Practical Problems
IN
ARITHMETIC.

For First, Second and Third Classes.

By **JAMES WHITE, Public School Teacher**

EDMONTON, - - - ONT.

This book has been prepared specially to suit the convenience of Public School Teachers. It contains about 700 Practical Problems suitable for First, Second and Third Classes in Public Schools. It is very carefully graded, and each principle required to be taught is introduced in logical order. It receives the hearty approval of Teachers and Inspectors.

Read their Opinions.

From **ALLAN EMBURY, Esq., Inspector, Peel.**

I have examined this little book of Arithmetical Problems, and can give it an unqualified endorsement. The questions are carefully graded, and are specially suited to the wants of our over-worked teachers who have not always the time to devote to the preparation of exercises upon the various subjects of the school curriculum. The questions are not stated in the form of propositions; but their statement is incidental, leaving the inner connection of the problems to be discovered by the pupil himself; and in this important feature lies their special adaptability as an educational force. I heartily recommend this book to all teachers wishing to economize time and labor in their preparation for ordinary school work.

From **E. TROUGHT, Esq., Teacher, Member County Board of Examiners, Inglewood.**

I have examined with some care Practical Problems in Arithmetic for First, Second and Third Classes, by Mr. White, Edmonton. Without the slightest hesitation I say that they are the best I have ever seen—the best in selection, the best in grading, and above all, the best for developing the reasoning powers of the child, and for exercising his ingenuity. A special feature of the grading is that principles which have been introduced are being constantly made use of in the succeeding problems which are in their turn introducing new principles, so that the whole work may be said to be one unconscious review. It is a great boon to Teachers.

The Irresistible Conflict between Two World Theories.

SAVAGE.** This work, which was suggested by Dr. Lyman Abbott's recent lectures on the "Evolution of Christianity," is unquestionably the most powerful presentation of the views held by evolutionary thinkers in the religious world that has ever appeared. Price, postpaid, paper 50 cents; cloth, \$1.00.

Jason Edwards.

An Average Man. By **HAMLIN GARLAND, author of "A Spoil of Office," "Main-Travelled Roads," Etc.** This powerful story depicts with startling fidelity the real life of the artisan and farmer today; a terrible picture of the unequal struggle of the poor for bread and roof. This story is rich in sunshine and shadows. Price, cloth \$1.00; paper 50 cents.

Who Lies?

An Interrogation. By **PROF. EMIL BLUM and SIGMUND ALEXANDER.** This is one of the boldest, most radical, and realistic works of the decade. It is as unconventional as it is unique, and will unquestionably call forth hostile criticisms in quarters where its shafts enter. In religion and ethics it is radical. In politics, strongly socialistic. In literature it is extremely realistic. In general, bold, frank, and truthful. Price, paper 50 cents.

Is This your Son, My Lord?

A Powerful Realistic Romance. By **HELEN GARDNER, author of "A Thoughtless Yes," "Men, Women, and Gods," Etc.** This is probably the most fearless and terrible exposé of conventional immorality and hypocrisy ever written. 25,000 copies sold in ten months. It is a book for teachers of youth. A fine portrait of the author forms a frontispiece. Price, paper 50 cents; cloth \$1.00.

Main-Travelled Roads.

Six Mississippi Valley Stories. By **HAMLIN GARLAND, author of "Jason Edwards," Etc.** These stories give the most vivid pictures of Western life among the farmers ever written. Mr. Garland has been justly termed the Ibsen of America. Price, paper 50 cents; cloth, \$1.00.

Lessons Learned from Other Lives.

By **B. O. FLOWER, editor of the Arena,** with portrait of the author. This volume contains short biographical sketches of fourteen eminent personages, written specially for the young, in a manner as fascinating as fiction, while necessarily proving very instructive.
