pigs in this class; Peter and Henry Arkell, Teeswater, come out well up Berkshires; S. Dawson, Guelph Township, has a well grown Berkshire sow; A. Anstee, Eramosa, has a pair of good Berkshires, being a sow and two pigs, got by Allan Simpson's thoroughbred boar; Jas. Cowan, Guelph Tp., has a pair of large and fine spring Berkshires; W. A. Bookless shows his celebrated boar "John A"—a splendid pig, large and pure bred. Allan Simpson shows a two months' pig out of his thoroughbred boar, he is large and well bred, and is for sale; Chas. Heath shows two very good spring pigs; Walter Laing, Nassagaweya, has two good Berkshires—spring pigs.

In the Essex bred Mammoth Featherstone, of Toronto, has some good specimens; Geo. Hood has a well grown boar; Thos. McCrae has also a good boar and sow with a young litter, also two sows under one year.

GRAIN, SEEDS, ETC.

There is not a very large show of grain, but the samples generally are quite above the average. There are a good many entries of fall wheat, and that which took the first prize—grown by Mr. Wm. Tuck, Watford, is a very fine sample. He also takes the 2nd, and that shown by W. M. Smith, of Trafalgar, the 3rd in this class.

There is a large selection of Treadwell, the sample shown by Samuel Sugg, Clifford, takes the 1st prize; Geo. Short, Salem, takes the 2nd.

Wm. Whitelaw, has a fine sample of red winter wheat.

In fine spring wheat, John Turner, Garafra, beats all competitors and also takes the first for any other kind of spring wheat.

Anthony Turner, Garafra, takes the first for best 10 bushels spring wheat.

There is a splendid lot of barley, the colour is extra and the berry plump. For the best 10 bushels of six rowed, Simson Rennie takes the 1st prize, and also the 1st for best two bushels in same kind.

The white oats are superior. Hugh McMillan, takes the 1st for best 10 bushels. In black oats, Evan Macdonald takes the 1st; Isaac Anderson, Eramosa, takes the 1st for the Norway oats.

There is an excellent display of peas—large and small. Messrs. Sugg, Elgin, and Hunt are first prize takers in their respective classes. For field or blue peas, Joshua Norrish take the 1st.

There are quite a number of entries in flax seed, besides a variety of other seeds. Five bales of superior hops are shown.

ROOTS.

The roots this year are not at all up to what we have seen at former exhibitions, which is altogether attributable to the long and severe drought. There is, however, a very excellent display of potatoes in all the different varieties—especially in Early Rose. Some of the collections are really superior. Turnips make a fair show, considering, but in most cases the size is small compared to those shown in former years. As regards other roots, such as mangolds, carrots, beets, &c., the show is poor.

CARRIAGES and CARRIAGE WORK.

R. R. Dalgleish & Co., Guelph, exhibit a very large variety of tastefully got up woodwork for carriages and cutters, consisting of cutters, wheels, bodies, spokes, hubs, springs, axles, besides a variety of other materials employed in carriage manufacture. The workmanship and get-up of these articles reflect great credit upon the enterprise of the firm, and the skill of the workmen.

Messrs. Thompson & Flanagan, Guelph, exhibit the woodwork of a cutter, which is finished in a very superior manner.

Caleb Chase, Guelph, exhibits a very excellent assortment of vehicles, comprising a cutter, a light open buggy, a democrat wagon—two seated—and a covered buggy—all which exhibit first-class workmanship and tasteful finish. It is not long since Mr. Chase commenced this branch of the business, but the demand for his work shows how much it is appreciated, and deservedly so.

Robert Parker, Guelph, shows a highly finished single seated open buggy, with varnished woodwork. It is very neat, and well sustains his well earned reputation as a carriage builder.

Wm. Torrance, Rockwood, shows a substantial and well finished market wagon.

Zeigler Bros., of Berlin, who competed so successfully last year, are on the ground again with a remarkably neat and tastefully got-up single buggy—covered.

J. H. Downey, Elora, has a very handsome single buggy—open.

IMPLEMENTS.

Messrs. Haggert Brothers, Brampton, exhibit a two or a four-horse power, with a drag saw attachment, a foot mill on the principle of the burr stone, a horse power straw cutter, with speed gear; a sulky horse rake with double bracket teeth which are carried independently of the other part of the rake, single reaping machine with cold-rolled iron cutter bar, a patent dustless separator, threshing machine, the mode of driving, which is entirely different from any separator yet exhibited, a shaft continuing to the extreme end of the separator from which the different parts of the separator are driven. The suse is entirely enclosed and fitted with an agitator and a reversible shaft carrier. Straw carriers can be run either at right angles or lengthwise. A double hand roller, with spring seat, and a small hand straw cutter.

Maepherson, Glasgow & Co., of Fingal, exhibit a horse power thrasher and separator, also a single separator.

E. Leonard, London, has a rocking motion and self-lifting drag sawing machine with horse power.

Forsyth & Co., Dundas, show an Empire grain drill, straw cutter, horse power, combined reaper and mower.

Harris, Son & Co., of Brantford, exhibit three reaping machines and a mowing machine.

Laidlaw Bros., of Paisley, exhibit a reaping machine, the frame of which is made entirely of wrought iron.

J. P. Billington, of Dundas, has a horse-power and drag sawing machine.

Alex. Howell, of Brantford, a sulky horse-rake.

B. W. Walton, of Fergus, shows two eclipse gang ploughs. These ploughs have taken first prizes wherever exhibited.

Charles Thain, Guelph, also exhibited one of these ploughs.

Peter Adams, of Paris, also exhibits a rotary harrow, recently patented, as also an ingenious contrivance for holding up wagon tongues, consisting of a spring acting upon the draw bolt.

Heddon & Owens, of Guelph township, have entered their iron cultivator—single and double—principally of wrought iron, for which the patent has been applied. The contrivance is very ingenious, the teeth being so arranged as to be adjusted to various widths, the widest range between the teeth being three feet.

The display made by David Maxwell, of the Paris Foundry, is very creditable.
