GENTLEMEN,—In seconding the motion to adopt the motion. said:

Seconding the motion to adopt the report, I feel I must content myself with, as I do most heartily, endorsing what has been said by the President, whose remarks have further documentary endorsement in the report of the Directors. I am certain I shall only voice the sentiments of the meeting, when I express my great gratification at the excellent condition of the financial affairs of the Association which the report sets forth. We all know that the conditions of success in the financial field have been exceptionally difficult. The business stringency has by no means been an inactive factor, while the sharp competition of similarly constituted organizations have by no means left our officers and agents a monopoly of opportunities to win the favor of the public desiring to do business on the lines of institutions such as ours. That under, what I may designate as adverse circumstances, we are able to congratulate ourselves by them.

Ith Trusts the excellent showing of results, is a practical demonstration of the soundness of the principles that underlie the constitution and operations of the Dominion Building and Loan Association, and of the prudent administration of its officials. I can add little more to the practical and comprehensive address of the President.

second the motion for the adoption of the Report.

Mr. D. W. Karn, of Woodstock, manufacturer of pianos and organs, said: "As a member of the Board of Directors I should indeed be difficult to please if I failed to be highly gratified at the indications of good management, prosperity and sound condition which the report we have heard to-day presents. It is evident that our Association as a financial institution is calculated to meet a peculiar public want in a most satisfactory manner, otherwise the remarkable success that has followed the few brief but prosperous years of its existence would not have been so marked or of so healthy a character, I have no doubt in view of the results, I shall be justified by all concerned in expressing my general approval and EDWARD STILL,
