The United States and Canadian press have spoken highly of the opera and on its first tour in Canada it is naturally meeting with splendid success. Zora Semon at the Grand.

Zera Semon isever popular in London, and on the return of the favorite last evening for a week's engagement at the Grand Opera House he was greeted as of yore with an audience that filled auditorium, balcony and "gods" slike. His wonderful ventriloan audience that filled auditorium, balcony and "gods" alike. His wonderful ventriloquism as shown in the laughable dialogue of Tim, Joe, Mary Brown and Mrs. Jones (the marvelous talking hand), the astonishing jugglery of Neltou, the dancing and singing of Patton, the intensely funny sayings and doings of the Royal Marionettes and specialties and the myterious magical work of Zera himself were all given with a vim and glaunor that drew showers of applause. Last but not least came the distribution of 100 elegant and useful presents to the happy owners. Mr. Semon had sent invitations to a large number of the local brethren of the Knights of Pythias, of which he is member, and quite a delegation of the traternity were present and enjoyed themselves.

Great Disorder in the Finances—Little Confidence Felt in the New Ministry. Rome, Feb. 10.—It is stated that a saving of 12,000,000 lire is possible in the naval estimates. An examination shows that the

of 12,000,000 lire is possible in the navalestimates. An examination shows that the finances in the Marine Department are in great disorder. For instance while there are only 12,018 men of line, estimates are made for provisions for 17,660 men.

The Riforma (Crispi's organ) declares that the new Ministers are all at variance with one another, and it is doubtful if France will support the proposed commerce negotiations with it.

Signor Bouca, Minister of Public Works, in a conversation with a deputy yesterday, said the new Ministerial programme would deal chiefly with economics in the public service, including the War and Marine Departments. The policy of the Cabinet would be entirely pacific, but it would be necessary to ask for fresh foreign capital which Italy could do without.

ROME, Feb. 10.—The Marquis di Rudini the new Italian Premier, has issued a cir cular addressed to the Italian Minister abroad stating that the programme of this Government is pacific and conservative which will guarantee the security of Italy and peace to Europe. The Cabinet will seek to strength en Italy's'friendly foreign relations.

Pars Keb 10.—The Journal des Delekt says all France asks of the Marquis di Rudini is to allow France to live with Haly as France lives with Austria. The Voltaire states that so long as Crispi's policy survives France cannot resort to a policy of generosity and confidence.

Is the Road to Wealth.

HAVE YOU EVER STUDIED IT?

Some people think LOW PRICES and GOOD QUALITY have no relationship. We can prove that we give both.

A great many consider economy is meanness, and frugality the next door to poverty, and extravagance the next door to good breeding.

Economy is wealth; Economy increases one's comforts; Economy does not lighten the purse; Economy in time is effected when you know where to go and what to buy; Economy in strength results by saving yourself unnecessary shopping. Economy in CASH follows.
