Practical Problems

IN

ARITHMETIC.

For First, Second and Third Classes.

By JAMES WHITE, Public School Teacher

EDMONTON, ONT.

This book has been prepared specially to suit the convenience of Public School Teachers. It contains about 700 Practical Problems suitable for First, Second and Third Classes in Public Schools. It is very carefully graded, and each principle required to be taught is introduced in logical order. It receives the hearty approval of Teachers and Inspectors.

Read their Opinions.

From ALLAN EMBURY, Esq., Inspector, Peel.

I have examined this little book of Arithmetical Problems, and can give it an unqualified endorsement. The questions are carefully graded, and are specially suited to the wants of our over-worked teachers who have not always the time to devote to the preparation of exercises upon the various subjects of the school curriculum. The questions are not stated in the form of propositions; but their statement is incidental, leaving the inner connection of the problems to be discovered by the pupil himself; and in this important feature lies their special adaptability as an educational force. I heartily recommend this book to all teachers wishing to economize time and labor in their preparation for ordinary school work.

From E. TROUGHT, Esq., Teacher, Member County Board of Examiners, Inglewood.

I have examined with some care Practical Problems in Arithmetic for First, Second and Third Classes, by Mr. White, Edmonton. Without the slightest hesitation I say that they are the best I have ever seen—the best in selection, the best in grading, and above all, the best for developing the reasoning powers of the child, and for exercising his ingenuity. A special feature of the grading is that principles which have been introduced are being constantly made use of in the succeeding problems which are in their turn introducing new principles, so that the whole work may be said to be one unconscious review. It is a great boon to Teachers.

Price, Bound in Cloth, 25 cts.

Who Wants the Splendid

HOME-MAKER

MAGAZINE

FREE?

The Grip Printing and Publishing Co. will furnish this high-class magazine upon the following terms:—

We will furnish GRIP and the splendid "Home-Maker" Magazine one year for \$2.50.

This is an offer that should be accepted by every person who reads this paper.

This offer is made because we think it will get us many new readers, and, as we wish to treat our old friends well, present subscribers can send a full year's subscription and get credit for GRIP for one year from the time they have already paid for, and get the "Home-Maker" Magazine one year, beginning immediately. Remember \$2.50 pays one year's subscription for GRIP and the "Home-Maker."

The cash must accompany each order.

Below we print the prospectus of the
["Home-Maker"] Magazine

The "Home-Maker" Magazine

\$2.00 per Year, 20c. a Number

CHEAP IN PRICE ONLY

The "Home-Maker" asks every intelligent man to become a subscriber for himself and family, and every intelligent woman for herself, for the following reasons:

1. The "HOME-MAKER" is the only high-class magazine in America at \$2.00 per year.
2. It gives more for the money than any other magazine in America.
3. It gives the best—the best illustrations, the best writers, the best stories, the best poems, the best departments—and is the only organ of the Federated Clubs.
4. It is original, bright, entertaining, valuable; every line interesting; every article new and readable, good for the whole family.
5. It satisfies the active intelligence of women. It is ("Gail Hamilton" says), "the best union of the practical with the intellectual of all the magazines;" and its constant endeavor is to keep in touch with every issue that can interest its readers. Nothing copied; everything original.

50c. for 3 mths.; \$1 for 6 mths.; \$2 one year; Sample copies, 10 cts.
