NOT ADVISABLE, SKYLORDS

INSIST UPON A DEPOSIT

Select Committee Report That It

is Unnecessary for Policy-

holders' Protection.

London, Aug. 11.—"In view of the

evidence they have heard, the commit-

tee do not consider that in the interest

of British policyholders it is desirable

to compel foreign companies to deposit

funds in this country."

Thus, the select committee of the

house of lords appointed to enquire into

and report on what steps should be

taken, by the deposits of funds or

otherwise, to provide adequate security

to the British policyholders in life in-

surance companies which have their

chief offices outside the United King-

dom, but which carry on business in

this country, sums up its findings.

Reasons Why.

The committee found an almost un-

animous opinion among the leading

British actuaries and life insurance

managers against compelling foreign

companies to deposit funds for the

security of British policyholders, their

reasons being that—

It would be contrary to the prin-

ciples in regard to insurance companies

which had hitherto prevailed in Great

Britain.

It would violate the principle

that the whole of the funds of an in-

surance company should be available

for the claims of all policyholders alike.

It might lead to reprisals on the

part of foreign governments.

It might lead the public to be-

lieve that the solvency of the com-

panies making the deposits was guar-

anteed by the government.

Such deposits might seem to imply

a statutory basis for valuation, the

tendency of which might weaken rather

than strengthen the reserves.

And that such deposit of securities

would appear to give an unfair ad-

vantage to British subjects holding

policies in a foreign company, while

under such a limited state of super-

vision it was doubtful whether the

policyholders would be as well pro-

tected as they are by control through public-

ity and the freedom which exists in regard

to British companies.

This evidence, according to the re-

port, induced the committee to recom-

mend against foreign companies being

required to make deposits.

Placed on Par.

The report further says that foreign

companies should be placed so far as

the business position is concerned on

par with British subjects holding

policies in a foreign company, while

under such a limited state of super-

vision it was doubtful whether the

policyholders would be as well pro-

tected as they are by control through public-

ity and the freedom which exists in regard

to British companies.
