

*H. idreusalis* is not a Pyralid; perhaps a Tineid.

*H. eubucalis*!

*H. germinalis* is near, if not the same as *H. humuli* Harris.

*H. caecalis*! Is it a Hypena?

*H. edutalis*!

*H. schriatalis* is not a Hypena.

*H. cacamialis*. Too much rubbed for description.

*H. fractiosalis*. A good species, but is it a Hypena?

*H. fulvialis*!

*H. habitalis*!

*Doripodes acutalis* [not *D. acutalis* Guen.] is a genus allied remotely to Hypena.

*Hormisa absorptalis*!

*Ricula propinqualis*!

*Herminea morbitalis*!

*H. pedipitalis*!

*H. curralis*!

*H. jacehusialis*!

*H. theralis*! Too much rubbed for identification.

*H. gyasalis* = *H. pyramusalis*.

*H. pyramusalis* = *H. gyasalis*.

*H. protumnusalis*!

*H. eumelusalis*!

*H. metonalis*! Specimens in bad condition.

*H. bifurcalis*! Specimen in bad condition.

*H. cloniusalis*!

*H. phalerosalis*!

*H. salusalis*!

*H. heliusalis*!

*H. elitusalis*!

*Bleptina surrectalis* is the common large Aglossa.

*B. mynesalis*!

*Epizeuxis goosalis* is not a Helia.

*E. lituralis*!

*Palthis angulalis*!

*Pyralis farinalis*!

*P. hyllalis*!

*Aglossa cuprealis*!
