Supervisory Control Systems
Training Programs/Films/Books
Transportation
Transportation, Hazardous Waste
Disposal
Ventilators
Wastewater Treatment Services
Water Pollution Control

Company/Product

Hatch Associates Ltd. is one of the top 100 exporters of engineering services worldwide. Hatch was incorporated in 1955 and has offices in Mississauga, Montreal, and Sudbury as well as branch offices in England, Buffalo, Dallas, and New Jersey. Hatch has received many awards honouring its innovative problem solving and top quality comprehensive engineering which it has practised over the years. These awards include Canada's highest achievement in consulting engineering, the Schreyer Award, and the Australian National Engineering Excellence Award. Hatch is particularly renowned for bridging gaps between research, engineering, and operations.

Hatch Associates is a general consulting engineering firm with environmental quality control expertise in air pollution, industrial ventilation, waste water treatment, and solid waste management. All projects incorporate engineering controls to optimize occupational health and safety. To complete the company's projects in a timely and cost effective manner, Hatch Associates uses such tools as computer-aided drafting and simulations, fluid dynamic scale modelling, noise prediction and control, environmental and energy auditing, risk assessment, hazards and operability analyses, and information services from the company's own library.

Current Geographic Marketing Activities

Hatch provides quality engineering consulting services to industry and government agencies in North America and in more than 38 countries worldwide. Its clients include public transit companies (rail, bus, and subway), iron and steel mills, nonferrous metal mills, pulp and paper mills, public utilities and institutions, regulatory authorities, and general manufacturing and process industries.

Contact Sought

Hatch Associates would like to develop contacts with senior individuals in the public or private sector who are responsible for both indoor and outdoor environmental quality control.
