In some cases he left his victims in London, Brussels, and different other towns in the United States, after which he returned to the Continent to find new ones. Some of the girls were assisted home by the Consulates, Many others perished in foreign countries. Some months ago the Criminal Investigation Department found out that Rothgerber was living under a false name with a titled lady at Charlottenburg, but he left after taking his landlady's jewelry away. After his flight the lady found out that Rothgerber had obtained goods under false pre-tences in her name, and sold them again for cash. For similar offences he was wanted by the Hanover police. BERLIN, July 20.-The arrival of a w heir to the imperial crown of eGrnany has been a source of great delight, not only to the parents of the at a rate quite as low as the trust young prince, but still more to the Kai-ser's only daughter, Princess Victoria age of being in the power of a huge ser's only daughter, Princess Victoria Louise, who is exceedingly happy in her new dignity as aunt. I am told that as soon as she heard the shots fired in honor of the new-born prince, and had found out that she was to have a nephew and not a niece, she nediately went down in the wine cellar and ordered the "kellermeister to send up champagne for every serv ant and soldier on duty in the palace. The kellermeister sent word to the mpress to find out whether he be obeyed or not, and although the emdaughter, she sent word back that she thought it was a most timely one, and so everybody in the palace drank the

It is considered significant, in view of the rumors that a reconciliation is to take place at Copenhagen between the Kaiser and the Duke of Cumberland, that a very cordial letter of con gratulation was received by the Crown Prince from the old Dowager Queen Maria of Hanover and her son, Duke Ernest August of Cumberland.

that a meeting will take place between the King of England and the Kaiser before the end of this year. There have been many rumors to this effect, but I am informed by a chief of department in the government service that it is the wish of both monarchs to meet and confer upon certain mat-ters, and more especially as to what peril and to find a substitute for the American canned and fresh meat, which the people of both countries are determined to exclude.

Roosevelt, through the American ambassador to England, Whitelaw Reid, that the American government would guarantee the quality of all American meats bereafter, is ridiculed here, and it is pointed out by many papers that the American president must either be a very childlike person or he must be lacking in good faith. All experts here agree that inspection under the new American law will amount to little

"What the American government ought to do," writes a prominent German paper, "is to follow the example set by the German authorities at Esslingen Wuertemberg, the other day, when eight thousand gallons of adulterated wine were poured into the two rivers which flow near the town. If the American department of agriculture would from time to time unexpectedly investigate the big slaughter houses from roof to cellar and destroy every thing not up to the mark the packers ful and the time might come when we could once more safely buy American meat. A great German trust which sought to acquire control over the electricity supply of an entire province, has been defeated in its object by a combination ful "octopus" under the banner of municipal ownership.

The scene of the battle was at Rhen ish Westphalia, the greatest industrial district in Germany. A great colliery owning concern, the Gelsenkirchen Colliery Union, began the campaign by absorbing the Aachen Blast Furnace Union and the Schalke Coal and Iron Union. The combination then employ employed 34,000 men and produced an tons of pig iron. Then a wholesale coal-distributing concern joined the trust, which now resembles a combine on the American model.

The next step was to acquire the Rhenish Westphalia Electric Lighting Co., which supplied twelve towns, and to raise its capital to \$25,000,000 The important manufacturing town

of Dortmund was then attacked, with the object of acquiring the electrical bought out, and the big deal looked like being successfully accomplished, when the Dortmund manufacturers came to the conclusion that the trust, although it offered a cheap supply of electricity, was an enemy to their interests, as a monopoly must always be with regard to small concerns. Dortmund therefore declined to trade with the trust, and Hagen, a neigh-boring town, forestalled the trust by starting a municipal power supply of many different kinds of violation or its own.

The trust then turned its attention Dusseldorf, but that city acquired the lectricity works at those places,
