WORLD PAYS FINE TRIBUTE TO A GREAT NATION BUILDER

Passing of Lord Shaughnessy Calls Forth Expressions of Admiration and Respect For the Man of Far Vision and Unflinching Determination, Whose Monument Is As Much in Canada's Greatness as in the Railroad He Helped to Build.

On December 10th, at Montreal, Death stilled the keen mind which for forty-two years had been ever at the disposal of the Canadian Pacific Railway, the strong hand which for twenty years had held the lever of that gigantic machine, the gallant heart which had ever been attuned to the music of the giant company's locomotives. Taking away Lord Shaughnessy, he took away with him the last of the old guard of the great pioneers of Canada's pioneer trans-continental. The departure of this monumental man is significant of the changing times, a mark of the Dominion's passing into manhood.

The late Right Honorable Lord Shaughnessy, First Baron Shaughnessy of Montreal and of Ashford, County Limerick, Ireland, K.C.V.O., F.R.C.I.

The details of Lord Shaughnessy's truly wonderful career have been recapitulated so often of late that there is little need to run over them here. Born in 1853, at Milwaukee, of Irish ancestry, he studied for the law, felt the lure of great railway work, entered the Chicago, Milwaukee and St. Paul Railway as clerk at the age of sixteen, and in ten years rose to the position of General Storekeeper. In 1882, when Sir William Van Horne took over the management of the Canadian Pacific Railway, he at once engaged the young man he had known with the Chicago, Milwaukee and St. Paul, offering him the position of General Purchasing Agent. Two years later came the promotion to Assistant General Manager, in 1891 the Vice-Presidency, and in 1898 the Presidency. This position he held until 1918, when he retired to accept the office of Chairman of the Board of Directors, which he retained to the moment of his death. Meanwhile came many honours—in 1901, a Knight Bachelor; in 1907 a Knight Commander of the Victorian Order; in 1916 a Baron, and high appointments in the many civil organizations in which he was interested.

Lord Shaughnessy was a man of vision, of tremendous energy, brilliant and incisive, a great executive, a great financier—almost everything but a politician.

Canada will never realize the full extent of what it owes to the steadfast faith, buoyant optimism, foresight and sheer hard work of Lord Shaughnessy in his desire to build up Canada through the agency of the vast company he headed.

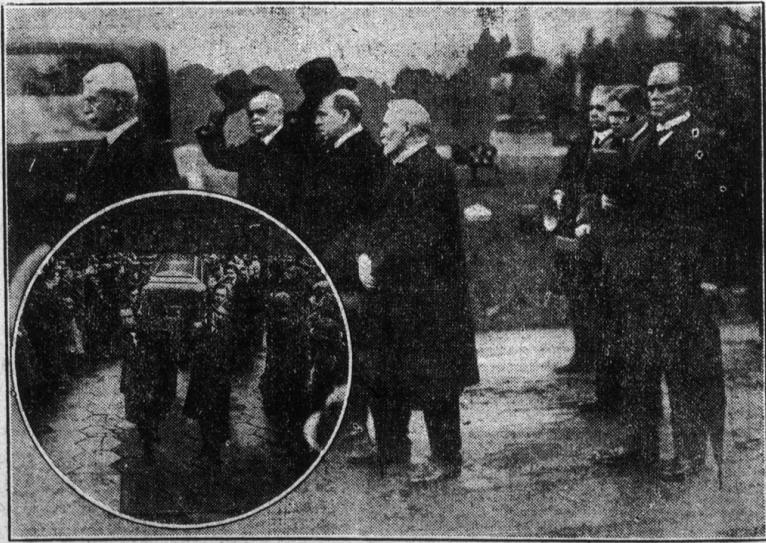

Lord Shaughnessy was unsurpassed as an administrator. His discipline was strict but tempered with justice, kindness and a keen sense of humor which made his followers love him. His attitude towards Labour was well known. It was rightly said by the company's employees that any dispute might safely be left to him, and his frequent pronouncements in favour of giving the workman as great an opportunity for self-improvement and enjoyment as the employer caused the employer of the

the practicability of those dreams after dawn. "Lord Shaughnessy, whose passing Canada mourns today, was a man of this calibre, and because of the intangible nature of that essence which makes for greatness and crystallizes leadership, the record of his characteristics, his gifts and his achievements must leave much untold. Yet in the qualities that were revealed to his friends and associates, in the firmness of purpose and the strength of character displayed, in the very ascent of the ladder of success, rung by rung, Lord Shaughnessy has bequeathed a heritage to the youth of Canada of splendid inspiration and to the men who have lived through the historic years with him he has left a glad remembrance.

"I have set up a monument more lasting than bronze" wrote the great Horace two thousand years ago. The words might be carved upon every line of railway of the system which Lord Shaughnessy did so much to bring to greatness as an epitaph of his life. Himself of strict integrity, he carried the principle of the strictest code of ethics into the administration of the road he loved so warmly and for which he laboured so untriflingly. The Empire mourns a great pro-consul."

And this, from the London Times, ever the spokesman for the heart of that Empire: "The romance, imagination and fine courage of the Empire builder are blended in the life story of Lord Shaughnessy. Himself a native of the United States, he lived to become not only a citizen of the Dominion of Canada across the border but most essentially a citizen of the British Empire, for his whole-hearted and efficient work was not merely dedicated to the service of his country. Under his administration, the double track branched and extended so as to carry new settlers every year into the farmlands of Ontario, through the gateways of the West into the wheat-fields of the prairies, and beyond the Rockies into the valleys of British Columbia. In building the greatness of the company he served, he helped to build the greatness of his beloved country and of the Empire as well. . . . Of Lord Shaughnessy it may be said that he was a living instance of the manner in which Britain's overseas dominions assimilate the many elements of which they are composed. He came to Canada from a foreign country as a servant; he remained to be honoured by the King, to whom he gave such loyal allegiance, and to be recognized universally among his fellow-countrymen as the first citizen of the Dominion."

The gap left in the ranks of true Christian gentlemen by the sudden and premature snapping of this steel link with the old railroad builders is very large.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that besides being an effective vermifuge,

they are tonical and healthgiving in their effects.

It will prevent Ulcerated Throat—At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.
