Four men are now in jail charged with being implicated in a number of quite extensive robberies from different stores, including the N.E.P.S., Spences's and S. Menson's.
Particulars of the arrest of Robinson and Bradley in this connection have already appeared in the Colonist. The other two are George Welch and Joseph Sweetman, captured in their cabin early yesterday morning. It appears that these four have for some time past been engaged in sneak thieving from various stores, and have disposed of the property thus secured in part to Indians and at different saloons. All four have been identified by the Indians who were found in possession of some of the stolen goods as the possession of some of the stolen goods as the parties of whom they purchased them.
