Passing Through a Severe Crisis in Her History.

A Deadlock From British Refusal to Surre der Property Chinese Government Conceded to Russia.

PEKIN, Jan. I.—An imperial edict, issued last Friday, remarks that Chima is passing through a severe crisis in her history.

It reminds viceroys and governors of the numerous edicts that have been issued lately ordering administrative reforms; points out that many of these have not been observed, and commands the immediate institution of reforms in the methods of training troops, in agriculture, in manufacture and in everything likely to conduce to the prosperity of the empire.

GALLANT RESCUE

Of the Crew of a Sinking British Steamer.

NEW YORK, Jan. 1.—The American line steamer Paris, which arrived today from Southampton after a tem-Tuesday, Dec. 27, lat. 49.29 north and lon. 31.29 west, at 8.30 in the morning, she sighted a steamer flying signals of distress. On bearing down to her steamer Vindobala, Captain Clarke, from Rouen Dec. 15 for Philadelphia. She showed the signal letters "N. D.," meaning "Must abandon vessel." A Chief Officer Bradshaw, Fourth Officer Webb and eight seamen. A dangercus sea was running at the time, and a hearty cheer was given the life sav-The boat was unable to go alongside the Vindobala, owing to the heavy sea, but the Vindobala's crew were fastened to lines thrown to the boat and were hauled on board. The ship's carpenter unfortunately let go of the line fastened to him and was lost. Al-though the distance between the two steamers was not great it took two and land them on board the Paris.

The Vindobala was an iron steame of 1,865 tons gross measurement, and registered 1,167 tons, built at Hebburn John Bell and Richard S. Symonds of Newcastle-on-Tyne. The Vindebala sprang a leak on Dec. 22 which could rot be located.

n port at one time yesterday. This made a net tonnage aggregating over 28,000 tons. There were four steamers. in one dock, something never seen here before, and one big ship forced to lle out in the stream for want of dock-ing room. Up to this point there has been altogether twenty-four steamers here since the middle of November. This is seven more than had come to Pontland up to this time last year. The Grand Trunk railroad is taxing the capacity of its single track to the utmost to bring in the immense to load these big ships. There were over 400 car loads of Lodon merchans dise alone in the yards Tuesday.

SNOW LOCOMOTIVE. Adderman George Waring intends going to the province of Quebec next, week to erect and drive into the woods a novel machine for hauling logs on the snow by steam power. The ma-chine is made in Michigan and is to be sent by rall to a station on the I. C. R. east of Levis, where Mr. Waring seventy-five miles to its place of operation in the forest, on the head waters of the St. John river. George Cushing is the enterprising lumber-man who is starting this new method of handling logs in the woods. The weight of the machine is upwards of twenty tons. It is said that several of these engines are operating about. Winnipeg and in the western states. This new departure will be watched with much interest by the friends of Messrs. Cushing and Waring.

PARIS, Dec. 31.—Jos. Vacher, the French "Jack the Ripper," was guillotined at Bourgin-On-Brosse, capital of the department of Ain, this morning. He protested his innocence to the last. Vacher, who was 28 years of age, was condemned at the October assizes at Ain. He is known to have brutally murdered four boys, six women and girls and an old widow. Most of the victims were tending herds when Vacher came behind them and cut their throats.

were tending herds when Vacher came behind them and cut their throats.

The crimes of Jos. Vacher tave surpassed in number and atvocity those of the Whitechapel murderer known as "Jack the Ripper." His homicidal mania first broke out as the surpassed in his motive was neither theft nor vengance, his irresponsibility was established. Physiologically, physicians have regarded the case interesting. It was shown that Vacher had been confined in an asylum for the insane, and that while doing military duty a love affair caused him to attempt young a love affair caused him to attempt self-destruction by shooting. The victims of Vacher were shepherds and shepherdessed and his rage was particularly directed against young girls. He first out the throats of his victims with a knife and afterwards of his victims with a knife and afterwards of his victims with a ragor. He was arrested last year after the police had searched for him for a long time in vain.

In defence of Vacher it was pointed dut that when a youth he was bitten by a mad dog and that the village herbalist gave him some medicine, after drinking which he became strange, irritable and brutal. It also appears from those statements that from time to time he developed a passion for human blood.
