

THE MCEACHREN HEATING
AND VENTILATING COMPANY.

Hamilton, March 1st, 1896.

The McEachren Heating and Ventilating Co., Galt.

Gentlemen,—Your Hot Water Heater put into our Waiting-room and Offices by your agent, Mr. McEwen of this city, has given good satisfaction and has performed all you claimed for it. Our Waiting-room and Offices have been very comfortable even in the most severe weather, and the consumption of coal has been very moderate in consideration of the space heated. We consider it a very economical, safe, easy to manage and an efficient mode of heating.

Yours truly,

A. J. NELLES,

Manager of the H. G. & B. Elec. Ry.

London, April 28th, 1897.

The McEachren Heating and Ventilating Co.

The Little Wonder boiler you put in my green house last fall kept the house warm all winter and I like it very much. The boiler was very easily attended to.

JOHN PAWLITZKI, Florist,
London.

Toronto, Jan. 26th, 1897.

The McEachren Heating and Ventilating Co.

Please find enclosed cheque for \$125 in payment in full of your boiler and connections. The heater (Little Wonder) has given me greater heat than I expected, the fact is the return pipes seem to give as much heat as the feed, and must say I am more than pleased with the heating of my store; have fully 50 per cent. more heat than I had before with two coal stoves and also two gas stoves. Send any one you choose for reference.

Yours respectfully,

A. BOLLARD

199 Yonge St., Toronto.
