THE TRUE WITNESS AND CATHOLIC CHRONICLE

The Taus Wiress has within the past year made an immense stride in circulation, and if the testimony of a large number of our subscribers is not too flattering it may also laim a stride in general improvement.

This is the age of general improvement and the TRUE WITNESS will; advance with it. Newspapers are starting up around us on all sides with more or less pretensions to public favor, some of them die in their tender infancy, some of them die of disease of the heart after a few years, while others, though the fewest in number, grow stronger as they advance in years and root themselves all the more firmly in public esteem, which in fact is their life. However, we may criticise Darwins theory as applied to the species there is no doubt it holds good in newspaper enterprises, it is the fittest which survives. The TRUE WITNESS is now what we may term an established fact, it is over 35 years in ex-

istence. But we want to extend its usefulness and its circulation still further, and we want its friends to assist us if they believe this journal to be worth \$1.50 a year, and we think they do. We would like to impress upon without exception the cheapest paper of its class on this continent.

It was formerly two dollars per annum in the country and two dollars and a half in the city, but the present proprietors having taken ! charge of it in the hardest of times, and knowing that to many poor people a reduction of twenty or twenty-five per cent would mean something and would not only enable the old subscribers to retain it but new ones to enroll themselves under the reduction, they have no reason to regret it: For what they lost one way they gained in another, and they assisted the introduction into Catholic families throughout Canada and the United States of a Catholic paper which would de-fend their religion and their rights.

The TRUE WITNESS is too cheap to offer premiums or "chromos" as an inducement to subscribers, even if they believed in their efficacy. It goes simply on its merits as a journal, and it is for the people to judge whether they are right or wrong.

But as we have stated we want our circulation doubled in 1881, and all we can do to oncourage our agents and the public generally is to promise them that, if our effects are econded by our friends, this paper will be still further enlarged and improved during the coming year.

On receipt of \$1.50, the subscriber will be entitled to receive the TRUE WITNESS for

Any one sending us the names of 5 new subscribers, at one time, with the cash, (\$1.50 each) will receive one copy free and \$1.00 cash; or 10 new names, with the cash, one copy free and \$2.50.

Our readers will oblige by informing their friends of the above very liberal inducements to subscribe for the TRUE WITNESS; also by sending the name of a reliable person who will act as agent in their locality for the publishers, and sample copies will be sent on apmlication.

We want active intelligent agents throughout Canada and the Northern and Western States of the Union, who can, by serving our interests, serve their own as well aud add materially to their income without interferng with their legitimate business.

The TRUE WITNESS will be mailed to clergyman, achool teachers and postmasters at .00 per annum in advance.

Parties getting up clubs are not obliged to onfine themselves to any particular locality, int can work up their quota from different twns or districts; nor is it necessary to send ill the names at once. They will fulfil all he conditions by forwarding the names and nounts until the club is completed. We we observed that our paper is, if possible, ore popular with the ladies than with the her sex, and we appeal to the ladies there, to use the gentle but irresistible page. are of which they are mistresses in our behall on their busbands, fathers, brothers and sons, though for the matter of that we will take subscriptions from themselves and their sisters and cousins as well. Rate for clubs of ive or more, \$1.00 per annum in advance.

Parties subscribing for the TRUE WITNESS between this date and the 31st December, 1881, will receive the paper for the balance of the year free. We hope that our friends or agents throughout the Dominion will make n extra effort to push our circulation. Parles requiring sample copies or further infornation please apply to the office of THE POST rinting and Publishing Company, 761 Craig treet, Montreal, Canada

In conclusion, we thank those of our friends she have responded so promptly and so heerfully to our call for amounts due, and equest those of them who have not, to fellow ir example at once.

ITEMS OF INTEREST. The ratable value of London is just twice that of Ireland.

Whatever you have to do, do it with all your might. Many a lawyer has made his fortune by simply working with a will. There are only thirty staunch Parnellites in the British Parliament. Hugh O'Donnell,

M.P. for Dungaryan, is to be leader during Mr. Parnell's imprisonment. "Do bees think ?" is the conundrum that is bothering the pates of entomologists. The action of bees is so audden that it is impos-

sible to believe that they think. If they considered—but never mind.

Among the laborers pictured in the new settlement are Lord Hobart and the two brothers of Lord St. Vincent. Several Irish landlords are said to be about to follow Captain

Norton's example. A correspondent writing from Jamaica to a they do. We would like to impress upon leading London paper, says that the hill their memories that the True Witness is climate of Jamaica is almost perfect. Society is very sociable, and living, except butchers meat, excellent and very cheap; servants the same, viz., a really good cook, \$2 a week, waiter ditto, groom ditto. Imported articles from England are sold very low.

> Watkins would not buy a keg of beer for his acquaintances on his wedding day, though required to do so by the usage of East Carondelet, Mo., and in spite of a positive demand by the thirsty crowd. They dragged him to a high bridge, and dropped him into the cold water. This caused a postponement of the marriage, but did not produce the beer.

Two factory girls had been sentenced to four months' imprisonment for drunkenness in Lowell, Mass. They were young, and their case excited sympathy in court. As they were being taken out the officers saw their mother slip a bottle of whiskey into the pocket of each. There was no longer any astonishment that they had become drunkards

The Judge, jury, and counsel in a Philadelphia will case went to the house of a scientist and put a suspected signature under a powerful microscope, in order to examine the ink in connection with that of the body of the document. The jurors were first cautioned not to make any remarks to indicate their conclusions while looking through the instrument.

Mr. Guilford Onslow and other friends of the Tichborne claimant visited him at the Portses prison a few days ago. The convict is reported to be in good health, and although depressed as to the prospects of release, rallied considerably when informed that efforts were intended to be made on his behalf in Parliament by one or two members who had hitherto taken no active interest in his cause.

SHREWDNESS AND ABILITY.

Hop Bitters freely advertised in all the papers, secular and religious, are baving a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation - Examiner and Chronicle.

DESPERATE ATTEMPT AT SUICIDE. BUFFALO, Feb. 22 .- William Crawford, a single man, 47 years old, made a desperate attempt to commit suicide this morning, making three gashes in his throat with a razor. He had been drinking very hard, and was probably deranged by liquor. At last accounts it was thought he might recover. Crawford lived at one time in Montreal as cok-keeper for the Grand Trunk Railway, and has been in Buffalo three or four years. He is a stenographer, but, as it would seem liquor had rendered him unfit for the position of responsibility, and he has been working as a day laborer. Since last Saturday night he had been out of work, and for four or five days previous to that, up to Monday of this week, he had been drinking unusually hard, though for the last two days he had not drank at all. He lived a solitary life, never making a friend or confident, and, when his working hours were over, would be found sitting apart or taking long solitary walks, as if brooding over his troubles. He is said to be respectably connected in England.

A new ordinance of Cincinnati requires all manufacturers and other large consumers of coal to use a smoke-consuming apparatus. It is believed to be possible to abate the nuisance which detracts so much from the comfort of living in that city. The law is not generally obeyed as vet.

Youngstown, Ohio, May 10th, 1880.

DR. B. J. Kendall. & Co., Genis:—I had a very valuable Hambletonian colt which I prized vory highly, he had a large bone spayin on one joint and a small one on the other which made him very lame; I had him under the charge of two veterinary surgeons which failed to cure thim I was one day reading the advertisement of Kendall's Spavin Cure in the "Chicago Express," I determined at once to try it, and got our druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thorough trial, I need it according to directions and the fourth day the colt ceased to be lame, and the imps have disappeared. I used but one bottle and the colts limbs are as free from lumps and as smooth as any horse in the state. He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it. Very Respectfully.
