The smelt season has closed, and Mr. John Barr has taken up his nets.	We are pleased to report Mrs. F Parker, slowly convalescing. Mr. John Haynes having an early piece of ground is making ready for planting. Wm. Ramsay has been quite ill with la-grippe. The mill has been shut down for several days. Robins have been seen in this vici- nity aod some of our weather proph- ets are counting on an early spring. All of the logging teams except two came out of the woods last Saturday. The log and lumber hauling has to be abandoned for the present, owing to the bad condition of the rocds. Mrs. Thomas Burke remains in about the same critical condition. Her son. Arthur, of Lyon, Mass., has been mak- ing a visit with his parents returns home on Saturday, 4th, April. Darby Cronin had a narrow escape at the wharf one day last week, while riving. His colt became unmanage- able and backed nearly off the wharf, pinioning Mr. Cronin between the trossbar and the dash. But for the timely assistance of Mr. Slocumb, Mr. Cronin and team would have gone over together.	Nervous Troubles "Work is the king of all cures in nervous troubles," said Dr. Richard C. Cabot, speaking at the Harvard Medi- cal School. "The rest cure is good for some, but for most of them work is the rest they need, because most nervous patients are born tired and never get over it, unless they can be got to work. The work cure sums up all the others," The audience that gathered to listen to Dr. Cabot was one of the lar est that has thus far attended these free Sunday afternoon lectures. His sub- ject was "Psycho-Therapeutics," which he said, was a type of mental healing that ought to continue to grow in use He declared that it differs from all other healing movements in that it is not a lay movement, but a scientific one that was founded in France fif- teen years ago, and has been steadily growing there and in Germany. Referring to the difference between mental healing and Christian Science Dr. Cabot declared that the latter had done much good. He said there was no doubt that people died of cancer and diphtheria while under Christian Science treatment, but by a happy chance most of that kind of cases do not fall to Christian Science treat- ment. Christian Science differs radi- cally from psycho-therapeutics in that it does not require a diagnosis of dis- case before beginning treatment which psycho-therapeutics does.
