Pursuant to an order of the Chancery Division of the High Court of Justice made in the action of Roach rs. McGourn, the creditors, (including those having any specific or general lien on the state or any undivided portion thereof) of Patrick Roach, late of the City of Toronto, in the County of York, hotelkeeper, who died in or before the AND-HYGIENIC FOODS. The June (1886) number of "The Canada

Medical Record," edited by Dr.F.W.Campbell of Montreal, says of "Our National Foods":

OUR NATIONAL FOODS

"These foods afford not only nutritious and delicate diet but also assist in laying the "These foods afford not only nutritious and delicate diet but also assist in laying the foundation of a strong muscular development as well as brain and nervous vitality. The cereals are treated in the light of all the scientific progress of the times. They contain a full proportion of diastase and the nitrogenous constituents so essential to the health and vigorous growth to the body in the earlier stages of life, and for the reconstruction of systems 'run down' with dyspepsia and other affections of the digestive organs. We have tried several of these foods and have no hesitation in recommending all the preparations of this house as worthy the confidence and endorsement of our readers."

DESICCATED WHEAT

Is prepared from Choice White Wheat, brushed and scoured, and then decorticated so the outside woody fibre is removed but leaving the inside bran, which contains the gluten, nitrogen and phosphates. It is then put through a process of terrifaction by which the starch is converted into dextrine. It is hulled, cooked and rolled, and is the perfection of human food for all season of the year. It will cure dyspepsia and is en-joyed by all as a delicious, healthy food, which supplies the wastes of the body.

DESICCATED ROLLED OATS

Are more easily digested, more palatable and nourishing than any ordinary oat food. They are not steamed, as steaming this cereal destroys its hygienic properties. This food is rolled flat and cooks in ten minutes. Many eat it like confectionery before cook-ing because of its toasty flavor.

SNOWFLAKE BARLEY

Is a Fine Pearl Barley, crushed into white flakes, which cook quickly and afford an ex-cellent article for soup, puddings, porridge, etc., and is very wholesome owing to the large quantity of phosphates in the barley.

PREPARED PEA FLOUR.

Which has been imported into Canada from Scotland and other places, is now made equal in quality and lower in price, so that all can enjoy this very palatable and easily digested article for soup, brose and gravy.

BARAVENA MILK FOOD

For Infants and Young Children is a complete substitute for Mother's Milk. It is a Com-pound Preparation of specia ly prepared farina of the healthiest cereals, thoroughly in-corporated with Concentrated Milk. It affords the most complete and nutritious food available for Infants, Young Children and persons of weak digestion.

PREPARED BARLEY

Is equal to any imported and much cheaper. It is used for children, invalids and others, and for light suppers. Every family should keep this article on hand.

BEEF AND BARLEY EXTRACTS

For old people, invalids and others who want a condensed, nourishing drink. This pre-paration is made of the combined extracts of Beef and Barley, and is a highly nutritious beverage, as it contains in a concentrated form all the elements of Flesh and Vegetable Food. It is palatable, easily digested and eminently suited for all dietetic purposes, especially persons troubled with constipation or indigestion, and for nervous prostra-
