

Canada's National Wealth

Canada's National Wealth has been carefully estimated at over \$20,000,000,000, or over \$2,200 per capita, and the annual national income at \$3,500,000,000, or over \$400 for every man, woman and child in the Dominion. Canada thus ranks as one of the wealthiest countries in the world.

It cannot be too frequently pointed out that **Victory Bonds** are backed by this vast wealth and earning power. They are backed by the credit of the whole Dominion, and her right and power to levy taxes. They are backed by the varied resources, developed and undeveloped, and by all the assets of the people of Canada.

The security is not only unquestionable, but it is beyond all comparison the greatest afforded by any investment in Canada.
