A FLOURISHING ST. JOHN INDUSTRY

The Cotton Mills Rushed With Orders and Cannot Get Enough Skilled Help.

A flourishing local industry of which St. John should be proud is that of the Cornwall and York Cotton Mills Company. Some years ago, when the present company took over the properties, it was said that nothing would ever come of it. It was a dead letter. Today, however, the results show that the energetic citizens who had confidence in the success of the mills and in St. John, were not mistaken. Never before in their history has there been such a rush of orders as is now being experienced. The mills are working night and day to the extent of their capacity and the orders cannot be filled. Better goods than ever before are being turned out and are being sent all over the Dominion. Owing to the press of orders the management has had to withdraw the samples and they are now making strenuous efforts to keep up with the demand. New machinery is being put in from time to time to replace the old, and the plant is being kept up-to-date in every way.

Electric lights were installed in the Cornwall mill last year, and now the York mill is to be fitted out as well. An addition to the York mill will also be made shortly, when a weaving room will be added to the Courtney Bay structure. James F. Robertson, the president of the company, said this morning that the prospects were never brighter than at present. He attributed the great success they had had to the policy of turning out only the best goods possible, keeping abreast of the times by the introduction of new machinery and the energetic work of the manager, J. B. Cudlip. Although the mills now furnish employment for a small army of operations, the company could find work for still more if they could get them.

GOOD PROGRESS WITH DREDGING

The Site of No. 2 Crib Now About Ready--The I. C. R. Berths.

Contractor Mayes completed his work on No. 2 crib site this morning and final soundings are being taken by the government engineer. The dredge will commence work on the site of No. 3 crib as soon as the tide serves this afternoon. It is estimated that a week's work will put No. 3 site in readiness.

Mr. Clark will probably take soundings tomorrow and if the results are satisfactory the No. 2 crib will likely be placed in position on Thursday.

In conversation with Mr. Mayes this morning he said he thought No. 2 would be found all right. There was a possibility that some small boulders might have rolled off the bucket without his knowledge, and he thought that everything was satisfactory the diver was going over the bottom this morning.

Arrangements may be made for the Beaver to do the necessary work at the I. C. R. pier for the government.

THREE SYNAGOGUES

As stated by the Times on Saturday last, Louis Green purchased the Unitarian church on Hacey avenue, in order to fit it up as a synagogue. It is to be used by the older members of the Jewish congregation, who now worship in the old synagogue. Mr. Green stated that the decision is made on account of the older worshippers speaking the English language and the late comers conversing in the Russian lingua, and that through any difference of opinion on doctrine. Rabbi Rabinovitz will conduct service in the new synagogue, and he will have an assistant to minister to the wants of those attending the old place of worship. There is also one in the north end.

GOT OVER A TON OF THE DOGFISH

A peculiar sight was witnessed this morning at Lookhart's slip on Water St. Harvey Ring, who owns a fishing net near the breakwater near downtown, went to that place this morning early and found it full of dogfish. They had made up his mind to throw away the net, but Mr. Ring loaded two or three boats with the destructible fish and brought them up to the city, where he disposed of them to deB. Curritte. There was in the lot about 2,500 of the fish and Mr. Ring stated that he had the weir as many more. Out and around the breakwater is alive with them, and they are a great nuisance to the fishermen. The fish were taken away in carts to the fertilizer establishment at Little River.

Both these lots are undoubtedly the best designed and finished ready-to-wear dress suits ever brought to St. John.
