GET BUSY

On your House Plans if you intend Building a Home. Don't sit back waiting for lower costs next spring. We anticipate building costs will increase if anything for 1922. Quit procrastinating about hard times and the cold hard winter and help keep the ball rolling.

FOR GOOD TIMES

Take the middle course between the chronic pessimist and the fatuous optimist. Size present conditions up in a sane business manner and we think you will see our advice is good.

AND BUILD NOW

The long cool days are dandy for building and there is lots of time to complete your home before fall.

J. & D. A. HARQUAIL COMPANY, LTD.
Contractors and Builders,
CAMPBELLTON, N. B.

We will assist you with your plans and guarantee our quality of materials and service.

MIL. HAND FATALLY INJURED

Milton Astles of New Carlisle
Struck By Bolt At Athol
Mill.

A particularly sad accident occurred on Friday afternoon at the Athol Mill in which Milton Astles, of New Carlisle, lost his life. While engaged sawing a bolt from the saw flew back striking him over the heart. Medical aid was at once summoned, but the unfortunate man passed away within an hour of the accident. Deceased was in his 45th year. The remains were forwarded to his home on Saturday, the funeral taking place at New Carlisle on Sunday.

BOSTON BANKERS LOST \$5,000,000

Massachusetts Officials Take
Action Against the Wreck-
ed Cosmopolitan.

Boston, Aug. 19.—Bank Commissioner Joseph C. Allen, in possession of the closed Cosmopolitan Trust Company, has brought suit in the supreme court against the directors of the company for a sum approximately \$5,000,000. Specifications in the bill of complaint allege that the losses incurred in the conduct of the bank's business exceed \$4,764,195.47.

Charges against the directors contained in the bill of equity alleged "gross and repeated negligence in making loans and investments" and "repeated violations of the banking laws of trust companies both in the commercial and savings departments."

"The negligence and carelessness of the several defendants," the bill reads, "in negligently and recklessly making the funds of the plaintiff company and in negligently making investments and in negligently neglecting investments resulted in very large losses."

The result has been, the complaint asserts, a loss in "bad loans and investments" of about \$5,000,000.

The bill further declares that although the "negligence of the defendants covered a long period prior to the closing of the bank," no claim is made to hold any of the directors liable "for any negligence occurring more than six years prior to the filing of the bill."

The Cosmopolitan is one of the five banking institutions closed in this city by Mr. Allen.

The board of health—three square meals a day.

PLAN TO CHANGE CLIMATE

Basing their calculations on the effect of the Gulf Stream on the climate of Great Britain, engineers are now planning to block the Straits of Belle Isle and thus transform Eastern Canada into a winter resort rivaling Florida or California, says a contemporary.

British capitalists have asked for a concession to build a railway from Quebec to Newfoundland. In order to complete the road, a bridge across the strait separating Labrador and Newfoundland is necessary. Engineers have reported that the plan is feasible and are now seriously considering the question of constructing a great dam instead of a bridge. It would be ten miles long and fifty feet wide, and the estimated cost is only ten million dollars.

Scientists claim that blocking this outlet for the cold Arctic currents flowing into the Gulf of St. Lawrence would have amazing effects on the climate of Eastern Newfoundland, Quebec, Prince Edward Island, New Brunswick, Nova Scotia and the New England States.

It would be difficult to overestimate the benefits of such a scheme if it is possible to control the ocean currents. Population would increase, new cities spring up, a veritable new world would develop in Eastern Canada. "Frank it is a mighty 'if,'" Engineers have not had much practice in dealing with ocean currents, but in view of all the once impossible experiments which are now commonplace it is not entirely incredible.

FIVE O'CLOCK IS TITLE NOT TIME

Many Enquiries Received
Regarding Opening Play of
Urban Stock Co.

Five O'Clock is the title of the three act comedy with which the Urban Stock Company will open their three day engagement at the Opera House on Monday evening next. Ever since the billing for this play was displayed about town the Opera House management and staff have been kept busy informing patrons that Five O'Clock is the title of a play and not the starting hour as many seemed to think. Nevertheless the play hardly needs an introduction as it has been made famous by the greatest Actor-Author of the day, Frank Bacon.

Mr. Bacon is better known by his later success, "Lighting" which is now in its fourth year at the Gayety Theatre, New York City. Dr. March the character portrayed by Mr. Bacon in the New York production of "Five O'Clock" is played by MR. URBAN. The company is well balanced and given an excellent performance of this production. George Brooks, who directed the New York production of "Five O'Clock," is with this company.

Tuesday night "Cappy Ricks" will be presented. This play is taken from the famous stories by Peter B. Kyne, published in the Saturday Evening Post.

Wednesday night the company will offer "The Fighting Parson," a comedy in four acts. This is one of the most pleasing plays the company has ever presented.

The vaudeville between the acts is exceptionally good. Flo and Jack Reid offer some clever singing and talking doubles. Joe Vance, the celebrated banjo player, has a surprise for you. Mr. Vance is well known by his photograph.

"Hugh Collins can surely put those ballads across in great style."

CANADA TODAY.

Are you acquainted with the following facts concerning this Canada of ours?

1. The surface area of Canada is 3,600,000 square miles or one-fourteenth of the land surface of the world. It is the largest civilized country of the world—100,000 square miles larger than the United States and all its possessions.

2. It is the second nation in the world in potential water power, having practically three systems reaching from ocean to ocean, making possible the rapid development of its towns and cities and making practically every mile of tillable soil available for production.

3. The character of its banks is unique. There are 18 chartered banking institutions with 4000 branches making it possible to equalize interest all over the Dominion to one half of 1%, making it as easy to borrow as to lend, and giving business enterprises to be given financial encouragement.

4. The value of its agricultural products is \$2,000,000,000 annually, a stupendous figure for a nation of less than 10,000,000 population.

5. Its natural resources are—600,000,000 acres of tillable soil, 600,000,000 acres of timber, 110,000 square miles of coal land, 300,000,000 annually from mineral products, \$50,000,000 annually from fisheries, \$15,000,000 annually from furs.

These are the resources that nature has put into the lap of Canada. Their wise use gives the nation a tremendous advantage over others not equally fortunate.

Where is the man who, knowing these facts, will still fail to get the spirit of "Let's go" to live up the business of this country, business that has slowed up slightly of late for lack of necessary optimism and confidence.

Come on! Business has steadily advanced in Canada for 50 years and was never, at heart, slower than it is today.—Ex.

WANTS \$10,000 FOR HORSE'S WOODEN LEG

Hammond, Ind., Aug. 19.—Jacob Diamond, a podder, yesterday filed suit in superior court of \$10,000 damages against an autoist who ran into Diamond's three legged horse and broke its wooden leg. The suit alleges the animal was "bruised and mutilated" to that extent, the horse which has worn the wooden leg for

On one occasion the leg caught on fire and the fire department was called to extinguish the blaze.

SIR SAM HUGHES DIED YESTERDAY

Canada's War Minister of Militia
Passed Away Wednesday
Morning.

Lindsay, Ont., Aug. 24.—Sir Sam Hughes, former minister of militia and defense in the federal government, died early this morning at his home here.

Sir Sam had a bad turn on August 21, but had rallied and last week was strong enough to sit up in his bed. On Monday the former minister began to sink and was unconscious all yesterday. His friend realized that the end was near and a cable was sent to his son, General Carmel Hughes, in England, last night.

IMPROVEMENT IN THE POTATO CROP

Aroostook County Yield is Officially Estimated at 62 Per Cent—Rains Helped.

The past week has made a great improvement in the potato situation in Aroostook county, the rains having done much to improve the growth of the tubers in this section, says the Houlton Times.

In a trip over the country many peculiar things are noticeable, viz: the crop north of Mars Hill to the river will doubtless yield 100 per cent, crop and the tubers still growing, south of Mars Hill the yield as far as can be told will be from 75 to 85 per cent, while in the south and western part it may fall below that figure. In one section of the country, due to extremely dry weather, the tubers in a certain field had evidently stopped growing and then after the wet weather, (which in this case had arrived too late, or the growing vines) had started again.

In some sections digging for the weekly market has started and the price has been from \$3 to \$4 per barrel, but the ordinary fields have at least six weeks for growing before the real harvest commences.

Maine has fallen from first to fourth place in apple crop prospects of the country because of July drought. V. A. Sanders, New England crop statistician of the federal bureau of markets announced Friday.

The Aroostook potato crop is not quite up to normal. Mr. Sanders adds, adding that it is 82 per cent of a normal against 90 last year and a five year average of 90 per cent. The crop is uneven throughout New England with some light recorded. Present potato conditions in the country are best in Colorado and in New England, Mr. Sanders added.

George H. Brown shipped the first car of potatoes out of Houlton on Saturday as far as we are able learn, for which he paid \$4 per barrel.

THE U. S.-RUSSIAN AGREEMENT SIGNED

Riga, Aug. 20.—The agreement between the United States and Russia providing for American relief for the famine-stricken districts of Russia was signed at eleven thirty this morning by Walter Lyman Brown, European representative of the American Relief Administration and Maxim Litvinoff, representative of the Russian Famine Committee.

NO FINAL DECISION ON THE ELECTIONS

The Situation Will Probably Be
Taken Over at Ottawa for
Days Yet.

Ottawa, Aug. 22.—The political situation is still up "in the air." The Premier's office, from whence must come the official pronouncement as to what the Government proposes to do to meet the present situation, is the Mecca of a host of callers, including members of Parliament, from various sections of the country and others who have an interest in developments.

The Premier apparently is hearing all the advice which is being offered and is reserving judgment until all the suggestions are in hand and have been given consideration. That there will be a decision within the next few days is expected, but at the present time the tide continues to swing back and forth between an election and the decision to carry on through another session.

END OF WORLD IS NOW AT HAND

Rev. M. C. Burt, of Chelsea,
Mass., Discussed Subject at
North Devon.

"Things that have happened since 1914 to prove that the second coming of Christ is at hand" was the subject of the sermon delivered by the Rev. M. C. Burt, of Chelsea, Mass., at the Advent Christian Church, North Devon, Sunday evening.

The world war, the end of the last of the Roman empires, Russia, Germany and Austria-Hungary, the God of Gentile oppression of Jerusalem and the flight of the Turk from Constantinople, were the subjects discussed as indicative of the fifth world revolution, after which it has been prophesied, the preacher declared, comes the "Kingdom of God."

Four world revolutions have now occurred, said Rev. Mr. Burt, the first being under Nebuchadnezzar, the second under Cyrus, the third under Alexander the Great, followed by the fourth under the Caesars.

Daniel's prophecy regarding the vision of Nebuchadnezzar in which he saw an image of a man with a golden head, silver breast, brass belly and thighs and legs iron and clay, was treated as symbolic of the four great world empires under Nebuchadnezzar, Cyrus, Alexander and the Roman empire, the last traces of which have now vanished.

"We can't have the new kingdom without the King, therefore the second coming is nigh at hand," said the pastor, "and we shall have a kingdom free from the liquor traffic and other evils."

"BERNICE R." IS LOST AT SEA

Large Three Masted Schooner
Burned in Bay
Chaleur.

Word was received here yesterday that the large three masted schooner "Bernice R." of Weymouth, N. S., which sailed from New Campbellton, Cape Breton with a cargo of coal for this port had been destroyed by fire in the Bay Chaleur Tuesday and her crew landed at a Gaspe coast port.

Collector of Customs Moffat has received a telegram from Clasp Bay stating that the schooner was over due and asking for a report if any word of her was received.

SPORTING CLUB FOR BATHURST.

Intends to Engage in Community
Work.

Bathurst, Aug. 24.—Letters patent have been issued according to notice appearing in to-day's Royal Gazette, the James P. Wieldan, John G. Stoney, Joseph H. Dunlop, Fred Heaton and William G. White, all of Bathurst, incorporating them as Mieneae Sporting Club, Ltd., with a capital of \$2,500, the head office to be at Bathurst. The object of this incorporation is to take an extensive interest in the social welfare and good of the community and to provide in any way for the mutual improvement and pleasure thereby of the association.

Jack O'Leather Suits for Boys' cost no more than the ordinary Boys' Suit at Oak Hall.

MATAPEDIA GARDEN PARTY.

The Ladies Aid of the Soldiers' Memorial Hospital are greatly pleased at the success of the Matapedia Garden Party. Mrs. Baker and others who assisted are to be congratulated upon their good work. The first-aid course, salmon, club, grounds were beautifully decorated for the day and Mr. Walter Jennings, one of the Club members kindly offered the use of the Club buildings if required. The various features were most attractive. The text which formerly belonged to Dr. Webb, in which the fortune teller held forth was a work of art and the very charming lady who revealed the past and future must indeed have been gifted with mystic power, at all events she created lots of fun. Every department of the work was most completely planned and carried out and the Matapedia ladies are indeed to be congratulated upon the success of the whole undertaking.
