Liberally-Oats and Pro-

Ret. Prices cosed unsetted at 1% to 2% net lower, with necessor 1.50% to 1.50% and May 1.24% to 1.25; oats lost to 2, and the in.sh in provisions tailed from 30 cents uscline to 10 cent. Attho at first the corn market showed considerable strength, the bulls were soon at a disauvantage, and during the reat a disadvantage, and during the remainder of the s.ss.on the tendency was downward. The temporary up.u.n at the opening seemed due to advances in the New York stock market and to higher quotations on hogs. But there was a tack of aggressive buy.ng, and it was not ong before a majority of traders swung around to the opinion that the more i.b. erai arrival today pointed to a st.t. heavier expansion of supplies in the immediate future. Toward the last bear.sh sentiment became pronounced, owing media.e It.u.e. Toward the last bear.si sentiment became pronounced, owing more or less to reports that the raincads were furn, shing cars with greater freedom than has recently been the rule. Oats followed coin, advancing early only to weaken later. New England of fe.s to resell had a depressing influence. Provisions were governed chiefly by the action of gran.

### BRAZILIAN HAS SPIRITED RALLY

Firm Tone on Toronto Market -Bid for International Petrol Up Ten Points.

Brazilian Traction's decided rally in he alternoon trading and an extension the up.u.n in the steel stocks were incidents of chief note on the Toronto exchange yesterday. Dealings were the a summent in ger scale than on Inuisuay, but in only a small group of tion, could be caused spirited. With the Victory Loan drive terminating ioactivity in the stock ma ket next week, but in many quarters the benef prevail that the severe shaking-out unuergone this week has disturbed continued so rudery that the pools can no longer rely upon the training public reaching for stocks. In Montreal efforts ale being renewed to bid up a number of spicialities, but the edge of builsh enthus asm has been very perceptiony duiled

ceptip.y duiled it has been noticed on several accasions in ricent months that when brazilian begin to nover perilously case to the 50 mark strong support was forthcoming. This was the experience of yeste day. In the morning the price actually builded 50, the low the price actually fluched 50, the low level of the movement, but in the afternoon offerings seemed to cease abruptly, and on determined bedding the price rose to 52 3-4. While the closing sale was at 52 1-2, the final bid stiffened again to 52 3-4, leaving the net gain at ab ut 2 1-2 points. Dominion Iron advanced two plints to 71, haif a point of the gain being later for eited. Steel of Canada was carried up two points also to 75 3-8, but weakened to 74 1-4 in final dealings, gutting the gain to an even point. The eaction in the steels was a reflection of the irregularity toward the close in New York.

New York.

The majority of price changes elsewhere were in an upward direction. By all odds the most strik ng upturn was in the bid for International Petroleum, which at 62 was ten points higher than on Thursday. There has not been a trade in the stock on the Toronto expension. mono oiz d deal ngs in this issue. Petrol sold on the curb yesterday a ound 60 and is being tipped for a rise to 75, but as the sock is now quoted at twelve times the par value the movement has d'scounted a whole Railroads Supply Cars More

lot of good news. Maple Leaf at 195 and Steamsh ps at 71 were each up two points, and Spanish River at 68 and Canada Bread at 22 1-8 showed gains of substantial fractions. Toronto Railway was heavy at 40 1-2. There was g of buring of the war loans part cu'arly of the Victory issue
