50 PERSONS INJURED ON GREAT EASTERN RAILWAY

Near Hackney Downs Station, London.

Train Left the Rails While Crossing a Bridge.

Hot Debate in British House of Commons—Nine Conservatives Vote Against the Government.

London, April 25.—Fifty persons were injured this morning in an accident on the Great Eastern Railway, near the Hackney Downs station. As a train from Walthamstow, called the "Three penny train," was crossing a bridge, an axle of the car nearest the locomotive broke and the coach jumped the rails, crossed into the side of the bridge and lodged across both tracks. The train was filled with persons on their way to work.

The two coaches following the stranded car crushed into it, completing the wreck, and causing awful havoc among the passengers caught therein.

BREZY DEBATE IN BRITISH HOUSE.
The forcible detention in South Africa of Albert Cartwright, who, while editor of the South African News, charged Lord Kitchener, prior to the engagement with Gona, Devet, with ordering his officers to shoot at prisoners, formed the subject of a heated debate in the House of Commons yesterday.

Mr. Morley (Liberal) moved the adjournment of the house, practically a vote of censure on the government, and Lord Milner, in particular, strongly pointed out that Mr. Cartwright, who had served a year's imprisonment, libel, now to come to England, under his detention was illegal, unconstitutional and tyrannical. He added that the explanation of Lord Stanley, the financial secretary of the war office (who served in the South African war as chief press censor and afterwards acted as chief press censor and that on a cursory look at the law on the subject he saw nothing to prevent it.

Balasscheff, the man who assassinated the Russian minister of the interior, M. Sialigine, April 15, had in his pocket a sealed envelope addressed to M. Pobedonossieff, chief procurator of the Holy Synod. It is inferred from the finding of this envelope that had M. Pobedonossieff gone to the ministerial office on April 15 he would have been killed instead of the minister of the interior.

An important concession was signed by the King of the Belgians on April 14, by which an Anglo-Belgian company secured the right to build the Cape Town-Cairo Railway, planned by the late Cecil Rhodes, through the Belgian Congo. The line north of Rhodesia will thus be diverted from German East Africa.

HER BEAUTIFUL HAIR CAUGHT BY SHAFING
Terrible Fate of a Young Woman in Detroit—Mangled by Machinery.

Detroit, April 25.—An awful piercing scream, the rush of a crowd of panic-stricken men and girls, a single cry to the engineer to stop the machinery, the pounding of human body against the ceiling, the fall of the lifeless remains to the floor—such was the story of the sudden taking of the life of Miss Pauline Becker, 25 years of age, who had been employed by the Physicians' Pharmaceutical Company, 137 Beaubien street.

At 11:15 a.m. yesterday Miss Becker and another girl employee were engaged in the finishing room on the second floor, arranging bottles on a shelf quite close to the shafting, which makes at least 200 revolutions every minute. Miss Becker was standing on a step-ladder and, apparently did not appreciate her danger until her long, wavy hair, of which she was very proud, caught on the shafting.

Conscious of her danger, Miss Becker uttered a cry of horror and tried to free her from the apparatus, but was unable to do so, and the limp body crashed against the sharp corners of the metal-covered ceiling timbers.

The body was removed to the undertaking parlors of V. Gelst & Son, where County Physician Sanderson conducted a post-mortem examination, and Coroner Hoffman will hold an inquest Monday at 2 p.m. Miss Becker has been sold to a Detroit syndicate. The line has not been operated for a couple of years, but will be put in first-class shape by July. Branch lines will also be operated to nearby summer resorts, including Chemung Park, Lakeland and Rice Lake.

TO SCOOP IN SCOTCH COAL
Edinburgh, April 25.—The Evening News, of this city, says negotiations, in which J. Pierpont Morgan is interested, are on foot to combine the Scottish coal companies, with a capital of £3,000,000. It is also said that Gen. Lord Eolhaven and Stenton is to be the head of this concern.

THE SHIPPING TRUST.
London, April 25.—The statements regarding the intentions of the managers of the Atlantic Shipping Company vary with each edition of almost every newspaper here, and most of them entirely lack even the semblance of authenticity. But they serve to enhance the general scare which is fully voiced by the shipping press, and the American-built ships are entitled to fly the American flag, as affecting the admiralty.

REGARDLESS OF SUBSIDIES.
Much is made of the fact that the Inman Line steamers City of Paris, now the American Line steamer Philadelphia, and the City of New York, now the American Line steamer New York, after receiving \$26,980 in subsidies, were transferred to the American flag, and it is contended that there is nothing to prevent a repetition of such action. The Westminster Gazette, however, solves itself with the thought that if the law by which only American-built ships are entitled to fly the American flag is repealed, the British, as shipbuilders, stand to gain what they will lose as ship owners.

CASTLE LOO BULLETIN.
The Hague, April 25.—The morning bulletin, posted at Castle Loo today, announced that Queen Wilhelmina slept at intervals during the night. Her fever temperature continues to indicate that her majesty's illness, which has now entered its third week, is taking its regular course.

The Hague, April 25.—The afternoon bulletin from Castle Loo was non-committal. It merely said that her majesty's condition called for no special remark.

TRAGEDY IN A HOTEL AT CONEY ISLAND
Three Showmen Found Dead in One Room From Gas Asphyxiation.

New York, April 25.—Frank Miller, George Moore and Frank Halster, were found dead from gas asphyxiation in a room in Peterson's Hotel at Coney Island early today. The cause was evidently one of accidents. The men were employed at the "Trip to the Moon" exhibition, and came to Coney Island from Buffalo, with the show. They were all about 30 years of age.

Death Rate Increased.
Toronto, April 24.—The provincial board of health reports that there were 2,380 deaths in Ontario in March, compared with 1,944 in March, 1901. Deaths from contagious diseases show an increase, although not an alarming one. They were as follows:

	March, 1902.	March, 1901.
Smallpox	1	0

Scarlet Fever	12	25
Measles	18	14

Peterboro, April 25.—The Peterboro Street Railway, which was built by the

Pharmaceutical Company, 137 Beaubien street.

At 11:15 a.m. yesterday Miss Becker and another girl employee were engaged in the finishing room on the second floor, arranging bottles on a shelf quite close to the shafting, which makes at least 200 revolutions every minute.
