SPECIALTIES AGAIN UNDER INFLUENCE
Manipulation Evident on New York Stock Exchange Dealings.
METAL SHARES HIGHER
Standard Issues Neglected for More Speculative Kinds.

NEW YORK, Nov. 11.—The tendency of today's market was doubtless disappointing to the constructive interests which welcomed yesterday's general rise in standard shares. Investment shares were inclined to waver on re-rolling sales, while specialties, particularly automobile stocks, were again under the influence of manipulation at further sensational advances. Conspicuous among these descriptions were General Motors, which made a gain of 25 to the new high price of 40. Willys-Overland, up 23 to 235, and the Maxwell group, wherein gains of 2 to 3 points were registered. Other issues of the same class, notably Studebaker, Baldwin Locomotive, Lacawanna Steel, Crucible Steel, New York Air Brake, Continental Can and American Can rose 3 to 6 points.

CANADIAN ISSUES MET WITH DEMAND
Montreal Stock Exchange Closed Strong After Big Day's Business.

MONTREAL, Nov. 11.—Stocks were in good demand on the local exchange today and prices responded readily to early advances for the most part. The market opened at 219 1/2, against 218 at the close on Wednesday, rose to 225 1/2 and finished at 225 1/2, with a net advance of 6 1/2 points. The common advancing 5 to 7 and closing 9 1/4 bid, while the preferred rose 5 to 11 and finished 11 1/4 to 12 1/4.

CANADA'S INTERNAL LOAN WILL BE BIG SUCCESS
Finance Minister Pleas With Promises of Hearty Co-Operation.

OTTAWA, Nov. 11.—Hon. W. T. White, finance minister, has been working night and day making preparations for the issue of the loan. The loan will be floated in the form of a 4 1/2 per cent. loan, and the minister has been engaged with his staff in making the preliminary for the loan. Mr. White expects to announce this morning as much gratified at the assurance of hearty co-operation from the banks, financial institutions and the public generally. The prospect, he said, appeared very favorable for the success of the issue.

STEAMSHIPS AND AMES-HOLDEN SUPPORTED BY MONTREAL-STEEL STOCKS FIRM BUT QUIET
There was an improved tone to the Toronto stock market yesterday, but the main advance occurred in specialties, which are receiving support from Montreal. These were Ames-Holden and Steamships, the common stock in each case making about a three-point rise. Information on each issue is confined pretty much to generalities, but little more is available on American stocks, which have discounted many times what the Canadian issues are commanding. The Steels were quiet and little changed. Steel Corporation did not figure in the trading at all. Bids of 48 3/4 were made for the stock, but on the decline offerings have apparently dried up. Nova Scotia was dealt in at a small advance. Shredded Wheat made a new high at 101, but only 30 shares changed hands. In the unlisted stocks Steel and Radiation had a good recovery to 111-2 and Simons to 143. Public interest is increasing in the market and more activity is looked for.

PETE LAKE STRONGER OTHER STOCKS QUIET
Price of Silver Makes Another Advance—General Mining Market is Firm.

SILVER MAKES ANOTHER ADVANCE
Silver made another advance yesterday to 50 1/4 on an ounce, a new high price on the present movement. This had no distinct effect upon the Toronto stock market generally, which was quiet, but the undertone of prices was steady to firm. Hollinger held its advance of 38 1/2 bid, but was inactive, and Dome was similarly quiet and easier. Dome Extension was wanted at an advance of a point, but the offering was not taken. McIntyre made a similar advance and was also in good inquiry. McIntyre Extension made a new high price at 23 1/2, and the market generally many a rise to a much higher figure. Timiskaming was strong at 41 1/2 and this company has benefited materially by the higher prices for silver owing to the large reserves of ore.

MACHINERY AND MEN FOR BOSTON CR. CLAIMS
SWASTIKA, Nov. 10.—A sixty-horsepower boiler and condenser and other machinery has been ordered by the Rapp and Crawford Prospecting Syndicate for their Boston Creek claims.

LONDON METAL MARKET.
LONDON, Nov. 11.—Spot copper, 275 1/2; tin, 2,100; silver, 105 1/2; gold, 153 1/2. Spot tin, 217, up 22 1/2. Futures, 218 1/2, up 2 1/2. Sales, spot tin, 130 tons; tin, 218 tons. Lead, 225 2/3, up 7 1/2. Spelter, 285 1/2, up 2 1/2.

THE MANAGEMENT OF REAL PROPERTY
A feature of Trust Company service is the management of property. Hence, a Real Estate Department is a necessity in a properly constituted Trust Company. Formed originally to administer property in estates of which the company is executor, our Real Estate Department is also prepared to serve property holders generally.

CATTLE RECEIPTS SOMEWHAT LIGHT

Very Little Change in Price Because of Monday's Big Supply.
HEAVY LAMBS QUIET
Had to Drop Twenty-Five Cents Hundred Before Buying Started.

The receipts of live stock at the Union Stock Yards on Thursday numbered 573, including 684 cattle, 1109 hogs, 1615 sheep and lambs and 62 calves. Butcher cattle receipts are four market days for the sale of butchers' cattle, but Thursday did not look like one of them. There were practically no steers and few calves. The majority of the 684 head of cattle, in spite of the strongest feeling, were of the type shown by Wednesday's trading. It is another example of too many cattle on the Monday market. There were 5000 head in the first day's market and the bears worked the market and the price of cattle yesterday and most of the week were feeding cattle and cows. Shippers would not have so many regrets if they did not confine all their operations to one day. Wednesday's receipts will have to stand, as the small lots sold yesterday corresponded steadily with the previous day's trading. The several straight lots of good cattle yesterday sold from 47 1/2 to 52 1/2. The close with the close with the weak levels of the previous three days. Canners have the best demand. Bulls are in good demand. There was not much change in the situation in this division over the early week's report, but buyers anticipated an easier tendency, as they were not sure of the demand for steers to feed and the present price of steers is not sufficient to make the finishing of cattle a good business locally. Most of the trading was of a speculative nature, and the market was somewhat unsettled. With the present tone of the market and slow sale for low grades, shippers must anticipate fancy prices for fancy animals, and the prices quoted must be shaded if pain or rough weather is to be expected. Milk and milkers and springers: There seems no change in the demand for milk cows and values are firm and unchanged. Lambs: The market here lost a little of its prevailing activity, due to the slow sale of heavy-weight lambs, and these had to drop at once to 20 to 25 cents per lb. The market for light lambs, however, was not affected and sold readily. Cattle: Receipts of 160 select hogs, 300 cull lambs, 87 1/2 to 90. Choice heavy lambs in some quarters. The market for hogs is in demand at 55 to 56 per hundred, and the price of hogs is 55 to 56 per hundred. Choice heavy lambs in some quarters. The market for hogs is in demand at 55 to 56 per hundred, and the price of hogs is 55 to 56 per hundred.
