With the intention of supplying
local contractors with gravel, a company, composed of local capitalists, is
being formed to take over and operate
the Malcolm Maitland gravel pit. The
pit, which consists of 15 acres, located
on the west side of the London and
Port Stanley Railway tracks, near
Chelsea Green, is said to be one of
the best in this district.

On account of the distance from the
city and the condition of the roads it
has been difficult in the past to bring
don, and to obviate that the company
will ask the Pere Marquette to build
a spur line into the property. It will
supply its own cars and the gravel
will be hauled into the city and put
in sheds, which will be built either at
Burwell or Colborne street, and from
there delivered to all parts of the city
