metic, Book-keeping, Practical Geometry, Architec room for exercise and amusement. The Students are ture, History, Natural History and Agriculture, which constantly under the mild and efficient care of their

The course of instruction will commence by an elementary class, in which none but boys from 7 to 10 years of age, will be admitted.

The purely practical course, as above mentioned, will require five years study, but at the request of parents, and according to the disposition of scholars, may be extended to seven years, by the study of history on a more extended scale; literature and Catholic philosophy. All these branches will be taught in English and French, so as to procure to the Student a perfect knowledge of both languages.

In this manner, education is given according to the different wants of society, the aptitude of scholars, and according to the desire and the means of parents.

Horticulture is practised by the students of this College, while they study the principles of this science in each class.

When the pecuniary resources of this establishment will admit it, practical agriculture will be taught in all its branches.

Every intelligent boy, having good recommendations as to his morals, can be admitted.

Plain and harmonized Chant are taught. The care and instruction of the scholars, is confided to masters living under the same regulations as in other Colleges. They wear a dress in harmony with the respectability of their station, and they, as well as the scholars, are directed by a Superior-a Priest-named by his Lordship, the Bishop of the Diocese.

The scholars dwelling at the College, will take their meals with families in the village, recommended to them. This has no inconvenience whatever, since they return to the College as soon as the repast is taken. Parents are very much favored by this arrangement.

The scholars wear a blue uniform, with white edgings, and a green belt. This is the traditional dress of the country, for young students, and none more convenient or more respectable, could be selected.

Terrebonne is too well known for its salubrity, and its picturesque beauty, to require any recommendation to the attention of parents.

The price for instruction and lodging at the College is Five Shillings a month; and scholars can be boarded in the village for Four Dollars a month.

The scholars will attend Mass on Sundays, in the choir of the Parish Church, and must, in consquence, have the requisite choir-dress.

The ambition of the Director of this College, is not to have many pupils, but to have them good, and to make them good and useful members of society.

The inhabitants of the village of Terrebonne are

satisfied, that this establishment; although yet in its infancy, has already done some good; and hope that, with the help of Providence, it may continue to be useful to all classes.

Pupils not belonging to "The Church," will also be admitted in this College, and will receive the same attention as the others, but they are requested to observe the same rules.

Particular attention will be paid to cleanliness, and to the health of the Pupils.

The Masson College is under the patronage of the Mother of God, and of St. Joseph, the patron of youth, par excellence; under the united title of Mary Joseph.

The property belongs to a legal body, the churchwardens of Terrebonne; and as it is quite a new establishment, its resources are naturally very limited. In any case, improvement is as necessary to this Institution as to most others, and in consequence, any donation of useful Books, Maps, Globes, or whatever public generosity may deposite, with the view of favoring education, will be gratefully received. 28th August, 1850.
