

join the Society, and it also prevents us from enrolling unsuitable members.

Two members have been married, and continue in the Society as Friendly Helpers.

The prizes offered last year for sewing, knitting, darning, crochet and button-hole making were awarded at the annual festival. The competition was open to the other branches in the city, two of whom sent in work.

The amount of work done at the meetings has not been quite as large as during former years, as games have been provided which many of the members seem to enjoy. We expect, however, to have a bundle of clothing ready to send to Algoma before the meetings close for the summer.

One of our working associates, Mrs. H. C. Scott, was obliged to resign this winter, greatly to our regret, as she had been an active worker in our Branch since it was first started. The Branch meetings for Working Associates have been held once a month to discuss matters connected with the Society.

Respectfully submitted.

SARAH W. WILLIAMS,  
*Secretary.*
