 THE BRADSTREET COMPANY gathers information that reflects the financial condition and the controlling circumstances of every seeker of mercantile credit. Its business may be defined as of the merchants, by the merchants, for the merchants. In procuring, verifying and promulgating information, no effort is spared, and no reasonable expense considered too great, that the results may justify its claim as an authority on all matters affecting commercial affairs and mercantile credit. Its offices and connections have been steadily extended, and it furnishes information concerning mercantile persons throughout the civilized world. Subscriptions are based on the service furnished, and are available only by reputable wholesale, jobbing and manufacturing concerns, and by responsible and worthy financial, judiciary and business corporations. Specific terms may be obtained by address to the company or any of its offices. Correspondence invited.

THE FAMOUS "TOWER" LINE OF EDGERS

Why pay twice as much for an edger requiring twice the power and floor space, and doing no better work?

Note the following valuable features:

1. They take up little room.
2. They require little power.
3. The feed rolls are adjustable in FOUR directions, which means absolute accuracy.
4. The saws may be removed easily and quickly, without disturbing the arbor.
5. The mechanism for shifting the saws is up-to-date, convenient and positive.
6. The vital parts are carried by a substantial iron husk resting solidly on the floor.
7. There is no edger made approaching them in cheapness.

Made in two sizes, as follows:

The **TOWER 2 and 3-saw Edgers, Improved.** For mills cutting up to 20,000 ft. in ten hours.

The **TOWER EXTRA 3-saw Edgers.** For mills cutting up to 30,000 ft. in ten hours.

We also manufacture

The Celebrated and Only Original
GORDON HOLLOW BLAST GRATE
 and

The "TOWER" One-Man 2-saw Trimmer.

The only one-man trimmer on the market. For mills cutting up to 30,000 ft. in ten hours. Two feeds.

FAIRBANKS WOOD-SPLIT PULLEY

The Best for Saw and Planing Mills

This pulley is not an experiment but has been sold for several years past all over the United States, and the universal satisfaction it gave and the success it met with prompted us to manufacture in Canada.

It has a reputation superior to that of any other Pulley for merit of design, workmanship and finish. The "web" construction (see cut), built in the rim, not only strengthens the entire Pulley but makes it impossible for the rim to work loose at the arm.

Each segment is not only glued but nailed with three nails to the next one. Four point bushings are used, giving twice as much grip on the shaft as in the usual two piece bushing.

The merits of any article are best proved by a trial. Send us a trial order the next time you want any pulleys. We carry a large stock and with our factory in Montreal can supply any special pulley in 24 hours if not in stock.
