Catarrh-A New Treatment

Catarrh—A New Treatment.

Perhaps the most extraordinary encess that has been achieved in medern selance has been attained by the Dixon Treatment of Catarrh. Out of 2.00 patients treated during the past six months, fully ninety per cent. have been cared of this stuborn malady. This is none the less startling when it is remembered that not five per cent, of the patients presenting themselves to the regular practitioner are benefitted, while the patient medicines and other accertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at conce adapted his cure to their extermination; this accomplished the catarrh is practically cured, and the permanency is unquestioned, as cur as effected by him four years ago are ornes still. No one clas has ever attempted to cure cutarrh is this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure, the majority of esses being cured at one treatment. Sufferers should correspond with Measre. A. H. DIXON & SON, 365 King-etree west, Toronto, Canada, and enclose stamp for heir treatise on catarrh.—Montreal Star.

Make a Note of This.

I'ain banished as if by magic, Polson's NERVILINE is a positive and almost instantaneous remedy for external, internal, or local pains. The most active remedy hither-to known falls far short of Nerviline for potent power in the relief of nerve pain. Good for external or internal use. Bay a 10 cent sample bottle. Large bottles 25 cents, at all appoints. all druggists.

Carrying War
Into the enemy's country. This is verified in the case of Putnam's Corn Extractor, so favorably known throughout Canada. The large demand from the United States for this great corn cure has induced the pro-prieters to put it up there, and boldly push it to the front as the leading article in its line. From England also a demand has methods, as a large portion of the mund methods, as a large portion of the proprictary goods sold here emanate from the countries. This speaks highly in favor of Patusm's Extractor, the great corn cure. We advice sufferers from this dire, in ort to test its merits. — Exchange.

Rusa on several occasions sent expeditions to the Poles and got around them very successiully.
