

Brockville's Sensation!

Details of the Tragedy Enacted on Monday.

The Frightful Work of a Maniac with a Gun.

Ten Men Shot by the Demented but Deadly Marksman.

One Killed and Another Dying—The Perpetrator in Custody.

Brockville, Ont., March 10.—One of the most terrible tragedies ever recorded in the town of Brockville occurred yesterday. The result of the tragic affair was one shot dead on the spot; the chief of police mortally wounded; another man badly injured; and six others suffering more or less from wounds inflicted by a single man armed with a breech-loading shotgun.

The town clock had just struck 12, and the streets were thronged with people on their way to dinner. Suddenly the sharp crack of a gun was heard in the western end of the town, followed by other reports in quick succession.

THE MURDERER.
The cause of the trouble was a man named U. LaPointe, who resides about six miles north of the town on the Perth road. He had usually been looked upon as of not very sound mind, but generally inoffensive, except when under the influence of liquor. He was a noted fox-hunter, and usually carried a gun in his rambles about the country. He was in town on Saturday and had been drinking. He left his home at a hotel here at night. About noon he made his appearance on Perth street, going in the direction of King, the principal business street of the town. He was accompanied by a party on his way, and talked quite rationally and seemed to be quite sober. As he neared King street he suddenly threw his head back and gave vent to

SEVERAL LOUD YELLS.
such as fox-hunters often use in calling their dogs, and at the same time fired a couple of shots in the air. When he had got within about twenty yards of the corner of King and Perth streets he took up his position along-side a high bill-board on Perth street. Just at this time Chief of Police Rose happened to come up to the opposite corner, and LaPointe, taking deliberate aim, fired a shot which struck the chief in the chest, throat and head. In falling to the ground the chief pushed an old man named Moore forward past the corner of the building.

A FATAL SHOT.
LaPointe fired again and Moore fell dead. Alonzo Sereviss was almost alongside Moore at the time, but he escaped the effects of the shot. Constable Tinsley, who was also close by, was not so fortunate. He received a portion of the charge in the face and head, and fell to the ground. By this time the wildest excitement prevailed and many spectators were attracted to the scene. Brave men were not wanting in the crowd, and as soon as the plans were set on foot to capture the murderer.

TO CAPTURE THE MURDERER.
The latter was all that time standing at the point where he had first stationed himself, and as the discharge of his weapon could be seen calmly taking loaded cartridges from his pocket and reloading. Constable Tinsley, who was in the police headquarters, only a few rods away, came close by, and behind the weigh scales close by was firing at LaPointe with a revolver. The range was too long, and his shots proved ineffective. At this time LaPointe was firing as fast as he could, and several persons were more or less injured. Finally, Tinsley secured possession of a shotgun, and crossed over to a grocery store kept by Mrs. Murphy, entered by a side door, and LaPointe stepped out on the sidewalk, and just as he raised his gun LaPointe fired, and a constable had to retreat, covered with blood. In the meantime two or three parties, armed with guns and revolvers, had got to the upper windows of adjacent buildings and fired at LaPointe.

LAPOINTE WOUNDED.
All at once LaPointe was seen to drop his gun and fall to the ground. One of the shots had struck him in the abdomen and another in the legs. The angry mob made a rush for the murderer, they dragged him to the center of the road. Cries of "Shoot him!" "Lynch him!" were heard above the din. By the efforts of some more cool-headed the mob was prevented from carrying their threats into execution, and LaPointe was taken to the police station and locked up in a cell.

A TERRIBLE SCENE.
When quiet had been somewhat restored, the scene that was presented was terrible in the extreme. The body of the old man Moore lay on the sidewalk at intervals that I could not lie in bed at night nor stoop to the ground. I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box. I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

DODD'S KIDNEY PILLS
ALWAYS CURE

AFTER TEN YEARS SUFFERING

Two Box Cure

MILVERTON, 23rd JULY, 1905.

Gentlemen.—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground. I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box. I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

JOHN RILEY.

theless besmeared with blood, and it was difficult to estimate the extent of their injuries.

THE INJURED.
Those injured, but not so seriously, are: Fred. A. Stage, Geo. W. Stage, Sam. Kilborn, Robt. McCormack, Thos. Devereaux and J. Boyd. Chief Rose was removed to his residence as quickly as possible; Constable Tinsley and Dickson, the Indian, were removed to the general hospital, and J. Boyd to St. Vincent de Paul Hospital. All the city doctors were promptly in attendance, and did everything in their power for the unfortunate sufferers.

LaPointe was also removed to the general hospital. He is terribly wounded and cannot recover. A charge of heavy buckshot had lodged in his stomach and bowels, and up to the present writing several shots had been extracted.

CHIEF ROSE FATALY WOUNDED.
Chief Rose is awfully mangled about the head and chest. He is still alive, but no hope is entertained that he will survive.

Constable Tinsley is doing as well as can be expected, and he will recover, as will also the Indian.

The other victims are all suffering considerably, but no danger is anticipated in any of these cases. Besides those who were hurt a great many had hairbreadth escapes.

LAPOINTE'S HISTORY.
LaPointe, the murderer, belongs to a respectable family. His father was a wealthy man, owning nearly a thousand acres of land close to Brockville at the time of his death. He left all his property in good circumstances. The murderer now lying at the point of death, was always of a morose, gloomy disposition, and would go for days without speaking to anyone. When he got the worse of liquor, and when in that condition was dangerous and seemed to have a sort of mania for human life. Last summer he got into jail for some days. Since then it is said he entertained a grudge at the police, which may account for his selection of the chief as his first victim.

PETER MOORE.
Peter Moore, who was shot dead, came here from Hamilton five or six years ago, and has been employed most of the time with Mr. Heather, a florist. His first wife died in Hamilton, but a family of several sons and daughters still reside there. One of his sons holds an important and responsible position in the Hamilton Spectator. Moore married again after coming to Brockville.

CHIEF ROSE.
Chief Rose came here five years ago from Dundas, where he held the position of chief of police. He was one of the best officers in Canada, and commands the highest respect and esteem of all classes of the community.

CONSTABLE TINSLEY.

Constable Tinsley is a son of E. Tinsley, of Hamilton, chief farm warden of the Province of Ontario. He was a block of ten houses on Aurora street, rendering ten families homeless and causing a loss of \$50,000. Capt. Fred. Breckett, of engine company 16, fell twenty feet and was seriously but not fatally injured.

MELOUBRO, Ont., March 10.—About 3 o'clock Sunday morning Joseph Long, butcher, of this place, had his shop and residence burned. The family barely escaped. Nearly all the contents of the shop and house were burned. Probable loss, about \$2,000; insurance small.

Pittsburg, Pa., March 10.—The shovel factory of Hubbard & Co. on Butler street, was destroyed by fire yesterday morning, entailing a loss of \$175,000 on contents and \$30,000 on the building.

Louisville, Ky., March 10.—Fire broke out in warehouse No. 3 of the Union Warehouse Company at 1 o'clock yesterday morning, entailing a loss of \$175,000 on contents and \$30,000 on the building.

Ridgeway, Ont., March 10.—The kitchen of the Erie House, Morphet, was damaged to the extent of \$100 on Sunday morning.

SORRY HE DID IT.

An Owon Sound Man Cuts His Throat—Family Trouble the Cause.

Detroit, March 10.—On a cot in Emergency Hospital lies Frank Krause, aged 33, who cut his throat and is sorry he did it. His is a rather pathetic story, for it is one of a home broken up and wife and children gone. His home is 125 Third-street, where neighbors found him bleeding from a gash in the throat yesterday morning. They summoned Dr. F. N. Henry, who sent him to Emergency. It was hard for him to speak, and he uttered monosyllables.

He came to Detroit from Owon Sound, Ont., some years ago, he said, and had been working for some time in the Michigan Central car shops. Three years or so ago his wife died, taking with her their two little girls, Dell and Hazel, then 4 years and 1 year old. Krause has since tried to find them, but in vain. He would not say anything against her when he was asked if she had gone with another man other than "Perhaps." After some hesitation he admitted he would like to get well so that he might have another chance of recovering his little ones.

He says he has three brothers in this city, Charles, Edward and William, and another in Chicago. The doctors think Krause will recover.

LOOK OUT FOR A BALLOON.

New York, March 10.—The Times' special from Winnipeg says: The chief commissioner of the Hudson Bay Company here has been asked by the Government of Sweden to prepare the natives in the far northwest districts of Canada for the appearance of the balloon in which the Swedish explorers Andre and his companions are to make an effort to reach the north pole. The company is sending pictures of the balloon to the natives of the polar regions, and also circulars in their own language, telling them they need not fear its approach, but will be rewarded for giving aid to the explorers.

Alleged Wholesale Incendiarism in Norwich—An Investigation—A Doctor's Sad Condition.

Rev. G. B. Davis, Baptist minister at Sparta has resigned. Windsor's new Presbyterian Church will be opened April 1. Isaac Cartner, postmaster of Milton West, died at his home Saturday. John White has been elected president of the Woodstock Board of Trade for 1896.

Hiram Walker & Sons are said to be about to erect a fine large hotel at Chatham.

Galt public schools are estimated to cost \$12,973 this year. Over \$10,000 goes into salaries.

Stratford's assessed value is \$3,948,730. G. T. R. property is assessed for over \$500,000.

The Grand Trunk shops at Stratford will go to 50-hour time instead of 48, as at present.

Chatham general hospital received from all sources last year \$4,282.39, and spent all but \$250.80.

An effort is being made by the Woodstock Board of Trade to have the installment system of tax collections introduced.

Mr. M. McColl, a student at the Ridgeway Collegiate Institute, was exercising in the gymnasium on Wednesday, fell and broke his arm.

A Toronto firm has bought \$5,000 worth of extension of debt debentures from the town of Sarnia. They are 5 per cent twenty year debentures.

Clinton town clerk has been notified that \$10,000 of the Strathely estate money will be handed over to the corporation. The money must be devoted to some public institution.

Woodstock public school trustees have engaged a gentleman to teach music in the school at a salary of \$30 a month, the teacher to devote all his time during school hours to the work. It is proposed to open a kindergarten department after the summer holidays.

W. McCulloch, the Cardinal merchant, discharged from custody by order of Chief Justice Meredith, on a charge of obtaining goods under false pretenses from F. D. Hamilton, has been attacked by the solicitors, Messrs. Mabee & Gearing, claiming \$5,000 damages. The case will come on at the Fall Assizes.

Wm. Fernell, an old bachelor, of Wallaceburg, who has lived alone near the station there, passed away the other morning at the age of 55. He had been ill for some months, and during his illness was under the care of Mr. and Mrs. Aaron Christner, to whom he leaves \$2,800, every cent of which he earned by day labor.

Eighteen Woodstock boys while coasting on Friday, ran into a car and all were injured. John Campbell, a student at the City College, was broken, but he sustained severe bruises. Michael McHugh, residing near the C. P. R. station, has all his front teeth forced up into his nose, and he was otherwise badly cut about the face.

The will of Mrs. Hammett, of Stratford, who died a short time ago, leaves \$20,000 in cash and securities, to be divided among the heirs of her late husband, who reside in the Eastern States. The ground upon which it is sought to set aside the will is that under her deceased husband's will Mrs. Hammett had only a life interest in the estate, and that on her death it reverted to his legal heirs.

At a meeting of the Perth County Council on Saturday, at which a committee from the City of London was present, it was decided to admit Stratford to an interest in the House of Refuge upon payment of thirteen hundredths of the cost of construction, the county's share of eight-sevenths being taken as the basis. The council further agreed to purchase 53 acres of the Ildington farm, at \$60 per acre.

The engine on No. 4 G. T. R. express leaving Sarnia at 2:50 on Friday morning, threw the sideroad on the driver's side when about two miles west of Ailsa Craig. The train was running 60 miles an hour at the time, and how the engineer, James Stewart, escaped with his life is miraculous. He was knocked off his seat and cut about the forehead terribly, but will recover. The fireman, at the risk of his life, reached over and applied the brakes, stopping the train, but not before the cab on the driver's side was broken into splinters. Another engine was sent from Stratford to take the train east, it being over four hours late.

Dr. J. E. Midgley, the Detroit physician who became violently insane last week, and was taken to Guelph for treatment, is well known in Western Ontario. He went to Detroit six years ago from St. Thomas, and shortly afterwards was married to Miss Lawson, of Hagersville. The doctor's insanity first became apparent about a year ago, when he complained to his friends about his wife, and became very violent when recording his fancied wrongs. He soon abandoned his practice, and has since been back and forth between St. Thomas, his old home, and Detroit.

Two Canadians reported to the Windsor customs officer on Friday that they had been refused admission to the United States by the customs officers at Detroit. One of the men was on his way from Goderich to Chicago to visit his two brothers, and the other was going from Chatham to Pontiac, Mich. The latter had a return ticket, but was not allowed to complete his journey. The United States Immigration Inspector McGowan says that the reason the men were not allowed to pass was that they were going to work for American firms, which was in violation of the contract labor law.

Provincial Detective Murray has been at Norwich conducting an investigation into the origin of fires which have occurred in that town for regular intervals during the past two years. The council instituted the investigation, it is said, at the instigation of the insurance companies, one of which had been refused admission to the town. The first case taken up was that of the Sutton fire on June 16 last. Testimony tending to establish incendiarism was heard, and the case left in abeyance. The case of the Parker fire of the store gave evidence, as well as George Stephenson. The suspicion of an intentional fire was affirmed by the evidence of W. A. Miller, who said that at the commencement the fire looked like one that had been made of hay in the center of the floor. Belief prevails in the village that a gang of incendiaries are at work.

TROLLEY CAR SMASH.

Fifty Persons Injured—Four Likely to Die—Orders Disobeyed.

St. Louis, March 10.—J. A. Aiken and Sam Smith, motormen, and J. L. Jones and Richard Longan, both of St. Louis, passengers, were fatally injured in a collision between two electric cars on Sunday evening. Twenty-nine passengers, men, women and children, were taken out, some with limbs broken and bodies bruised, but it is thought that but one of these will die. Between 20 and 30 others received less serious injuries.

The casualty was clearly due to disobedience of orders. The Kirkwood electric railroad has just been completed, and every car was crowded. One of the rules was that cars going in a certain direction on the single track were to keep to a siding until the coming one passed. Aiken deliberately broke the rule, according to the testimony. He was running 35 miles an hour, it is alleged, and the two motors were badly smashed.

Dishonest Dealers!

A Special Feature Adopted in Their Business.

You Trustingly Ask For Paine's Celery Compound.

The Dealer Often Gives You a Common Substitute.

As the sun rises in the east to brighten and enliven the day, so the mighty fame of Paine's Celery Compound spreads from day to day, giving comfort and gladness to all weary, sick and diseased people.

All popular and fast selling articles are imitated from time to time. Liquid preparations, using the name "Celery Compound," are on the market, and are often dishonestly foisted on the unsuspecting customer, who asks for nature's great healer, Paine's Celery Compound.

There are, unfortunately, too many dealers who work this miserable deception, actuated by a greedy desire for large profits. The imitation and worthless medicines pay per jar, but the honest dealer, who sells Paine's Celery Compound, is held in the background, simply because it pays a small profit.

It is positively cruel to thus deceive the trusting and confiding customer. The sick and suffering who ask for Paine's Celery Compound, knowing it to be the best, and their only hope of cure, should never be treated in such a heartless manner.

If every intending purchaser of Paine's Celery Compound, but examine the bottle and outer carton, he or she will certainly avoid deception. The genuine Paine's Celery Compound, "the kind that cures," has the "stalk of celery," and the name "Paine's"; all others are frauds and deceptions.

Perfect Dress Interlining

Prof. Subuyzen's test of Textile Buckskin with the X rays of the new photography affords an interesting revelation to ladies, because all wear interlining of some kind in their dresses, and Textile Buckskin is the only interlining which has been proven impervious to the cathode rays. The shadowgraph sketch of two ladies, one wearing a dress lined with impervious Textile Buckskin, is a realistic illustration of an important advantage which ladies will hereafter associate with this matchless interlining. It is waterproofed to resist the fiercest rains; it comes out of a crush without a crease or a wrinkle, and is sold everywhere at 25 cents a yard—all weights and colors.

TEXTILE BUCKSKIN

Woven Buckskin Waterproofed.

MONEY LOANED

On real estate, notes and farm stock, furniture and chattels. Coins, Tokens and Medals bought.
