## STREAM DRIVER DROWNED WEDNESDAY

River Boat Upset and One  
Was Drowned in Rush-  
ing Water.

### OTHER LANDED SAFELY.

The sad intelligence reached town Wednesday of the drowning of Mr. Alex. Columbe in the rapid waters of Christopher Brook.

He with his brother Peter was running down stream in a canoe, when it was caught by a projecting branch and without a moment's warning upset.

Peter was thrown clear of the boat and managed to reach shore, but Alex. clung to the craft for some time, but eventually became stranded by the cold water and sank.

The family have the sympathy of all in their sudden bereavement.

The upturned canoe was seen floating down the river Thursday.

### CHIMNEY FIRES

On Wednesday the fire department was called out twice for chimney fires. Perhaps it would be well to submit the section of by law No. 24 covering these matters.

Every owner or occupant of any building in which one or more smoke flues or chimneys are in use must cause such flues or chimneys to be thoroughly cleaned at least twice during the year in the months of May and November.

In most cases it is not necessary to call out the fire department for chimney fires and more care should be taken in sending in an alarm.

### A NEW COMPANY

Messrs. Gustaf Meynert, Hedley O'Neil, Frederick M. Bahring, Stockholm, Sweden; Oscar Wm. Nordens and Joseph Ander, of Norden, Northumberland, are incorporated as The Swedish Canadian Lumber Company Ltd. to take over the business of the Rosbank Lumber Company and the Swedish Planting Company.

### DEED

Mrs. Wm. Ryan died at her home in New York on Thursday, April 22. Mrs. Ryan was formerly a Rosbank girl, Miss Lizzie Allison. She leaves to mourn her loss a husband and two small children in New York; her mother Mrs. Jas. Allison of River du Loup, Cross Point; and two sisters, Mrs. Dixon also of River du Loup and Mrs. McNeill of Dalhousie, N.S.

### SALVATION ARMY

At the Salvation Army Barracks, Sunday May 16th, Lieut. Colonel Turner in charge of Salvation Army forces in the Maritime Provinces will conduct special meetings all day. Music and song. He is an interesting speaker and a profitable day is assured. Don't fail to attend.

### NEW YORK SHOE

SHUING PARLORS  
Having at a great expense, put up a new class shoe shining parlor, and using best material money can buy, I wish to ask my many friends for their patronage. As you already know the old story of "The Monkey and the Cheese" there is few imitators in the same business. We might mention the shoe barbers.

## ARMED ARMENIANS FOUGHT NIGHT AND DAY TO KEEP OFF THE TURKISH HORDES

MARASH, Asiatic Turkey, May 12.—Distressing accounts continue to be received here, from the country side of Armenian villages assailed by the bands of Mohammedans who acting on the supposition that the Armenians were rising against the government were quick to strike the first blow. The men were killed whenever found within reach of knife or bullet. The girls received no consideration and some of them were carried off to become the wives or slaves of rich men. Houses were sacked and then burned and farm animals were driven off. The entire population of Bechkeuy, 2,000 souls moved to the Zitoun, region for safety. In other towns, notably Yankoudon where the Armenians were well supplied with rifles they fought day and night and kept off large numbers of besiegers. There are probably 14,000 refugees in Marash.

### American Warship on Hand

ALEXANDRETTA, Asiatic Turkey, May 12.—The U. S. revenue cutter Tacona, arrived here today for the protection of American interests. This vessel was on her way to the Pacific coast via the Suez Canal and was delayed from Gibraltar, 850 is the first American ship to appear in Turkish waters since the beginning of the massacre and disorders in Asiatic Turkey.

### Hon. John Morrissey returning yesterday from Montreal where he consulted specialists for weakness of the eye.

The Chief Commissioner was assured that his sight was not in danger. He had overworked his eyes and all would be well after a rest of a couple of months. This will be welcome news to the whole community as it was feared that Mr. Morrissey would lose his sight.

### ALLOWED TO GO

Frank O'Connor who claims to belong to St. John was before Judge Matheson yesterday accused of stealing a fur coat and a valise from Eugene Pratas of Rimouski. Pratas is a baker by trade and was en route to Gaspé. He has had a difficult journey. He reached Campbellton last week from Rimouski by Desjardis Noble, and taken back to Rimouski, accused of creating a disturbance on the I. C. R. train. He was fined \$45. He resumed his journey and was successful until he reached Campbellton where he went on the warpath again. Pratas was arrested here twice and value were taken by O'Connor, who was also feeling extra good, and the value and coat were taken to his room. Pratas was arrested here twice for being drunk, the last time he was in a serious condition and was sent to the hospital.

### After hearing the evidence Judge Matheson gave O'Connor the benefit of the doubt and discharged him. Pratas was sent back and property and resumed his journey to Gaspé.

The police acted promptly and besides restoring the property to the owner, saved him from more serious consequences by sending him to the hospital.

Pratas also lost a light overcoat last Saturday. This loss he also reported to the police and Chief Crawford located the coat this afternoon.

### Don't have your shoes plastered with inferior dressings. Look for Martin.

On shoe show at Allen Hotel. Again asking your patronage. Our motto, "Live and let Live".

Respectfully,  
P. S. MARTIN

## GRAPHIC TO GIVE BICYCLE TO BOY

Most Popular Boy in Gloucester, Restigouche, Bonaventure or Gaspé.

### HIGH GRADE WHEEL.

Every boy would like to own a high grade bicycle, and we are going to place one within the reach of any boy in the Bay Chaleur counties.

We will present to the boy procuring the most votes a brand new bicycle. See the adv. with particulars on another page of this paper.

### BIG BICYCLE MEET IN SIGHT

TORONTO, May 12.—Report has it that several bicycle organizations in Toronto with the assistance of the C. W. A. have almost concluded arrangements for holding three big bicycle track meets in Toronto during the coming summer. The question of securing a suitable track seems to be the only thing now to be decided and this will probably be settled during the coming week.

It is announced that the first meet will come off in June, another in July and the last probably during the end of August.

### The fact that bicycle racing has regained a high status in public estimation in the United States, where weekly meets are even now in progress, leads the Canadian promoters to believe that they will succeed here.

Don't fail to see Pete, the lightning shoe shiner, next door to Albion Hotel. All others are imitations. Tell your friends about it.

### With two clever lads each less than nine years old, playing juvenile characters of much interest and charm, and with a comedian whose name has become almost a household word as an entertainer, The American Girl, with George F. Hall as the star, will play at the Opera House here on Monday evening, May 17th.

### COUNCIL MEETING

A meeting of the Campbellton Council will be held in the Council Chambers this evening at 8 o'clock.

### FAMOUS HOTEL BURNED

PLYMOUTH, N. H., May 12.—After destroying the Plymouth Hotel, one of the most famous hostleries in the White Mountains, together with the famous station and baggage office, one of the most disastrous fires of this vicinity for many years, today swept into the pine forests, licked up the farm houses and the village, and left the timber land, the loss on the hotel is estimated at \$100,000, while the destruction of the other property will bring the loss up to \$150,000. The Burnings were the first of the kind in the history of the town.

### At ten recent exhibition of the Royal Horticultural Society in London, the silver Bismarck Medal was awarded to Kootenay District for its asparagus.

The fruit of Kootenay has called forth unstinted praise from all who have visited her orchard during the fruiting season.

Richard Orick, British Trade Commissioner, said, I never saw such magnificent fruit nor trees so far so heavily laden as in the Kootenay.

Dr. Fletcher of Ottawa, said, I have again visited a large number of your bearing orchards some of which have been bearing for many years, and I

### WILL BUILD THREE AIRSHIPS

HALIFAX, May 12.—W. F. Baldwin, mechanical superintendent with Prof. Bell, has arrived in Halifax from New York. While in New York Baldwin discussed with members of the Aero Club and Aeronautic Society plans for the building of three flying machines similar to the Silver Dart, used last winter at Baddeck. Prof. Bell wishes to retain the Silver Dart at Baddeck for further experiments.

### SHAH STILL IN TROUBLE

LONDON, May 3.—A despatch to the Times from Tehran says that now the Shah has been weakened by the action of the powers and has granted all of their demands, the Nationalists and Revolutionists still are dissatisfied and threaten to attack him, with the obvious desire of getting rid of him altogether.

### FLORENCE NIGHTINGALE

LONDON, May 12.—Florence Nightingale, who has just entered her 96th year, has received innumerable congratulatory messages and bouquets. She is very feeble and is now confined almost entirely to her room.

He thought he had never and he proposed to the beautiful heiress. "Will you?" he asked poetically. "No," she stormed with hauteur, "thou wilt."

And he did wilt. He wilted like a two ply collar at a ball game on an August afternoon.

## FRUIT GROWING IN BRITISH COLUMBIA

It is in compliance with numerous requests that I write this article, respecting British Columbia fruit farms, and the reason why I have selected a fruit farm in the Kootenays in preference to any other region.

Perhaps the thing that first set me thinking about securing a fruit farm in B. C. was a remark made by a friend of mine at a small social gathering in Winnipeg. We had invited a dozen intimate friends to spend the evening, and when the time for separating came one of them remarked: "What a pity it is that friends must be separated. I suppose that within five years you will all be scattered and will never see each other again. I wish there was some place where we could all settle a few years from now and be together the rest of our lives." Instantly another asked: "What is the matter with a fruit farm for each of us in B. C.?"

That is how it began. When I returned my home in Winnipeg I have been considering the advisability of cutting out the P. E. I. calls and running the Gaspeian to this port, but the Graphic could not vary this.

I have made a most careful inspection of trees and fruit, and my judgment is that you have here a combination of soil and climate which enables you to grow all kinds of fruit, which for quality and quantity cannot be excelled on this continent.

Professor Mills of Guelph Agricultural College, as well as the Canadian Experiment Station, have both pronounced the fruit of the Kootenay District. You have a fruit country unsurpassed by anything in the Dominion.

A. McNeil, Chief of the Dominion Fruit Division at Ottawa, said, "The only Province of Canada that can produce a crop of the famous 'Red' of British Columbia and I have come to the conclusion that the only district even in British Columbia that can produce it is the Kootenay. The soil and climate are wonderful, unequalled anywhere in Canada."

Barry Grey, Governor General of Canada, said, "What I have seen and tasted of your fruit industry has inclined me to believe that, such as are the separate streams of wealth that flow from your mineral, your timber and your fisheries, these joint and mighty volume will be inferior to the stream of national wealth, of domestic contentment, which is one day destined to grow from out the orchards of British Columbia."

Since the above words were spoken Lord Haldimand, our last Governor, purchased a tract of land in the Kootenay District, and is bringing it under cultivation for fruit growing.

The credits of J. Kootenay orchard almost surpass belief. I have a photograph of a five year old Northern Spy tree on Kootenay which has produced eight boxes of apples which weigh at \$3.00 per box. A Nova Scotia requires from ten to fifteen years to come into bearing.

He has offered \$25.00 per tree for the fruit of his Kootenay trees before they were picked, but he refused the offer, as he has no apples himself and he has no room for them.

He has offered \$25.00 per tree for the fruit of his Kootenay trees before they were picked, but he refused the offer, as he has no apples himself and he has no room for them.

In conversation with Mr. Fausquier a month ago he told me that he had not sold a box of Northern Spy apples this year for less than \$3 and that the lowest price he had received for any apples whatever was \$1.75 per box of forty pounds. He took two and a half tons of tomatoes from a quarter of an acre and sold them at \$1.00 per crate. He sold \$200 worth of celery this last summer. I visited Mr. Gilbert's farm at Neudale and pointed out to me an acre of land from which he had taken ten tons of potatoes without using any fertilizer of any kind. He told me what some of his potatoes would weigh three lbs. each.

## ANOTHER STEAMSHIP LINE FOR ROUTE

S. S. Gaspeian Will Run  
from Quebec to Gaspé  
and Paspébiac.

### SERVE OTHER POINTS.

The S. S. Gaspeian, which for years has sailed between Quebec and P. E. I. ports calling at a large number of intermediate points will extend its route and will this year handle traffic for coast points up to and including Paspébiac.

This will mean that the section of the cable, between Gaspé and Paspébiac, will have three lines of steamers this summer.

There was a report in town that the owners were considering the advisability of cutting out the P. E. I. calls and running the Gaspeian to this port, but the Graphic could not vary this.

I have made a most careful inspection of trees and fruit, and my judgment is that you have here a combination of soil and climate which enables you to grow all kinds of fruit, which for quality and quantity cannot be excelled on this continent.

Professor Mills of Guelph Agricultural College, as well as the Canadian Experiment Station, have both pronounced the fruit of the Kootenay District. You have a fruit country unsurpassed by anything in the Dominion.

A. McNeil, Chief of the Dominion Fruit Division at Ottawa, said, "The only Province of Canada that can produce a crop of the famous 'Red' of British Columbia and I have come to the conclusion that the only district even in British Columbia that can produce it is the Kootenay. The soil and climate are wonderful, unequalled anywhere in Canada."

Barry Grey, Governor General of Canada, said, "What I have seen and tasted of your fruit industry has inclined me to believe that, such as are the separate streams of wealth that flow from your mineral, your timber and your fisheries, these joint and mighty volume will be inferior to the stream of national wealth, of domestic contentment, which is one day destined to grow from out the orchards of British Columbia."

Since the above words were spoken Lord Haldimand, our last Governor, purchased a tract of land in the Kootenay District, and is bringing it under cultivation for fruit growing.

The credits of J. Kootenay orchard almost surpass belief. I have a photograph of a five year old Northern Spy tree on Kootenay which has produced eight boxes of apples which weigh at \$3.00 per box. A Nova Scotia requires from ten to fifteen years to come into bearing.

He has offered \$25.00 per tree for the fruit of his Kootenay trees before they were picked, but he refused the offer, as he has no apples himself and he has no room for them.

In conversation with Mr. Fausquier a month ago he told me that he had not sold a box of Northern Spy apples this year for less than \$3 and that the lowest price he had received for any apples whatever was \$1.75 per box of forty pounds. I visited Mr. Gilbert's farm at Neudale and pointed out to me an acre of land from which he had taken ten tons of potatoes without using any fertilizer of any kind. He told me what some of his potatoes would weigh three lbs. each.

## MORRIS HAS 25 ST OF

ST. JOHN'S Public Works Dept.  
11—Practically complete.  
The report from the Public Works Dept. of St. John's shows that the party headed by Sir Edward Morris has had an overwhelming victory and that Premier Morris will have twenty six members in the Legislature as against ten supporters of Sir Robert Bond, the former head of the government. In the election last November each side elected 15 members, a situation which resulted in Saturday's balloting.

Premier Morris and his two colleagues carried the West division of St. John's, and Bond and two supporters were elected in Twillingate.

Colinial Secretary Watson of the Morris cabinet and two colleagues were successful in Twillingate. Sir John Bond, the former head of the government, was elected in Twillingate.

In Twillingate Bay Cabinet Minister Bond was elected. Attorney General Morris and Surgeon General Bond were elected in Twillingate. Bond was elected in Twillingate.

I saw a ten acre apple orchard near Twillingate, situated on the steep side of a mountain, with soil very rocky and very poor. The owner, a Mr. Bond, has been cultivating it for some years, and has been very successful. He has been very successful in Twillingate.

The market for B. C. fruit cannot be overestimated. The apples cannot supply the local market. I paid ten cents per pound for apples at Nelson and they were very inferior apples, that having been imported from U. S. I was told by the Nelson Board of Trade that some of the fruit was shipped to B. C. from the U. S. during the past year. Only 5 per cent of B. C. fruit can be brought into competition and not more than 2 per cent of it is suitable for fruit culture, and although hundreds of thousands of fruit trees will be set out this year, the supply of fruit cannot equal the demand made by the numerous, growing towns that are springing up all over B. C. The demand for fruit is growing, and the thousands of settlers who are constantly pouring into the region, are making the local market ever becoming overcrowded, then just on the other side of the Gates of the B. C. because that great wheat farm, 1000 sq. miles, and 1000 miles wide, and the thousands of settlers who are constantly pouring into the region, are making the local market ever becoming overcrowded, then just on the other side of the Gates of the B. C. because that great wheat farm, 1000 sq. miles, and 1000 miles wide, and the thousands of settlers who are constantly pouring into the region, are making the local market ever becoming overcrowded, then just on the other side of the Gates of the B. C. because that great wheat farm, 1000 sq. miles, and 1000 miles wide, and the thousands of settlers who are constantly pouring into the region, are making the local market ever becoming overcrowded, then just on the other side of the Gates of the B. C. because that great wheat farm, 1000 sq. miles, and 1000 miles wide, and the thousands of settlers who are constantly pouring into the region, are making the local market ever becoming overcrowded, then just on the other side of the Gates of the B. C. because that great wheat farm, 1000 sq. miles, and 1000 miles wide, and the thousands of settlers who are constantly pouring into the region, are making the local market ever becoming overcrowded, then just on the other side of the Gates of the B. C. because that great wheat farm, 1000 sq. miles, and 1000 miles wide, and the thousands of settlers who are constantly pouring into the region, are making the local market ever becoming overcrowded, then just on the other side of the Gates of the B. C. because that great wheat farm, 1000 sq. miles, and 1000 miles wide, and the thousands of settlers who are constantly pouring into the region, are making the local market ever becoming overcrowded, then just on the other side of the Gates of the B.
