

LIBERALS ARE DIVIDED OVER HUDSON BAY R.R.

Sifton Faction Trying To Oust
Oliver In Order To Secure
Big Expenditure On Gov-
ernment Road.

LAURIER AS USUAL LEANS BOTH WAYS

Special to The Standard.

Ottawa, Sept. 26.—It is understood that despairing of any move on the part of Hon. Mr. Laurier in the direction of resignation from the cabinet unless an issue presents itself which would save his dignity, his enemies within the Liberal party are preparing that issue. It is understood that Mr. Oliver favors the handing over of the Hudson Bay railway to the Mackenzie and Mann interests and that in this he is supported by the Premier Scott faction in Saskatchewan and the ex-premier Rutherford party in Alberta. Hon. Clifford Sifton however, and his brother Premier Sifton with Hon. Wm. Templeman are said to be the opposing influences to this proposition, who are determined to see that the Mackenzie and Mann interests will not get the railway and if this party are successful Mr. Oliver's tenure of office would be naturally of short duration.

There is a report to the effect that the Siftions and Mr. Templeman are receiving a measure of support from Sir Wilfrid Laurier. Hon. George P. Graham and others, who are willing to build the railway and its connections as a purely government enterprise, are the intended railway what-
ever the cost. If this is the case Mr. Oliver can hardly afford to retain his portfolio. His resignation would be very acceptable to the powers that be.

DRIVEN OUT BY PHOSPHORUS

Five Little Pieces Started Fire
In Somersworth High School
Which Threatened To As-
sume Serious Proportions.

Somersworth, N. H., Sept. 26.—Five pieces of phosphorus placed in some unexplained manner on a pile of cord-wood, smoked the 80 students out of the high school this afternoon and started a fire which if it had broken out at night, probably would have destroyed the building. When the school was closed for the summer recess, there were jars containing phosphorus in the laboratory.

All except one jar had disappeared when the school was re-opened two weeks ago. How it disappeared and by what means the pieces reached the wood are mysterious.

The acting janitor saw smoke pouring from the basement but could find no fire. Fearing the 40 tons of soft coal was burning, the school was dismissed. After water and chemicals had been poured upon the coal, the source of the smoke was discovered. No damage was done.

PARTIES IN LINE FOR CONFLICT

Roosevelt and Sherman Arrive at Saratoga for
Republican Convention Today--Stevens Prob-
able Republican Candidate--Opposition to
Gaynor Develops.

Saratoga, Sept. 26.—Saratoga is in a turmoil tonight on the eve of one of the most important Republican state conventions ever held. The old guard are making the issue "shall Theodore Roosevelt rule the Republican party in the state of New York?"

Col. Roosevelt reached Saratoga late today and within five minutes of his arrival, had plunged into the situation taking full command of the progressive forces, and rounding up the wavering unpledged delegates. The political tides finally set in for the progressives tonight and the Colonel repeated the declaration he made at Troy: "We have beaten them to a frazzle, and the trophies are ours."

Col. Roosevelt came into Saratoga late today breathing defiance to his enemies and declaring the victory already won. He was met at the railroad station by the New York county delegation headed by Mr. Griscom, and hundreds of delegates and towns people. A procession was formed and headed by a Troy band, it marched to the United States Hotel, where the Colonel made a brief speech. "Good luck," he shouted, waving his black slouch hat to the crowd. "I shan't try to make any speech now. I'll make my speech tomorrow." Then before the crowd could rush in on him, the Colonel dashed to his headquarters, where, with his lieutenants behind locked doors, he obtained the latest information concerning the situation. Vice president Sherman came to the village this morning from Utica, and went quietly to his room. Few knew of the arrival for he came in from Schenectady on a trolley car. Mr. Sherman had nothing to say and spent most of the day talking with friends on the veranda of the hotel.

The arrival of Col. Roosevelt, was not without its effect on the camp of the old guard and they redoubled their efforts. Lieutenants of William Barlow, Jr., who is leading the old guard forces, say tonight that they have made a few gains, but are not ready to claim a majority of the convention. After a talk with Col. Roosevelt tonight, Mr. Griscom announced that the progressives had 574 delegates out of the 1015 in the convention which would give them a good working majority.

He said that since the arrival of Mr. Roosevelt, the progressives had gained four votes. Behind the open work to capture a majority of delegates silent and unseen pressure is being brought to bear by the leaders on both sides. Members of the old guard button holding the uncertain delegates are pleading with them to stand by the organization.

Frederick C. Stevens, supt. of public works, who comes from Wyoming county, loomed large today as a candidate for governor. Efforts were also made during the day to have Representative Denney of New York to withdraw his candidacy for the gubernatorial nomination to make way for an upstate man, but Mr. Bennett was not inclined to be persuaded.

Representative J. Sloan Fisset, of Chemung county was asked tonight if he would permit the chairman of the Republican state committee to succeed Timothy L. Woodruff, but he indicated that he had no desire for the position.

NEW MOVE IN LACROSSE

Proposed At Toronto To Have
Five Team League With
Players Controlled On Base-
ball Plan.

Special to The Standard.
Toronto, Ont., Sept. 26.—If Montreal drops out of the National Lacrosse Union there is a movement on foot to form a four club league, comprising Shamrocks and Nationals of Montreal, and Torontos and Tecumseh of Toronto, and play a game every Saturday from May to September. Each club would have nine games at home, and nine away, playing a triple schedule. The proposal is for each club to reserve their last year's players and put the Ottawa, Cornwall and Montreal players on the market for any of the clubs, and do away with the residence rule, also have a paid president to appoint officials and buy, sell, and release players like they do in baseball.

There would then be a game here every Saturday and a game in Montreal every Saturday.

Secretary Thompson of the Torontos and Manager Querrie of the Tecumseh said this morning they had not heard of it yet, but admitted that it would be a great league.

Mr. Macintosh was leading the animal to drink, when it suddenly became angry and attacked him. The terrified man, realizing his perilous position, fought the infuriated brute for almost fifteen minutes, when he was overpowered and dreadfully mauled by the crazy creature.

CONFIRMATION OF CAR WORKS TRANSFER STORY

J. R. Douglas Of Amherst Gives
More Particulars Of Acquisi-
tion Of Silliker Plant By
Outside Men.

C. P. R. NOT BEHIND DEAL

Special to The Standard.

Amherst, N. S., Sept. 26.—The news that the control of the Silliker Car Company had passed into other hands was quite freely discussed in this town today. When interviewed by The Standard tonight, J. R. Douglas said that it was quite true that over two months ago J. R. Douglas and himself had acquired a controlling interest in that industry. Since that time they had been associated with them a strong group of financial men in Halifax and Amherst and St. John.

It was not true that the industry was going to be acquired by the C. P. R., nor was it going to be merged. They intended to operate it as it was. They had secured a large contract with the Canadian Northern, enough to assure a full year's work.

Other extensions were also under contemplation, but Mr. Douglas would prefer not making any definite announcement until matters were more fully settled and until he had conferred with the other parties interested. He leaves for Halifax tomorrow on business in connection with the transfer.

STRIKERS IN BERLIN FIGHT

About midnight thousands of strikers stormed the fire station and the Reform church in Buessele Strasse, wrecking the windows and doors. The police were compelled to charge repeatedly and to use severe measures. They are bivouacking in the streets during the night.

CADETS STILL UNDER ARREST

West Point Corps Who Treat-
ed Instructor With "Silence"
Have Been Deprived Of All
Privileges.

West Point, N. Y., Sept. 26.—Although the special board of inquiry will not report for several days, drastic discipline is still being observed at the United States Military Academy as the result of the cadets' treatment of the superintendent, Captain Rufus E. Longan, instructor.

The following orders were issued today by Lieut. Col. Frederick W. Sibbey, the commandant, who has the situation in charge, during the absence in Washington of Major General Barry, the superintendent:—"Until further orders, cadets will confine themselves to their rooms. During release from quarters from immediately after breakfast and from immediately after dinner, until call to quarters, cadets will confine themselves to the limits of the area of barracks, and the cadet sentinels will be posted ten minutes after drill and will make inspection every half hour."

This means that the entire corps is practically under arrest, denied all privileges, and permitted to see no one not officially connected with the military academy. The order will remain in force until the return of General Barry, who is expected tomorrow.

With all recreation abolished football practice has necessarily been temporarily suspended, and all hop dates in the near future have been cancelled. From various sources it has been learned that Capt. Longan, as a punishment for questioning the veracity of cadets' untruthfulness in cadet life, Capt. Longan aroused the resentment of the entire corps.

ELOPEMENT OF TIP KNOX ENDS IN A DIVORCE

Young Son Of U. S. Secretary
Of State Residing At Reno
After Few Months Of Wed-
ded Life.

WIFE WAS CLERK IN DEPARTMENT STORE

Special to The Standard.

Reno, Nev., Sept. 26.—Young Philander C. Knox, Jr., son of Secretary of State Knox, is in this state for the purpose of establishing a legal residence for the filing of a divorce complaint against May Heller, the pretty young girl clerk in a department store with whom he eloped six months ago, when he was a pupil at the Morris Heights School in Providence, R. I.

It is understood a divorce is to come notwithstanding the fact that his parents have become reconciled and forgiven him, as reported.

From no less authority than the declaration of a prominent president of a bank here, it is authoritatively admitted that the smooth-faced stocky young man has been in Nevada for a couple of weeks.

The elopement of "Tip" Knox at the age of 19 was not without incident, for he literally travelled from the North to the South looking for a person to tie the knot.

When this was accomplished he had to face the parental wrath of Philander Knox, sr., who was in no complacent mood at the news of his son's secret marriage.

"Tip" Knox announced that he would shift for himself. He became a salesman for an automobile concern after refusing to become a headliner in vaudeville. He would not disgrace the family name, he said. A month passed; then came the announcement of parental forgiveness.

Now comes his residence at Reno for the purpose of divorce.

WHERE DO ALL THE PENNIES GO

Philadelphia Mint Turned Out
146,000,000 Cents Last
Year And Nearly As Many
Are Again Required.

Washington, Sept. 26.—Notwithstanding the Philadelphia mint coined 146,000,000 pennies last year, and many other millions in years before, the mystery of where the little coppers go still is unsolved, and director of the Geo. E. Roberts estimated the big plant will turn out another 100,000,000 this year. Pennies, more so than any other sort of coin, disappear from circulation very mysteriously.

The government does not mind coining them, however, for they yield a fine profit. A pound of copper costing now about 13 cents, will make a dollar in pennies. The big gold stamping machines in the Philadelphia office will begin work too, next month, and several million dollars in gold bullion will be turned into bright new coins. The Denver mint began coining gold two weeks ago.

ACTION AT LAST.

Ottawa, Ont., Sept. 26.—Hon. Charles Murphy, secretary of State, went to the printing bureau today and resumed his personal inquiry into the affairs of that institution. This is the first time Mr. Murphy himself has been there, since the disappearance of Gould-
thrite, and his visit caused a flutter in the department.
