Mattresses and Bed-Springs that  
are 100% Sanitary and Complete

YOUR one unfailing assurance of  
sweet, clean Mattresses and Bed  
Springs is the Label of Simmons Limited.

This Label means sanitary materials.  
It means fine craftsmen working in  
airy, sunlit rooms.

So all you have to do is to see the  
Label of Simmons Limited, and then  
select the style of Mattress and Box  
Spring you like best—sweet and clean  
through and through!

We offer a complete assortment.  
All grades, widths, weights and prices.

Our Export  
Problems

IN two years since the signing of  
the armistice there has been  
more money spent by Canadian  
manufacturers in endeavoring to  
develop export trade than in any ten  
years previous to the war. Not only  
has more money been spent, but  
more people have been engaged.  
Where there were probably between  
two hundred and three hundred  
manufacturers doing considerable  
amounts of export trade before the  
war, this figure will now easily  
exceed one thousand.

There have been many export  
organizations formed to facilitate  
trade between Canada and various  
other countries. Many branches of  
Canadian banks have also been  
established in foreign countries to  
assist in developing trade, "and the  
banks would not pursue this policy  
if they were not assured that the  
manufacturers of Canada were put-  
ting forth great efforts to maintain  
the trade for the future," said Mr.  
Marshall. "Increased Canadian ship-  
ping facilities granted by the Cana-  
dian Government Merchant Marine  
and private companies are another  
voucher for the earnestness of Cana-  
dian manufacturers in export trade."  
The basis for all good export trade  
is the ability of the customer to pay.  
In large areas throughout the world  
to-day many business firms have nei-  
ther the cash to finance transactions  
nor the requisite credit to enable the  
seller to assist in financing. And in  
many cases where the cash is avail-  
able the seriously adverse exchange  
rates put a normal Canadian price  
beyond the economic limits on which  
deals can be made in the importing  
country. Immediately after the arm-

A Power of its Own.—Dr. Thomas'  
Electric Oil has a subtle power of  
its own. All who have used it know  
this and keep it by them as the most  
valuable liniment available. Its uses  
are innumerable and for many years  
it has been prized as the leading lin-  
iment for man and beast.

There were great essential re-  
quirements that had to be fulfilled  
almost regardless of price. Many of  
these transactions were conducted  
during the period when exchange was  
pegged, and were, therefore, on a  
purely fictitious level exchange basis  
which temporarily facilitated busi-  
ness between Canada and Europe.

A comparison of the export records  
of the six months ending September  
30, 1919, and the same period in  
1920 shows that if the natural di-  
minution of export to Great Britain  
is omitted, Canada's export trade to  
other parts of the British Empire has  
increased in the 1920 six months'  
period by \$23,000,000, the greatest  
increases being noted in British West  
Indies, British South Africa, New  
Zealand, Australia, Hong Kong and  
Newfoundland, and the total Cana-  
dian trade with these countries is  
largely in manufactured goods.

In trade with foreign countries,  
France omitted, an increase of ex-  
ports amounting to \$17,000,000 for  
the six months ending September,  
1920, over the same period in 1919  
is shown. The principal increases  
occurred in trade with Argentina,  
Belgium, China, Cuba, what was for-  
merly German Africa, United States,  
Greece, Italy, Norway, Spain and  
Sweden. Even assuming that all our  
increased exports to the United  
States were raw materials or food-  
stuffs, a fine balance of this increase  
is left to represent manufactured  
goods entering the other countries  
named.

The proportions of manufactured  
goods forming the exportations of  
Canada has steadily risen. In 1880  
the proportion was only 5 per cent.  
of manufactured goods to the total  
volume of exports. In 1890 the pro-  
portion of manufactured goods was  
7 per cent. In 1910 it had increased  
to 13 per cent., in 1916 to 32 per  
cent. and in 1919 to 43 per cent.  
This analysis cannot yet be made for  
1920, but taking all things into con-  
sideration, it is safe to say that  
Canadian manufacturers need not be  
ashamed of the record that the fig-  
ures will show. The record given  
here effectually disposes of the charge  
that Canadian manufacturers have  
not been diligent in seeking export  
trade.

One source, and possibly the only  
source, for better conditions and  
better economic relationship is the  
setting up of some administrative  
organization which can superintend  
credit operations based on bonds  
issued by individual countries now  
in financial straits covering the na-  
tional assets which undoubtedly exist  
in each. This may be the only means  
of bringing goods and consumers to-  
gether with anything like speed.  
Otherwise, in many of the countries,  
there will be a long slide of destitu-  
tion and want until they can  
straighten things out on a national  
basis. The longer this process takes,  
the more adversely it will affect  
nations more happily placed.

It seems more or less incongruous  
that manufacturers should be blamed  
for not selling goods to Russia,  
Poland, Czechoslovakia, the Serb-  
Croat-Sloven States and some other  
countries when in those very places  
millions of people are starving and  
the Canadian and American agricul-  
tural interests are having difficulty  
in finding a market for their wheat  
and other foodstuffs. If it is as  
simple a matter to develop export  
trade in manufactured goods with  
these countries and get payment for  
them, as some critics allege, surely  
it should be far easier to find abun-  
dant markets for foodstuffs among the  
starving nations in Middle Europe,  
yet the export figures do not reveal  
any considerable movement of food-  
stuffs from Canada to those coun-  
tries.

Coincidence's Curious Chain.  
At Ramsgate, N.B., the two daugh-  
ters of J. E. Smith died on the same  
day. They were twins and were brides  
at a double wedding twelve years ago.

Sheep.  
Canada has 3,500,000 sheep; Aus-  
tralia, 80,000,000; United States,  
40,000,000; Britain, 27,000,000.

Time to Move.  
Uncle, to niece—"Dolly, I'll give  
you a sum. Supposing your father  
owed to the butcher fifteen pounds  
eleven shillings and twopenny half-  
penny, seven pounds three shillings  
to the bootmaker, fourteen pounds  
and ninepence to the milkman, and  
thirty-one pounds nineteen shillings  
and threepence three-farthings to the  
coal merchant."  
Dolly, confidently—"We should  
move!"

Deer Horns as Medicine.  
So extensively does powdered ani-  
mal horn enter into native remedies  
in China that some of the larger  
medicine factories maintain herds of  
deer for their horns.

The Guide-Advocate Job Dept.  
is here to give you the Best Ser-  
vice in Printing. We have the  
material and equipment to turn  
out printing equally as good if  
not better than any city office,  
and at prices considerably lower.  
Letterheads, envelopes, billhead,  
memorandums, account sheets,  
etc., and all kinds of pamphlet  
and circular work, at the lowest  
remunerative prices. We solicit  
your patronage.

TOO ILL TO  
GO TO SCHOOL

Mother Tells how Daughter  
was Made Well by Lydia  
E. Pinkham's Vegetable  
Compound

Cobourg, Ont.—"Lydia E. Pink-  
ham's Vegetable Compound was re-  
commended to me  
for my daughter.  
She has trouble  
every month  
which makes her  
a weak and in-  
capable condition  
with weak back  
and pain in her  
right side. She  
had these troubles  
for three years  
and frequently  
was unable to at-  
tend school. She has become fatter  
and feels much better since she began  
taking the Vegetable Compound and  
attends school regularly. She is gaining  
steadily and I have no hesitancy in  
recommending Lydia E. Pinkham's  
Vegetable Compound and Lydia E.  
Pinkham's Blood Medicine."—Mrs.  
JOHN TOMS, Ball St., Cobourg, Ont.

"I Feel as Tho' I Could Not  
Drag Thru the Day's Work"

is the complaint of many a woman  
in the household, office or factory.

After suffering  
pain, feeling  
nervous, dizzy,  
weak and  
dragged-down  
by weakness  
of her sex—  
with eyes  
sunken, black  
circles and  
pale cheeks—  
such a woman  
is quickly re-  
stored to  
health by the  
Favorite Pre-  
scription of Dr. Pierce. Changed,  
too, in looks, for after taking Dr.  
Pierce's Favorite Prescription the  
skin becomes clear, the eyes  
brighter, the cheeks plump. It is  
purely vegetable and contains no  
alcohol.

Druggists sell it in tablets or  
liquid, or send Doctor Pierce, at  
Invalids' Hotel in Buffalo, N. Y.,  
10 cents for trial package.

BARRIE, ONTARIO.—"I was suffering  
from a run-down system some time  
ago, was unfit to perform my daily  
duties, and was advised to try Doctor  
Pierce's Favorite Prescription. I tried  
it, took two bottles, and was restored  
to my natural strength. I cannot  
praise Doctor Pierce's medicines too  
highly, and will be willing to write to  
anyone sending a stamped envelope."  
—Mrs. A. H. BISHOP, R. R. No. 1.
