tions are not attending the meetings. Nothing so common appeals to them. They do not go to church because of any religious sentiment, but just because it is the proper thing to do, since really the very best people quite frequently attend, and the fact that the present services are offering opportunities for hearing some of the ablest speakers in the East, is no argument to those self satisfied ones who scorn to participate in anything which might lead to an awakening of sentiment. It is true that all the churches have been stirred, some a great deal more than others, but if the fashionable congregations can be aroused to anything like the degree of interest now displayed by some of the others, the purpose of the promoters

have embittered the whole nation, and whatever undeveloped sentiment may have existed in favor of Home Rule has been put out of existence by this premature attempt to throw the country into continued turmoil. The Star remarked some months ago that the Nationalists whose interests are not the interests of the British, would desert the government at the first favorable opportunity, but it was not believed such an error of judgment would be made as that of Mr. Redmond in the first sitting of the new parliament. His campaign would have been much more effective had he asserious difficulties by which the govequally certain it is that there will be

which might lead to an awakening of sentiment. The one or two churches which feel this way are well known. All the other congregations realize just what is going on and frequent comment is heard on the fact that some of those churches, which it was expected would be sources of great strength in the campaign, are in reality weakening it.

There are other congregations again which have been going in for these meetings like a hungry boy at a plate of jam turts. The services are just what the people wanted. They realized that under the ordinary procedure they were getting into a rut, taking only a certain amount of interest in their church work and not inclined to unduly exert themselves in any particular way. They felt the need of a shaking up and are glad it has come because they know it is going to do them a lot of good. This is especially true of the North End and the Brussels Street congregations. In each group there is a deeply marked earns.

Two things greater than all things are.
The first is love and the second war;
And since we know not how war may prove, Heart of my heart, let us talk of love.

And also because it is the day of the Saint of Lovers, the day on which any topic but love would be more or less an impertinence.

There is, I believe, some talk nowadays among women as to the relative value of love and a career. I have heard college girls gravely question whether a woman was happier married or in the possession of a latchkey, a profession and a greater amount of luxury than she might otherwise have had.

I wonder if any same normal woman really ever

I wonder if any sane, normal woman really ever had such doubts.

Of course I realize that almost any woman would be definitely happier and better off winning her own bread than eating bread earned by a man she did not love-and luxury, and a latch-key-well, words fail And so, to all the gilrs, young and old, among my readers, to whom the man o' dreams has not yet come I'm going to wish as my Valentine wish that before the dawning of another St. Valentine's day he shall

THE MUSIC OF THE MORNING

(By L. M. Montgomery)
When I waken in the morning, as the
earliest sun-rays glisten
Over dew-wet hill and valley, and
the east is bright with gold,
I like to lie a minute with dreamy
eyes and listen
To the far-off mingled music of
dawn-voices manifold.

THE LAY OF THE MUZZLED DOG With tail between his legs,
With feet that were weary and slow,
A poor muzzled dog came limping

And this is his tale of woe:-'Tis tramp, tramp, tramp,
With a cage on the end of my nose; 'Tis tramp, tramp, tramp, From dawn until daylight's close;

The very cats on the street,
Know well my teeth I lack,
They don't even take the trouble
To spit and put up their back,
While the bones that I used to pick

up,
I can only regard with a sigh,
Just sniff through the bars at a time,
Then silently pass them by.
O, people with Christian hearts,
The rables you say that you fear,
Will ne'er be wiped out by torture
like this,
First brought on by this bateful gear. But brought on by this hateful gear.

A STRANDED SEAMAN

NEWBURYPORT, Mass., Feb. 21—
The story today of a seemingly exhausted man, claiming to be John Eaton, of Little Deer Isle, Me., second engineer of the Spanish steamer Canuso, that his vessel was wallowing helplessly in the sees. It walls a seem of the sees of patent leather or black satin, covered with coarse white net and ornamented with pretty net rosettes clasped with buckles of jet are finding fayor.

A new material of wonderful softness, thick yet featherweight, is Wornambo Polo cloth. This is intended for coats for golding, for the seashore and mountains. "I had liefer ye were worthy of my love
Than to be loved again of you."

I hope it will be so splendid a love that you will be able to chant with George Herbert—

"Love is a present for a mighty King."

I hope it will be so all-sufficing a love that you will be able to chant in substance, with Omar—

"A flask of wine, a book of verse and thou livelide me singing in the wilderness, And wilderness is Paradise enow."

I wonder if some one is saying that I am writing nothing of myself toda; but merely making a mosaic of what poets have said.

Eaton claims that the steamer is about 15 miles off Cape Ann.
Eaton's claim of a home in Little Deer Isle, Me., is partly substantiated by his statements of facts and families there, which local natives of that place say are correct, Inquiry at Deer Isle tonight, failed to disclose any of the several Eaton families there who might fill the claiman'ts description.
