Healthy Old Age

is the result of careful living. Keeping the blood pure and the body free from even minor ailments adds years of enjoyment to one's life. The trouble with most of us nowadays is, that we live too rapidly. We are in such a hurry to go some place, or do some thing, that the care of our bodily health is wofully neglected. Nature never pardons neglect. Her laws must be respected, or punishment ensues.

These things develop all the latent weakness in his body. They make digestion imperfect, they prevent proper assimilation, proper secretion of the digestive fluids and the proper excretion of refuse matter. Probably the last is most important of all, for poisonous matter in bowels, liver and kidneys soon gets into the blood and so is carried all over the body. There is no telling where such things will stop.

In the beginning, a little common sense and a simple, natural remedy is all that is needed. Even when the trouble has progressed to serious stages, a simple, scientific remedy working strongly with Nature—soothing, stimulating, invigorating, the organs of digestion, will have a wonderful effect on the whole body. There is really nothing wonderful about it. The blood is all made in the digestive organs. If they are healthy and strong, the blood is the same and it makes every part of the body strong.

Dr. Pierce's Golden Medical Discovery buts the digestive organs into perfect condition. It makes them capable of performing perfectly all their functions. It increases the power of assimilation and so makes good, solid healthy flesh. A large book about it (160 pages) will be sent free to any address, on receipt of six cents in stamps to cover postage.
