THE SEMI-WEEKLY SUN

ST. JOHN, N. B., OCTOBER 30, 1901.

ANARCHY IN THIS SENATE.

Senator Tillman of South Carolina is now in the west. A despatch from Oklahoma reports him to have said at Guthrie: "The advice of President Roosevelt in entertaining that negro will necessitate our killing a thousand niggers in the south before they will learn their place again."

THE SUPREME COURT OF CANADA.

Chief Justice Sir Henry Strong contradicts the report sent out through the government organs that he desires to be retired from the supreme court bench on an allowance. He will probably not deny that he has been approached by the government on the subject of vacating the chief justiceship.

AGAINST ADMISSION OF NEW-FOUNDLAND.

The agitation for the union of Newfoundland with Canada is pronounced by Mr. Tarte's Patrie. Mr. Lemieux, the federal member for Gaspé, is another opponent of the project.

"condition of the island has made it impossible to undertake." If Mr. Tarte showed a disposition to check expenditure in Canada, or to prevent the growth of the debt, this project might be taken more seriously.

GENERAL BULLER AND HIS SPEECH.

Following yesterday's announcement that General Buller had been relieved of his command, we print today the London Times' report of the general's offending address. Evidently the dismissal is on account of the speech, and not because of anything that General Buller did or was accused of having done in Africa.

THAT LIFELONG CONSERVATIVE.

A rather ghastly joke has been played on Premier Ross of Ontario, Chief Organizer Smith of that province, and the government press throughout the Dominion. The organs in all the Canadian cities contained the startling announcement the other day that Mr. Mabey, "a lifelong conservative," had published a strong and effective criticism of Mr. Whitney, the Ontario opposition leader.

MR. MASSEY.

Mr. Walter Massey, whose death at a comparatively early age, is announced, was perhaps the most prominent of the Canadian captains of industry. The great industry of which he has been the head for the last six years was built up by his father, but the son was not much of the same type.

WICKED NEW YORK

London Times Article Has Raised a Storm of Protest. Object to Ouldiers Knowing Just How Bad the American Metropolis is.

LONDON, Oct. 28.—The Times prints the following New York despatch: "Yours of Thursday regarding the condition of New York was telegraphed back again here and has raised a storm of protest. Commissioner of Police Murphy calls it: 'Wickedly and maliciously false.' One paper calls the despatch 'fiction,' and the attitude of the other papers is similar. There never was a better illustration of the American character, that so long as the criticisms of anything American are printed in the United States, nothing is said, but outside criticism is denounced. The papers which declared the despatch to be as it has been printing articles declaring the condition as deplorable. On Thursday an evening paper gave a list of the burglaries which had been committed in a few days in a single section with the heading: 'What burglars are doing while Tammany's police sleep.' Another paper, the same day, said: 'Reports of robberies are suppressed by wholesale. As a matter of fact, the police are afraid to make arrests. There are five precincts within a short distance of headquarters in which robberies are held-ups are the rule rather than the exception. It is a fact that the police have orders not to make arrests between now and election unless absolutely compelled to do so.' Then follow details of a number of cases of crimes down town. In one case the victim shouted for the help of a policeman who was 25 yards away, but the officer turned and walked in an opposite direction. 'Morning newspapers printed a column article headed: 'Assaults, thefts, and even murders fall to the police.' 'It is said that if the complaints of crimes committed on Park row made to policemen were only reported at the stations, the thoroughfare would be held to be as vile a resort as the 'Five Points' during its most evil days. Then follows a detailed list of recent robberies on Park row."
