CABINET RESIGNATIONS

Mr. Chaplin's Amendment Defeated, the Liberals and Nationalists Supporting the Government.

London, June 10.-By a dexterous and extraordinary speech Premier Balfour tonight temporarily smoothed over the differences in the Cabinet, relieved Colonial Secretary Chamberlain of resigning, and for the moment averted a crisis which threatened the Uniquist party. This Mr. Balfour accomplished without committing the Government either to protection or free trade, though the effect of his speech will generally be taken to mean that the tariff issue is to be shelved for the present. Henry Chaplin's amendment, which gave rise to the most interesting debate of the present Parliament, was defeated by overwhelming majority of 396 votes, composed of Unionists, Liberals and Irish members. The vote stood 424 to 28. The minority who supported Mr. Chaplin's amendment were almost all followers of the Government, while many others of the Conservative party abstained from voting. Anglo-American Indignation Has a In a whimsical vein, Mr. Balfour explained that the only reason that the corn tax was put on was because the Government wanted money, and the only reason it was taken off was death in the royal palace during the while he is not charged with the mur- ly protesting her innocence, Mrs. Mc- cre at Kishineff has produced such a because the Government wanted money night. THE POWERS ANXIOUS

An Austrian Army May March Into Servia at

Any Moment. London, June 11 .- The Servian minister said there were many causes leading to the revolution. A large section of the people were greatly dissatisfied with the tendency of King Alexander to eliminate the radical element from the Government, and by the constant rumors of his intention to appoint Queen Draga's brother, Lunevitza, heir apparent. In addition to this the Queen was disliked by the people, who were also intensely outraged at the recent suspension of the constitution. The minister did not angers to the country. He pointed out that the original Karageorge was not a prince. He was a rich swine owner. The father of the new king was made

The minister also related a curious incident. He said that a month ago seance, at which a letter written by the murdered King was handed to the clairvoyant, who immediately became intensely agitated, predicted that King Alexander would be assassinated very shortly and even depicted the scene which appears to have been enacted at the palace at Belgrade during the
