THERE ARE SO MANY cough medicines in the market that it is sometimes difficult to tell which to buy; but if we had a cough, a cold or any affliction of the throat or lungs, we would try Bickle's Anti-Consumptive Syrup. Those, who have used it think it is far ahead of all other propagations recommended for such other preparations recommended for such complaints. The little folks like it, as it is as pleasant as syrup.

NORWAY PINE SYRUP contains the pine virtues, and cures coughs, colds, bronchitis, hoarseness, and all throat and lung troubles, which, if not attended to, lead to consumption

BRITISH BANK BILLS ARE ALWAYS CLEAN

They Are Never Issued Twice and Do Not Become "Filthy Lucre

Bank of England notes are printed on exquisite paper, the texture and water-marking being almost beyond imitation; exquisite paper, the texture and watermarking being almost beyond imitation;
the printing machinery is of most ingenious construction, the invention of
two men, Oldham, pere et fils. The two
halves of the notes are numbered alike,
and in the process of printing the machine automatically changes the numbers for the next note. A Bank of England note is never issued twice, consequently it is delightfully clean. There
may be some analogy between this and
the fact that in Britain ladies' purses
are almost invariably lined in white.

The "letter of credit" had its genesis in
the fact that up till 1759 the Bank of
England issued no notes for less than
\$20. If the possessor of such a note, perhaps a poor, perhaps a thrifty person,
desiring, say fi 10s, presented his note
and asked for that amount, it would be
given him and the amount deducted from
the face value of his note.

The bank has the monopoly of issuing
notes in London and for a radius of 65
miles around it. No fi notes are issued
in England or Wales, and it is an interesting literary reminiscence that when
the attempt was made to prohibit the
issuing of fi notes in Scotland. Sir Walter
Scott, then in the very midst of his own
financial troubles, opposed the attempt
most vigorously in his "Letters of Malachi Malagrowther."—Criterion.

TWO GIRLS ASPHYXIATED. New York, April 15 .- Agnes Alexander, 17 years old, was found dead in her room, at 478 Classon avenue Brooklyn, this merning. Anna Johnson, 19 years old, who occupied the same room with her, was overcom and died later. The gas was turned on full and the windows were shut tight. Both girls were employed as servants. HOUNDS. Hastings, Fla., April 15 .- Julius Es kew, manager of the Armstrong Turpentine Company, near here, was shot and killed by Jim Kerby, a negro last night. Eskew had \$150 on his person and the negro wanted the money. After Eskew was dead, Kerby started toward the body for the purpose of robbing it, but was frightaned away. He escaped into a swamp where he was captured with the aid of bloodhounds. While Sheriff Perry was waiting in the depot with the negro, to take him to St. Augustine, unknown parties fired through a window and put five bullets into Kerby's back. He thought he would die and made a confession, implicating Robert Lee, another negro. Bloodhounds are

FLOWERS AT PAN-AMERICAN

Charming Landscape Effects and Beautiful Floral Exhibits. The Pan-American Exposition at Buffalo next summer will possess unusual charm for lovers of flowers and of beautiful landscape effects. Perhaps in recognition of this the members of the Society of American Florists have that we treat your property as we would our own. We do first-class laundry work. decided to hold their annual convention in Buffalo in 1901. Chicago was anxious to win the convention, but in view of the special attractions for its members which the Pan-American Exposition will possess it was decided to meet next year in the Pan-American city. The gathering will bring to Buffalo about 1,000 delegates and their families from all parts of the United States. The floral features of the Pan-American Exposition and its landscape effects will surpass anything ever seen before by visitors to expositions held in the United States. The laying out

of the grounds was done with the view

of providing for such attractions, and

ample space was left for courts and

HORTICULTURE BUILDING fountains, canals and lakes, which will

be bordered with plants and flowers of all kinds and descriptions. While there will be charming scenery of this character in all portions of the grounds, an especial effort will be made to embellish the southern portion, adjoining Delaware park, at the entrance to that part of the grounds where the main Exposition buildings are situated. On both sides of the splendid Triumphal Bridge at this point will be two artificial pools called the Mirror Lakes, connecting with the Grand Canal, which encircles the grounds. The slopes of these lakes and the whole vicinity will be adorned with a magnificent outdoor exhibit of flowering plants set in the midst of shrubbery and trees in such a way as most to enhance the beautiful effect. There will be a large display of rare water plants, including the Nilumbiums and the wonderful Mctoria Regia, or Amazon Lily, and many Nymphæas not before exhibited. Applications for space for exhibits on the grounds and in the special building to be devoted to horticulture are coming from florists all over the country, and the expressed desire of the cultivators of flowers and plants to be represented at the Pan-American insures an extensive exhibition of these beautiful products of nature.
