KINGSTON WOMEN SMOKE
Russian Cigarettes Are Favorites With Them.

Kingston, Ont., Sept. 28—Inquiry among local tobaccoists elicited the information that smoking among Kingston ladies is increasing. The majority of ladies who use cigarettes in this city do not purchase the cigarettes which are made specially for women's use and in most cases do not make their own purchases. There is, however, a great demand among ladies for the best and, incidentally, the most expensive brands of Russian cigarettes.

Montreal, Sept. 28.—In connection with the recent suggestion of Dr. McDougall, president of the Montreal Harbor Commission, that a free port zone be established in Montreal harbor, it was pointed out by steamship officials here, that a free port scheme is now in successful operation at Gothenburg, Sweden. A recent issue of Lloyd's List Weekly Summary states that the administration of Gothenburg's free harbor is provided for by the Swedish legislature and embodying certain rules and regulations. The most important of these provisions is that exempting the harbor from customs dues. Goods may be landed, stored for an unlimited period and shipped off again to other lands without being subjected to any customs dues whatever. Only as and when the goods cross what may be termed a "customs frontier" do they become subject to duty. When goods are forwarded to places within Sweden, provided that such places have a customs house, the customs dues are levied at the destination and not at Gothenburg. All harbor dues levied on ships or

goods are determined by the Swedish government, and all charges relating to labor within the free harbor are determined by the Lord Lieutenant of the City and County in consultation with the Chamber of Commerce and the Association of Shipowners. Charges for labor in the "customs" harbor are approved by the Chamber of Commerce, but are not obligatory. Owing to the unstable conditions which now obtain it may be found necessary to modify the scale of dues from time to time, but it may be taken for granted that any changes will be in the direction of reduced dues, as the harbor authorities are said to be most anxious to reduce all costs to the minimum. That portion of the harbor now completed is the first instalment of a scheme which contemplates the con-
